**Planning and Environment Act 1987**  
**VICTORIA PLANNING PROVISIONS**

Notice of Approval of Amendment  
 Amendment VC38

The Minister for Planning has approved Amendment VC38 to the Victoria Planning Provisions and all planning schemes in Victoria, except the Port of Melbourne Planning Scheme.

The Amendment comes into operation on the date this notice is published in the Government Gazette.

The Amendment changes the Victoria Planning Provisions (VPP) and planning schemes by amending:

- Clause 15.09 of the State Planning Policy Framework (SPPF): Planning and responsible authorities must have regard to Victoria's Native Vegetation Management – A Framework for Action (the Framework) and the three-step approach of 'avoid', 'minimise' and 'offset' is explained in more detail. The clause also encourages the use of property vegetation plans and native vegetation precinct plans.
- Clause 52.17 of the Particular Provisions: The purpose of the clause requires consideration of the three-step approach and encourages the use of two new planning tools: native vegetation precinct plans and property vegetation plans. The first is a tool for managing the removal and protection of native vegetation in an area or precinct; the second is a tool for managing native vegetation at a property scale. Exemptions from the permit requirements of the clause are now included in a table and minimum permit application requirements have been introduced. The decision guidelines have also been repackaged to strengthen the consideration of land protection, conservation significance and offset matters.
- Clause 66.02 of the General Provisions: This clause now requires more complex permit applications for native vegetation removal to be referred to the Department of Sustainability and Environment (DSE), and facilitates a simpler assessment of those applications that do not need to be referred. An application now needs to be referred to DSE if:

- more than 5 large scattered native trees are to be removed.
- more than 15 small scattered native trees are to be removed.
- more than 0.5 hectare of native vegetation in an EVC with a Bioregional Conservation Status (BCS) of endangered, vulnerable or rare is to be removed.
- more than 1 hectare of native vegetation in an EVC with a BCS of depleted or least concern is to be removed.
- a property vegetation plan applies to the site.
- the vegetation is on Crown land which is occupied or managed by the responsible authority.
- Clause 72 – General terms of the Definitions: Introduces a new definition for 'property vegetation plan'.

A copy of the Amendment can be inspected, free of charge, during office hours, at all municipal council offices in Victoria and at the Department of Sustainability and Environment, Planning Information Centre, Ground Floor, 8 Nicholson Street, East Melbourne 3002; Port Phillip Region, 30 Prospect Street, Box Hill 3128; North East Region, 35 Sydney Road, Benalla 3672; North West Region, 1 Taylor Street, Epsom 3551; South West Region – Ballarat, 88 Learmonth Road, Wendouree 3355; South West Region – Geelong, 4th Floor, State Government Offices, corner of Fenwick & Little Malop Streets, Geelong 3220; and Gippsland Region, 71 Hotham Street, Traralgon 3844.
