6. Definitions

In this Notice–

‘**Regulations**’ means the Road Safety (Vehicles) Regulations 1999;

‘**Road friendly suspension**’ has the same meaning as in the Interstate Road Transport Regulations 1986 of the Commonwealth.

‘**Approval Plate**’ means a decal, label or plate issued by a Competent Entity that is made of a material and fixed in such a way that it cannot be removed without being damaged or destroyed and that contains at least the following information:

- (a) Manufacturer or Trade name or mark of the Front Underrun Protection Vehicle, or Front Underrun Protection Device, or prime mover in the case of cabin strength, or protrusion as appropriate;
- (b) In the case of a Front Underrun Protection Device or protrusion, the make of the vehicle or vehicles and the model or models of vehicle the component or device has been designed and certified to fit;
- (c) Competent Entity unique identification number;
- (d) In the case of a Front Underrun Protection Device or protrusion, the Approval Number issued by the Competent Entity; and
- (e) Purpose of the approval, e.g. approval for a Front Underrun Protection Device, or for a Front Underrun Protection Vehicle (UN ECE 93), or for Cabin Strength (UN ECE 29), or that the protrusion, if fitted, is compatible with the prime mover’s compliance as a Front Underrun Protection Vehicle (UN ECE 93), or other words or markings with a clearly equivalent meaning.

‘**Competent Entity**’ means a person or organisation appointed by an Australian road authority, who is certified and issued with an unique identification number, with the power to certify that the UN ECE requirements for Front Underrun Protection and Cabin Strength have been met, and continue to be met, and who may authorise the fixing of appropriate Approval Plates to a Front Underrun Protection device and a vehicle.

SPECIAL

A Compliance Plate Approval (CPA) holding heavy vehicle manufacturer is deemed to be a Competent Entity, e.g. in the case of the prime mover original manufacturer, the unique identification number may be the Department of Infrastructure, Transport, Regional Development and Local Government's Road Vehicle Certification System (RVCS) licensee number.

'Front Underrun Protection Device' means a device fitted to a prime mover:

- (a) That complies with UN ECE Regulation No. 93 and meets all of the requirements set out in Section 6 'Requirement For FUPDs' of Part I and Section 8 'Requirements for Installation of an Approved FUPD' of Part II of those regulations;
- (b) Where compliance with the performance requirements of UN ECE Regulation No. 93 was established by laboratory testing carried out in accordance with the procedures set out in Annex 5 of UN ECE Regulation No. 93; and
- (c) That was tested using the Test Conditions set out in Section 1 and the Test Procedure set out in Section 3 of Annex 5. (Simulation of the test procedure by calculation or other such method as provided for in Section 1.3 of Annex 5 is not available under this guideline, except with the specific approval of the Authority or when approval has been granted using an 'E-mark' issued pursuant to Annex 4 of UN ECE Regulation No. 93).

'Front Underrun Protection Vehicle' means a vehicle that complies with UN ECE Regulation No. 93 (UN ECE R93) because it is designed and constructed so that it meets all of the requirements of Section 10 'Requirements for a vehicle with FUP' of Part III of those regulations.

'E-mark' means an approval mark arranged and issued in accordance with Annex 4 'Arrangements of Approval Marks' of UN ECE Regulation No. 93 or Annex 2 'Arrangements of Approval Marks' of UN ECE Regulation No. 29.

'Protrusions' are fittings such as 'Bull-bars', 'Roo-bars', 'Nudge-bars', 'Cow catchers', etc. It does not include driving lights, fog lights, running lights, aerials, etc.

7. Interpretation

- (1) In this Notice, unless the contrary intention appears, expressions used have the same meaning as the **Road Safety Act 1986** and the Regulations.
- (2) For the avoidance of doubt, it is declared that nothing in this Notice is intended to authorise the driving of a B-double in a manner or in a condition or place that is contrary to any law except as specifically provided in this Notice.

Example

The exemption of certain vehicles with road friendly suspension from mass limits does not permit such a vehicle when used on a particular road to be driven over any bridge on that road in contravention of a posted mass or dimension limit in relation to that bridge.

- (3) Map references to the Melway Greater Melbourne Street Directory ('Mel') and the VicRoads Country Street Directory of Victoria ('VSD') are provided to aid the reader and are not part of this Notice.

8. Conditional exemption from mass and dimension limits of certain heavier and longer B-doubles

- (1) By this Notice, the Roads Corporation exempts B-doubles which are fitted with road friendly suspension on –
 - (a) a single axle with 4 tyres, on a motor vehicle or semi-trailer; or

- (b) a tandem axle group with 6 tyres, on a motor vehicle; or
 - (c) a tandem axle group with 8 tyres, on a motor vehicle or semi-trailer; or
 - (d) a tri-axle group with 12 tyres on a semi-trailer;
- from the requirements of clauses 2, 3, 4 and 8 of Schedule 2 to the Regulations.
- (2) However, a vehicle is exempt only if all conditions of the exemption set out in the Schedule to this Notice are being complied with.
