

# Victoria Government Gazette

No. S 321 Friday 7 December 2007  
By Authority, Victorian Government Printer

## Road Safety Act 1986

### ROAD SAFETY (VEHICLES) REGULATIONS 1999

Specification of B-double Routes and Conditional Exemption of Longer B-doubles

**1. Purpose**

To specify the areas, highways and routes that a B-double may travel in or on, and to specify a conditional exemption for longer B-doubles.

**2. Authorising provision**

This Notice is made under clause 11 of Schedule 2 and regulation 510 of the Road Safety (Vehicles) Regulations 1999.

**3. Commencement**

This Notice comes into operation on the date of its publication in the Government Gazette.

**4. Revocation**

The Notices published in Government Gazette No. S125 of 5 May 2006 is revoked.

**5. Expiration**

This Notice expires on 3 December 2012.

**6. Definitions**

In this Notice—

‘**Regulations**’ means the Road Safety (Vehicles) Regulations 1999.

‘**Approval Plate**’ means a decal, label or plate issued by a Competent Entity that is made of a material and fixed in such a way that it cannot be removed without being damaged or destroyed and that contains at least the following information:

- a) Manufacturer or Trade name or mark of the Front Underrun Protection Vehicle, or Front Underrun Protection Device, or prime mover in the case of cabin strength, or protrusion as appropriate;
- b) In the case of a Front Underrun Protection Device or protrusion, the make of the vehicle or vehicles and the model or models of vehicle the component or device has been designed and certified to fit;
- c) Competent Entity unique identification number;
- d) In the case of a Front Underrun Protection Device or protrusion, the Approval Number issued by the Competent Entity; and
- e) Purpose of the approval, e.g. approval for a Front Underrun Protection Device, or for a Front Underrun Protection Vehicle (UN ECE 93), or for Cabin Strength (UN ECE 29), or that the protrusion, if fitted, is compatible with the prime mover’s compliance as a Front Underrun Protection Vehicle (UN ECE 93), or other words or markings with a clearly equivalent meaning.

‘**Competent Entity**’ means a person or organisation appointed by an Australian road authority, who is certified and issued with a unique identification number, with the power to certify that the UN ECE requirements for Front Underrun Protection and Cabin Strength have been met, and continue to be met, and who may authorise the fixing of appropriate Approval Plates to a Front Underrun Protection device and a vehicle.

A Compliance Plate Approval (CPA) holding heavy vehicle manufacturer is deemed to be a Competent Entity, e.g. in the case of the prime mover original manufacturer, the unique identification number may be the Department of Transport and Regional Services (DOTARS) Road Vehicle Certification System (RVCS) licensee number.

‘**Front Underrun Protection Device**’ means a device fitted to a prime mover:

- (a) That complies with UN ECE Regulation No. 93 and meets all of the requirements set out in Section 6 “Requirement For FUPDs” of Part I and Section 8 “Requirements for Installation of an Approved FUPD” of Part II of those regulations;

**SPECIAL**

- (b) Where compliance with the performance requirements of UN ECE Regulation No. 93 was established by laboratory testing carried out in accordance with the procedures set out in Annex 5 of UN ECE Regulation No. 93; and
- (c) That was tested using the Test Conditions set out in Section 1 and the Test Procedure set out in Section 3 of Annex 5. (Simulation of the test procedure by calculation or other such method as provided for in Section 1.3 of Annex 5 is not available under this guideline, except with the specific approval of the Authority or when approval has been granted using an 'E-mark' issued pursuant to Annex 4 of UN ECE Regulation No. 93).

**'Front Underrun Protection Vehicle'** means a vehicle that complies with UN ECE Regulation No.93 (UN ECE R93) because it is designed and constructed so that it meets all of the requirements of Section 10 'Requirements for a vehicle with FUP' of Part III of those regulations.

**'E-mark'** means an approval mark arranged and issued in accordance with Annex 4 'Arrangements of Approval Marks' of UN ECE Regulation No. 93 or Annex 2 'Arrangements of Approval Marks' of UN ECE Regulation No. 29.

**'Protrusions'** are fittings such as 'Bull-bars', 'Roo-bars', 'Nudge-bars', 'Cow catchers', etc. It does not include driving lights, fog lights, running lights, aerials, etc.

#### 7. Interpretation

- (1) In this Notice, unless the contrary intention appears, expressions used have the same meaning as the **Transport Act 1983** and the Regulations.
- (2) For the avoidance of doubt, it is declared that nothing in this Notice is intended to authorise the driving of a B-double in a manner or in a condition or place that is contrary to any law except as specifically provided in this Notice.

##### Example

The specification of a highway as a B-double route does not permit a B-double to be driven over any bridge in contravention of a posted mass or dimension limit in relation to that bridge.

- (3) Map references to the Melway Greater Melbourne Street Directory ('Mel') and the VicRoads Country Street Directory of Victoria ('VSD') are provided to aid the reader and are not part of this Notice.

#### 8. Conditional exemption from dimension limits of certain longer B-doubles

A vehicle is exempt only if all conditions of the exemption set out in Schedule 1 to this Notice are being complied with.

#### 9. Declaration

By this Notice, the Roads Corporation specifies the following roads or parts of roads as B-double routes:

- (a) All freeways within the meaning of the **Road Management Act 2004**;
- (b) All arterial roads within the meaning of the **Road Management Act 2004**, except for—
  - (i) The roads or parts of roads listed in column 1 of Table B in this Schedule which are within the municipality or municipalities listed in column 2; and
  - (ii) The bridges, culverts or other structures specified in column 1 of Table C in this Schedule on the road specified in column 2 of that Table;
- (c) All roads declared under section 61 or 93H of the **Melbourne City Link Act 1995**;
- (d) All roads declared under section 143 of the **EastLink Project Act 2004**; and
- (e) The municipal roads listed in Schedule 3 to this Order.

