RULES FOR ROULETTE**1 DEFINITIONS**

- 1.1 In these rules—
- “**Casino Supervisor**” means a person other than a Game Supervisor who is responsible for the supervision and management of gaming operations.
- “**Dealer**” means the person responsible for the operation of the game.
- “**Dolly**” means an indicator used to denote the winning number.
- “**Game Supervisor**” means the person responsible for the supervision of the operation of the game.
- “**Marker button**” means a button used to denote a value.
- 1.2 Unless contrary intention appears, a Game Supervisor or a Casino Supervisor may perform any function or exercise any power of the Dealer.
- 1.3 A reference in these rules to the game is a reference to the game of Roulette played at a particular gaming table.
- 1.4 A reference in these rules –
- 1.4.1 to a bet is the contingency or outcome on which a player may place a wager; and
- 1.4.2 to a wager is the money appropriated to such a bet in a particular case.

2 EQUIPMENT

- 2.1 The table layout will be marked in a manner similar to that shown in Diagram A, Diagram B or Diagram C.
- 2.2 The Roulette wheel will be configured as shown in Diagram D and must have 37 equally spaced compartments around its perimeter. One compartment will be marked with the numeral “0” and coloured green and the others marked with the numerals “1” to “36” coloured alternately red and black.
- 2.3 The ball used for play on a game of Roulette must be made completely of a non-metallic substance and must not be less than 17 millimetres and not more than 22 millimetres in diameter.

3 PLACEMENT OF WAGERS

- 3.1 Wagers will only be accepted in chips. Chips used for play on the game may be either:
- 3.1.1 Cash chips marked with denominations of value; or
- 3.1.2 Colour chips, which are non-value chips without denomination markings.
- (a) The colour chips of a particular set will each bear the same distinguishing emblem or mark to differentiate them from colour chips of other sets in use at other tables. Each set will be subdivided into various colours.
- (b) Colour chips issued at a particular Roulette table will only be used for gaming at that table and will not be used for gaming at any other table in the casino.
- (c) The Dealer may accept a colour chip(s) for redemption only if:
- (i) the colour chip(s) was issued at that particular table; or
- (ii) the colour chip(s) was issued at a table that is now closed. In this situation Surveillance will be notified and the value at which the colour chip(s) was initially issued will, where possible be determined. If the initial value of the colour chip(s) cannot be established, they will be

exchanged at the lowest table minimum offered by the casino for the particular game played at the closed table at the time the player requests redemption. The exchange will be verified by a Pit Boss (or above).

- (d) The Dealer will not issue colour chips with the same colour and design to more than one player at the same time unless the particular players issued with the chips agree.
 - (e) The specific value to be assigned to each chip will be declared by the purchaser. If that value exceeds the table minimum it will be denoted by a colour chip and a related marker button bearing a number on it to designate the value set by that person.
 - (f) At the discretion of a Casino Supervisor, a player may be issued with colour chips of more than one colour at the same table provided no other player as a result is precluded from wagering with colour chips.
 - (i) In such instances the colours issued to the one player may be of different values providing the value of each colour is declared by the purchaser according to 3.1.2 (e).
- 3.2 Until a decision and settlement has been made in respect of any wager, no wager may be handled, placed, changed or withdrawn after the Dealer has announced that no more bets may be placed except that a winning wager may be withdrawn before the next spin.
- 3.3 Wagers orally declared will only be accepted if accompanied by chips, cash, vouchers or authorised tokens which must be converted to chips and placed on the layout before the Dealer announces that no more bets may be placed. All wagers must be placed before the ball comes to rest.
- 3.4 Players are responsible for the positioning of their wagers on the layout, whether or not they are assisted by the Dealer. They must ensure that any instructions given to the Dealer are correctly carried out.
- 3.5 Wagers will be settled strictly in accordance with the position of chips when the ball falls to rest in a compartment in the wheel.
- 3.6 At the settlement of wagers for a spin, the Dealer must—
- (a) clear any losing wagers; and
 - (b) pay any winning wagers
- 3.7 Wagers may only be placed in accordance with rule 3.
- 4. PERMISSIBLE WAGERS**
