EXEMPTION

Application No. A7/2010

The Victorian Civil and Administrative Tribunal has considered an application, pursuant to section 83 of the **Equal Opportunity Act 1995**, by Wesley College. The application for exemption is to enable the applicant to advertise for prospective female students to enter the school, and to structure its waiting lists, allocate student placements and other bursaries and enrolments targeted at prospective female students so as to promote a gender balance of the students at the school, and to advertise those matters (the exempt conduct).

Upon reading the material submitted in support of the application and on hearing submissions from Ms Stynes of Counsel, Dr Drennen (Principal of the College) and Mr McAree, Director of Wesley College, and for the reasons for decision given orally on 26 February 2010 the Tribunal is satisfied that it is appropriate to grant an exemption from sections 37, 42, 100 and 195 of the Act to enable the applicant to engage in the exempt conduct.

The Tribunal hereby grants an exemption to the applicant from the operation of sections 37, 42, 100 and 195 of the **Equal Opportunity Act 1995** to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 3 March 2013.

This exemption is subject to the condition that the applicant must, as soon as possible, advise the Tribunal if, at every year level and in every campus of the college, there is a gender balance of male and female students.

EXEMPTION

Application No. A15/2010

The Victorian Civil and Administrative Tribunal has considered an application, pursuant to section 83 of the **Equal Opportunity Act 1995**, by The Australian Council for Educational Research (ACER). The application for exemption is to enable the applicant to advertise for and employ a person of Aboriginal or Torres Strait Islander (ATSI) descent in the position of Indigenous Research Training Fellowship (the exempt conduct).

Upon reading the material submitted in support of the application and on hearing submissions from Mr Corbett and Ms Jacobsen at the hearing on 25 February 2010, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 13, 14, 100 and 195 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption, the Tribunal noted:

- ACER is an organisation which undertakes research in relation to matters connected with education. It has 300 staff of which 1 person identifies as being of ATSI descent.
- It wishes to be able to offer, on an annual basis, a fellowship lasting for 12 months to a person of ATSI descent.
- Research shows that people of ATSI descent are, when compared with their proportion to the total population of Australia, underrepresented in the research field.
- The fellowship is designed to give a recently graduated person of ATSI descent research training and expertise so that the person may then go on to further work in the research field (either with the applicant or a university or some other organisation).
- The holder of the fellowship will work in a number of the applicant's programs, including programs connected with Indigenous education research. The programs which the applicant currently undertakes and that are connected with Indigenous education include programs relating to Indigenous language studies and the teaching of Indigenous students. For these programs, the holder of the fellowship will be able to provide unique perspectives on Indigenous communication and culture, and a unique knowledge of Indigenous communities.

- Research shows that Indigenous people often find the transition between education and the workforce difficult. This fellowship is intended to guide the holder through that transition.
- The applicant is aware that it is important for its Indigenous workers that they do not feel isolated from others in their community. This proposal will go some way to addressing this issue.
- This proposal attempts to address disadvantage suffered by Indigenous people by under-representation in the field of research. The applicant's organisation will also benefit because of the increased knowledge and understanding which the holder of the fellowship can contribute to the applicant's Indigenous programs.

The Tribunal hereby grants an exemption to the applicant from the operation of sections 13, 14, 100 and 195 of the **Equal Opportunity Act 1995** to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 3 March 2013.

VICTORIAN WORKCOVER AUTHORITY**EXEMPTION CERTIFICATE**

Exemption from Occupational Health and Safety Regulations 2007

Exemption Number H10/00127

Purpose

To exempt Australian Grand Prix Corporation ('AGPC') from the requirement that an employer must not use unlicensed employees to do high risk work.

Definition

AGPC, located at 220 Albert Road, South Melbourne, has defined their function as the employer responsible for the safety of the forklift operators employed by the Formula One teams Formula One Management ('FOM'), International Freight Handlers appointed by FOM – Currently DHL.

Background

In undertaking their duties, AGPC uses employees who operate industrial lift trucks (forklifts) and are required to hold a forklift licence under the Occupational Health and Safety Regulations 2007.

However, as the work required to be performed involves the handling of sensitive and high value items of equipment owned by the Formula One teams within the limited duration of the Formula One Grand Prix at Albert Park ('the Event'), and taking into consideration the ongoing international commitments to the Formula One program throughout the year whereupon team forklift operators are required to attend the various Events, an exemption was sought by AGPC from the requirement that an employer must not use unlicensed employees to do high risk work.

Regulations

Regulations 3.6.2 (a) of the Occupational Health and Safety Regulations 2007 states:

'An employer must not allow an employee to do any high risk work unless –

- a) the employee holds an appropriate high risk work licence in relation to that work.'

