DIRECTION TO ROADS CORPORATION WITH RESPECT TO THE FLINDERS STREET OVERPASS REMOVAL PROJECT

I, Peter Batchelor, Minister for Transport:

- having determined that the road project known as the Flinders Street Overpass Removal Project (“the Project”) is a designated road project under section 16 of the **Road Management Act 2004** (“the Act”); and
 - having specified the Roads Corporation (“VicRoads”) as the road authority to which the designated road project is assigned; and
 - having designated a project area with respect to the designated road project; and
 - noting that VicRoads may, pursuant to section 119(1)(b) of the Act, perform any road management function under the Act on any road in relation to a project assigned to VicRoads by the Minister; and
 - considering that it is in the public interest to do so—
- direct VicRoads, pursuant to section 22 of the Act, to perform the functions and exercise the powers of a co-ordinating road authority and a responsible road authority with respect to the designated road project in the following manner—
- at all times in consultation with the Melbourne City Council (the Council); and
 - so far as is practicable, in accordance with any processes and policies that the Council would follow if it were the co-ordinating road authority and responsible road authority with respect to the project area.

I further direct VicRoads—

- before the specified parts of the Project cease to be a designated road project under section 16 of the Act, to commission a survey of all roads within the project area; and
- upon the Project ceasing to be a designated road project under section 16 of the Act, to declare as arterial roads, municipal roads or other appropriate road classifications as applicable and as agreed between VicRoads and the Council, or to vary or revoke the existing declarations as arterial roads, municipal roads or other road classifications, or to discontinue any parts of existing roads of, all roads in the project area, to the extent necessary to ensure that all boundaries of the roads as declared align with the boundaries of the roads, whether existing or proposed roads, as surveyed.

I specify that this direction is to apply for the period of time during which the project remains a designated road project under section 16 of the Act.
