## EXEMPTION

Application No. A212 of 2009

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 83 of the **Equal Opportunity Act 1995** (the Act) by the Metropolitan Fire and Emergency Services Board (MFB) (the applicant). The application for exemption is to enable the applicant to give preference to persons of a particular race or races, namely Indigenous persons and persons from ethnic minorities by:

- (a) restricting participation in a youth mentoring program;
- (b) requesting the supply of information from people with an attribute; and
- (c) advertising to people with an attribute in relation to participation in the program.

In this exemption the conduct referred to above and in paragraphs (a) to (c) is called the 'specified conduct'.

Upon reading the material submitted in support of the application, including the affidavit of Dalal Smiley, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 42, 59, 100 and 195 of the Act to enable the applicant to engage in the specified conduct.

In granting this exemption the Tribunal noted:

- The MFB is a statutory authority, created under the **Metropolitan Fire Brigades Act 1958**. Its functions include providing for fire suppression, fire prevention services and emergency prevention and response services within the metropolitan fire district.
- The MFB is committed to encouraging and promoting diversity within its workforce. The MFB's Diversity Development Framework, which was endorsed by the Board of the MFB in April 2008, commits the MFB to recruitment practices that encourage and attract a diverse range of applicants for positions within the MFB's workforce.
- Certain groups, including persons of Aboriginal and other ethnic minority descent, are currently under-represented within the MFB's operational workforce. In 2008, the MFB convened a focus group which had the objective of identifying and analysing the reasons of this under-representation.
- The focus group concluded that the cultural and ethnic imbalance within the MFB's workforce was due, in part, to the fact that persons in under-represented groups typically have insufficient access to information about the role of firefighters and insufficient contact with active firefighters. The MFB has been provided with information which suggests that many firefighters choose their career in part because they know someone who is a firefighter and who has encouraged them to do so.
- In order to address the under-representation of certain groups within the MFB's operational workforce, the MFB and Mackillop Family Services intend to implement a youth mentoring program for young people from under-represented groups, including Indigenous persons and persons from ethnic minorities (the Program). Under the Program, operational firefighters will mentor young males and females from these under-represented groups, with the purpose of encouraging those young people to learn about fire safety, the fire service and firefighting as a career, as well as providing more general advice and support and helping those young people make the transition from adolescence into adulthood.
- A goal of the Program is to help participants understand the work of the MFB and firefighters more generally and, thereby, to encourage participants in the Program to apply for positions within the MFB. The MFB hopes that through participation in the Program the mentees will have sufficient information and access to a role model to encourage them to consider applying for firefighter positions within the MFB. In so doing, the MFB hopes in time to begin to rectify the under-representation of certain groups within its operational workforce. The Program will be made available to up to 20 mentees in any one year. Were it to be available to young people from all cultural and ethnic groups, the MFB is of the view that it would take considerably longer for its operational workforce to become fully representative. In any case, many young people from the dominant cultural and ethnic groups within

the MFB's operational workforce already receive informal mentoring and access to information from firefighters within those groups. The MFB is of the view that the Program should be focused on addressing an existing gap.

- The exemption will assist in achieving the objectives of the **Equal Opportunity Act 1995** by helping to address any under-representation of minority groups within the MFB. In addition, it will help to increase awareness of the importance of fire safety and fire prevention within minority groups.

The Tribunal hereby grants an exemption from the operation of sections 42, 59, 100 and 195 of the Act to enable the applicant to engage in the specified conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 24 September 2012.

VICTORIAN WORKCOVER AUTHORITY  
EXEMPTION CERTIFICATE  
Exemption from Occupational Health and Safety Regulations 2007  
Exemption Number H09/003264

**Purpose**

To exempt Australian Grand Prix Corporation from the requirement that an employer must not use unlicensed employees to do high risk work.

**Definition**

Australian Grand Prix Corporation, located at 220 Albert Road, South Melbourne, has defined their function as the employer responsible for the safety of the forklift operators employed by the International Racing teams and Dorna Management Limited.

**Background**

In undertaking their duties, Australian Grand Prix Corporation uses employees who operate industrial lift trucks (forklifts) and are required to hold a Forklift Licence under the Occupational Health and Safety Regulations 2007.

However, as the work required to be performed involves the handling of sensitive and high value items of equipment owned by the International Racing teams and Dorna Sports S.L.U. within the limited duration of the Motor Cycle Grand Prix Event at Phillip Island, and taking into consideration the ongoing international commitments to the International Racing program throughout the year whereupon team forklift operators are required to attend the various Events, an exemption was sought by Australian Grand Prix Corporation from the requirement that an employer must not use unlicensed employees to do high risk work.

AGP Corporation has arranged to conduct competency assessments on site by Keith Dalley from Training Solutions and Strategies, Licence Assessor Number V8400. WorkSafe met with the Licence Assessors on 15 September 2009 and discussed the assessment requirement. The Licence Assessor will need to apply the performance assessment checklist specified in the National Assessment Instrument for Forklift Trucks issued August 2000.