Exemption

Under Regulation 7.2.2 of the Occupational Health and Safety Regulations 2007, I exempt AGPC from Regulation 3.6.2(a) with respect to forklift licence, for the type of work described below, subject to the prescribed conditions of this exemption.

I am satisfied that the work can be performed as safely by a person who does not hold the licence as it can be performed by a person who holds such a licence, provided that there is compliance with the prescribed conditions of this exemption.

Type of Work

Forklift operations, within the areas noted under the conditions of this exemption, associated with the unloading and loading, including handling on site, of equipment owned and/or operated by the Formula One teams and FOM at the Formula One Grand Prix at Albert Park.

Conditions

This exemption is subject to the conditions listed below:

1. This exemption is granted to AGPC, and this exemption shall only apply to overseas employees, employed by FOM, Formula One teams and other International Freight personnel, operating industrial lift trucks (forklifts) at the Formula One Grand Prix at Albert Park. There shall be a limit of two forklift operators per team.
2. This exemption shall only apply for a period of three years commencing 2010, including 2011, and ending in 2012, and during each of these years, commencing 14 days prior to the first day of the Event and ending 14 days after the last day of the Event, unless revoked by the Victorian WorkCover Authority (VWA) in writing.
3. AGPC must notify the VWA in writing, no later than one calendar month prior to the Event, of any variations being proposed with regard to the forklift operational areas at workplace, and/or the freight operations plan associated with the work being undertaken.
4. AGPC must notify the VWA in writing, no later than one calendar month prior to the Event, of the name of the Registered Training Organisation (RTO) engaged to undertake the performance assessment as specified in the Statement of Competency Review.
5. This exemption shall only apply to designated operational areas for forklifts at the Albert Park Circuit, noted in Drawing Numbers APP010-C-DWG-161 Rev A and APP010-C-DWG-162 Rev A, submitted to the VWA by the AGPC.
6. In order for these employees to operate forklifts under this exemption, the following conditions shall be met:
 - a. Each forklift operator is required to hold, and provide evidence of, a forklift license or certificate of competency issued overseas, together with a colour photograph and supporting identification. Verification of the evidence shall be conducted by AGPC for each operator, and copies of the information shall be retained by AGPC. In addition, copies of this documentation shall be provided to the VWA for review by the Licensing Compliance Auditor.
 - b. A supervisor representing the AGPC or its Project manager shall be present at the ¹Event and will ensure an initial competency assessment is undertaken for each forklift operator by a Victorian or Interstate Licence Assessor or an Licence Assessor affiliated with an RTO. A performance assessment shall be undertaken as specified in the Statement of Competency Review part of the National Assessment Instrument – TLILIC108A Licence to operate a forklift truck.
 - c. Each completed Statement of Competency Review will be signed by the Formula One Management Limited employees and Formula One team forklift operators and the Licence Assessors.
 - d. WorkSafe will initiate random audits of the assessment process to ensure that a high standard of competency is being delivered and maintained by the Licence Assessor.
 - e. The licence assessor/RTO shall provide a copy of the completed Statement of Competency Review of Team forklift operators deemed competent to the AGPC and each signed Statement of Competency Review will be retained by the AGPC for reference in the event that the VWA may require this information.

¹ Event means the running of the Formula 1 Australian Grand Prix at Albert Park

-
- f. Information shall be provided to the Formula One Management Limited employees and Formula One teams regarding safety requirements prior to the Event in a format and language that employees can understand. Each forklift operator shall receive specific information and instructions for the circuit upon their arrival.
 - g. Forklift operators shall produce their accreditation for access to the designated operational areas, acknowledge and sign a safety undertaking, in the language that the employees can understand, prior to being provided the keys to operate a forklift.
 - h. A physical boundary shall be erected to restrict unauthorised access into, and traffic egress from, the designated operational areas where the forklift operators shall be working. Security personnel shall be provided to enforce the secured area.
 - i. All personnel working within the designated operational areas shall wear appropriate personal protective equipment, including high visibility clothing and protective footwear.
 - j. Forklifts being operated by Formula One teams shall be sourced locally from Australian suppliers and shall undergo and satisfy a safety inspection at the commencement of each day, conducted by a suitably competent person.
 - k. A detailed freight operations plan (referenced in the 'Teams Freight Logistics – Operations Plan') for these activities shall be implemented, and shall include site safety rules, a traffic management plan, forklift safety requirements, a system for reporting of hazards and incidents, and emergency response procedures.
 - l. A suitably competent safety officer/observer, independent of Formula One Management Limited and the Formula One teams, shall be in place in the designated operational areas for forklifts and tasked with the enforcement of any safety requirements and plans. The safety officer/observer shall initiate immediate corrective actions when non-compliance is identified.
