**TOWONG PLANNING SCHEME**

Notice of Preparation of an Amendment  
to a Planning Scheme

Amendment C14

Authorisation A0154

Towong Shire Council has prepared Amendment C14 to the Towong Planning Scheme. The Amendment affects the whole of the Shire, in particular land presently zoned Rural Zone.

The Amendment proposes to make the following changes to the Towong Planning Scheme:

- Replace the Municipal Strategic Statement (MSS) with a revised version which is supported by the Towong Shire Council Plan 2004 – 2008.
- Introduce the Farming Zone (FZ) over land currently zoned Rural Zone (RUZ) within the Shire that has been identified as highly versatile and productive agricultural land by the Department of Primary Industries.

- Introduce the Rural Activity Zone (RAZ) over land currently zoned Rural Zone within the Shire that has not been identified as being of prime agricultural importance by the Department of Primary Industries.
  - Introduce the Rural Living Zone (RLZ) where this type of subdivision and land use pattern already exists and in recognition of existing development at Thowgla Road, Upper Thowgla; Pioneer Avenue, Corryong; Green Wattle Gap Road, Corryong; the Benambra–Corryong Road at Stacey’s Bridge, Nariel Valley; Flagstaff Track, Bethanga; Murray River Road, Walwa and O’Connell’s Road, Mitta Mitta.
  - Introduce the Rural Living Zone (RLZ) at Bellbridge North and west of the township of Tallangatta.
  - Introduce the Rural Conservation Zone (RCZ) on land at Tom Groggin surrounded on three sides by the Alpine National Park and on the New South Wales border side by the Kosciusko National Park and land at Mt Lawson surrounded on all sides by the Mt Lawson State Park.
  - Introduce a Low Density Residential Zone (LDRZ) in recognition of existing residential settlement at Cudegwa, Granya, Towong and Tintaldra.
  - Rezone a small portion of land currently zoned Rural Zone (RUZ) to Road Zone 1 (RDZ1) at Johnstone Creek (Plan of Subdivision PS506975J). Goulburn Murray Water has set the land aside and vested the ownership of the land in VicRoads as required under the **Road Management Act 2004**.
  - Introduce a series of corrections of identified mapping anomalies to rectify where public lands had previously been incorrectly zoned and corrections to the zoning of freehold land which had previously been zoned as public land.
  - Introduce a Design and Development Overlay (DDO1). The DDO1 is being applied to guide the future subdivision and development of buildings on the land zoned Rural Living Zone (RLZ).
  - Remove the Environmental Significance Overlay 1 from the planning scheme. The introduction of the Farming Zone will replace the Environmental Significance Overlay. The new zone is based on expert data supplied by the former Department of Agriculture and the zone accurately reflects the highly productive and versatile agricultural lands within the Shire.
  - Revise the Local Policies contained in Clause 22 of the planning scheme to accord with the introduction of the new zones and the revised MSS.
  - Introduce a new Local Planning Policy to guide development within the Rural Living Zone.

**PROPOSED PERMANENT WATER SAVINGS MEASURES**

Extension of Public Consultation

East Gippsland Water (EGW) is proposing to introduce permanent water savings measures for all water supply systems across the region from 1 March 2006.

Water shortages across the state led to the development of Permanent Water Savings Plan and it is important that these new water savings measures, which will be imposed by water authorities, are easily understood and readily adopted by customers.

EGW has extended the period of public consultation to 17 February 2006.

Key elements of the draft Water Saving Plan are contained in the table below:

<b>Purpose</b>	<b>Restriction/Prohibition</b>
<b>Residential or Commercial Gardens*</b> * This term includes lawns.	(a) An automatic watering system: (i) must not be used, except between 6 pm and 10 am on any day of the week; and (ii) which is installed on or after 1 November 2006, must not be used, unless it is fitted with either a rain sensor, soil moisture sensor or equivalent device, as part of the control system.