**Regulations**

Regulations 3.6.2 (a) of the Occupational Health and Safety Regulations 2007 states:

‘An employer must not allow an employee to do any high risk work unless –

- a. the employee holds an appropriate high risk work licence in relation to that work.’

**Exemption**

Under Regulation 7.2.2 of the Occupational Health and Safety Regulations 2007, I exempt Australian Grand Prix Corporation from Regulation 3.6.2 (a) with respect to Forklift licence, for the type of work described below, subject to the prescribed conditions of this exemption.

I am satisfied that the work can be performed as safely by a person who does not hold the licence as it can be performed by a person who holds such a licence, provided that the prescribed conditions of this exemption are adhered to.

**Type of Work**

Forklift operations, within the areas noted under the conditions of this exemption, associated with the unloading and loading, including handling on site, of equipment owned and/or operated by the International Racing teams at the Motor Cycle Grand Prix Grand Prix at Phillip Island.

**Conditions**

This exemption is subject to the conditions listed below:

1. This exemption is granted to Australian Grand Prix Corporation, and this exemption shall only apply to overseas employees, employed by the International Racing teams and Dorna Management Sports S.L.U. operating industrial lift trucks (forklifts) at the Motor Cycle

- Grand Prix at Phillip Island. The maximum number of forklift operating at any one time within the designated operational areas will be 14, being comprised of a maximum of two from any team including Dorna Management Sports S.L.U.
2. This exemption shall only apply for the period from 2 October 2009, through the Event, to 1 November 2009, unless revoked by the Victorian Workcover Authority (VWA) in writing.
  3. This exemption shall only apply to designated operational areas for forklifts at the Phillip Island Grand Prix Circuit, noted in Drawing, Forklift Operational Area – Phillip Island Grand Prix Circuit submitted to the VWA by Australian Grand Prix Corporation.
  4. In order for these employees to operate forklifts under this exemption, the following conditions shall be met;
    - a. Each forklift operator is required to hold, and provide evidence of, a forklift license or certificate of competency issued overseas, together with a colour photograph and supporting identification. Verification of the evidence shall be conducted by Australian Grand Prix Corporation for each operator, and copies of the information shall be retained by Australian Grand Prix Corporation. In addition, copies of this documentation shall be provided to the VWA for review.
    - b. A supervisor representing the Australian Grand Prix Corporation or its Project manager shall be present at the Event and will ensure an initial competency assessment is undertaken for each forklift operator by a Victorian or Interstate Licence Assessor or an Assessor affiliated with a Registered Training Organisation. The performance assessments undertaken shall be the performance assessment checklist specified in the National Assessment Instrument for Forklift Trucks issued August 2000 for the safe operation of forklift trucks. The Licence Assessor must complete and sign the 'Forklift Truck – Assessment Summary' and each operator must sign the 'Forklift Truck – Assessment Summary' and provide endorsement of operators deemed competent to the Australian Grand Prix Corporation and the VWA. The exemption shall be granted conditionally upon the VWA being notified of the competent operators once they have been deemed competent.
    - c. The performance assessment can include applicants carrying out tasks such as unloading and storing equipment undertaken in the pits/track.
    - d. Each completed performance assessment will be signed by the applicant and the Licence Assessors.
    - e. WorkSafe will initiate random audits of the assessment process to ensure that a high standard of competency is being delivered and maintained by the Licence Assessor.
    - f. Each signed performance assessment will be retained by the AGP Corporation for reference in the event that WorkSafe may require this information.
    - g. Information shall be provided to the International Racing teams and Dorna Management Limited employees regarding safety requirements prior to the Event in a format and language that employees can understand. Each forklift operator shall receive specific information and instructions for the circuit upon their arrival.
    - h. Forklift operators shall produce their accreditation for access to the designated operational areas, acknowledge and sign a safety undertaking, in the language that the employees can understand, prior to being provided the keys to operate a forklift.
    - i. A physical boundary shall be erected to restrict unauthorised access into, and traffic egress from, the designated operational areas where the forklift operators shall be working. Security personnel shall be provided to enforce the secured area.
    - j. All personnel working within the designated operational areas shall wear appropriate personal protective equipment, including high visibility clothing and protective footwear.

- k. Forklifts being operated by International Racing teams and Dorna Management Limited shall be sourced locally from Australian suppliers and shall undergo and satisfy a safety inspection at the commencement of each day, conducted by a suitably competent person.
- l. A detailed freight operations plan (referenced in the ‘International Freight Logistics – Phillip Island Site Operations Plan (including Forklift Truck Operations)’ for these activities shall be implemented, and shall include site safety rules, a traffic management plan, forklift safety requirements, a system for reporting of hazards and incidents, and emergency response procedures.
- m. A suitably competent safety officer/observer, independent of Dorna Management Sports S.L.U. and the International Racing teams, shall be in place in the designated operational areas for forklifts and tasked with the enforcement of any safety requirements and plans. The safety officer/observer shall initiate immediate corrective actions when non-compliance is identified.