Dated 3 December 2007

ROBERT FREEMANTLE  
Executive Director  
Network And Asset Planning  
Roads Corporation

**SCHEDULE 1**  
**CONDITIONS OF EXEMPTION**  
**PART 1 – DIMENSION LIMITS**

- 1.1 A B-double must comply with clause 8 of Schedule 2 to the Regulations as if the reference to ‘25.0 metres’ of that clause were a reference to ‘26.0 metres’, if:
- (a) the distance from the centreline of the king-pin of the first trailer to the rear of the combination must not exceed 20.6 metres;
  - (b) the prime mover is a Front Underrun Protection Vehicle, which is fitted with an Approval Plate that is affixed on the prime mover cabin or in the proximity of the prime mover compliance plate/label in a position that is easily accessible to, clearly visible to, and readable by, a Police Officer or an Authorised Officer; or
  - (c) the prime mover is fitted with a Front Underrun Protection Device, which is fitted with an Approval Plate that is easily accessible to, clearly visible to, and readable by, a Police Officer or an Authorised Officer;
  - (d) any protrusion fitted to the front of a prime mover, must be fitted with an Approval Plate, that is easily accessible to, clearly visible to, and readable by, a Police Officer or an Authorised Officer, which indicates that the fitted protrusion is compatible with the prime mover’s compliance under clause 1.1 (b);
  - (e) the prime mover, if manufactured after 31 December 2005, must comply with Regulation No. 29 made under the UN ECE Agreement (UN ECE R29) for cabin strength;
  - (f) a vehicle complying with clause 1.1 (e) must be fitted with an Approval Plate that is affixed on the prime mover cabin or in the proximity of the prime mover compliance plate/label in a position that is easily accessible to, clearly visible to, and readable by, a Police Officer or an Authorised Officer; and
  - (g) the prime mover must not have a load carrying area.

**SCHEDULE 2**  
**TABLE A –**  
**DECLARED ROADS WHICH B-DOUBLES MUST NOT USE**

<b>Column 1 ROAD</b>	<b>Column 2 MUNICIPALITY</b>
Acheron Way	Murrindindi and Yarra Ranges Shires
Albert Road between Kings Way and Canterbury Road	City of Port Phillip
Alexandra Avenue between Grange Road and Williams Road North	City of Stonnington
Arthurs Seat Road	Mornington Peninsula Shire
Avenel–Nagambie Road between Goulburn Valley Highway and Spencers Road	Shire of Strathbogie
Beach Road	Cities of Bayside, Kingston & Port Phillip
Beech Forest Road between Lardners Road and Haines Junction	Shire of Colac–Otway

<b>Column 1 ROAD</b>	<b>Column 2 MUNICIPALITY</b>

**SCHEDULE 3****OTHER (LOCAL) ROADS ON WHICH B-DOUBLES MAY TRAVEL**

The local roads to which clause 7(2) of this Notice applies are:

**BULOKE, SHIRE OF (VSD Map 19)**

All roads

**GLENELG, SHIRE OF (VSD Map 71)**

Roads in the Shire of Glenelg are approved, other than:

1. Sections of local roads within the towns of Casterton, Dartmoor, Digby, Heywood, Merino, Nelson and Sandford where the speed limit in the 'speed limited area' in those towns is 80 kilometres per hour or less; and
2. Sections of local roads within the City of Portland where the speed limit in the 'speed limited area' is 80 kilometres per hour or less, except for those roads listed under Portland.

Note: To travel on the sections of roads in 1 and 2 above, a letter of support from the Shire is needed and a subsequent permit obtained from VicRoads.

3. The following roads:
  - (a) Old Telegraph Road between the South Australian Border and Paramount Road;
  - (b) Section Road at Dunrobin;
  - (c) Casterton–Dartmoor Road; and
  - (d) Mocamboro Road at Merino.

**HORSHAM, RURAL CITY OF (VSD Maps 40 & 544)**

All roads in the Horsham Rural City are approved other than,

1. Roads where a load limit applies; and
2. Roads which have a bridge on them and there is a load limit on that bridge;
3. Riley Road between the Western Highway and Geodetic Road (No travel over the Horsham and Dimboola railway line); and
4. Sections of local roads where the speed limit in the 'speed limited area' is 80 kilometres per hour or less except for those approved roads listed under Horsham Rural City.

**MILDURA (VSD Map 534)**

Swanston Street south of Fyans Street  
Wood Street from Newtown–Whittington Road to McColls Transport depot

GLENELG, SHIRE OF (VSD Map 71)

All roads in the Shire of Glenelg are approved, except:

1. Sections of local roads within the towns of Casterton, Dartmoor, Digby, Heywood, Merino, Nelson and Sandford where the speed limit in the ‘speed limited area’ in those towns is 80 kilometres per hour or less; and
2. Sections of local roads within the City of Portland where the speed limit in the ‘speed limited area’ is 80 kilometres per hour or less, except for those roads listed under Portland.

Note: To travel on the sections of roads in 1 and 2 above, a letter of support from the Shire is needed and a subsequent permit obtained from VicRoads.

3. The following roads:
  - (a) Old Telegraph Road between the South Australian Border and Paramount Road;
  - (b) Section Road at Dunrobin;
  - (c) Casterton–Dartmoor Road; and
  - (d) Mocamboro Road at Merino.
