SPECIAL

Transport (Compliance and Miscellaneous) Act 1983
VICTORIAN FARES AND TICKETING MANUAL (GENERAL)
(effective 12 March 2011)

CHAPTER 1 – INTRODUCTION AND LEGAL STATUS

Introduction

During 2010 the focus continued on consolidation of existing fares and ticketing products by encouraging customers to move away from single trip tickets and to commence purchasing value tickets (e.g. weekly, monthly, 10 x 2hour, 5 x daily), which was supported by Metlink’s value ticket campaign.

Some new discounted travel initiatives were also introduced during 2010 to encourage public transport patronage including free weekend travel for Seniors, Disability Support Pensioners and Carer Payment recipients who travel using a myki, and two additional off peak free travel vouchers for Seniors cardholders. The Access Travel Pass and DHS Carer Card were also introduced to support people with special needs travelling on public transport.

Legal Status and Application

The contents of this manual set out conditions that have been determined under section 220D(1) of the **Transport (Compliance and Miscellaneous) Act 1983**, except for –

- the introduction
- the contents of chapters 1 to 10 and 12 that are in green text
- the contents of chapter 11.

The conditions in this manual (the Conditions) take effect from, and including, 12 March 2011.

The Conditions, as in force from time to time, apply to one or more of the classes of tickets specified below (classes) as set out throughout the manual and govern the entitlement to use the public transport services specified in the Conditions in respect of which those tickets are issued if –

- (a) only tickets of one or more of the classes may be used in relation to a such a service; or
- (b) if subparagraph (a) does not apply, but tickets of a class may be used in relation to such a service and a person uses or purports to use one of those tickets in relation to such a service.

In the immediately preceding paragraph, ‘entitlements’ means entitlements that are able to be exercised on or after the commencement of the conditions in this manual, including entitlements that existed, but had not been exercised, before the conditions in this manual were published in the Government Gazette.

The classes of tickets referred to above are:

- Metropolitan tickets
- V/Line tickets
- Student Passes
- Regional Bus Tickets
- Free Passes and authorities.

Public transport operators must make a copy of this manual available for inspection at their principal office. Copies are available for sale to the public for \$5 at the MetShop, located in the Melbourne Town Hall (corner of Swanston and Collins Streets).

The manual and updates may be downloaded from metlinkmelbourne.com.au/fares-tickets

CHAPTER 2 – METROPOLITAN TRAVEL

For the purposes of the conditions contained in this manual, Melbourne's public transport system is divided into two Zones, and most fares are based on the Zones in which travel occurs. The Zones for metropolitan trains are defined by the Melbourne Train Network Map. The Zones for trams are defined by the Melbourne Tram Network Map. These maps are shown in this chapter. The Zones for metropolitan buses are defined in this chapter under the headings 'Melbourne bus zones' and 'Metropolitan bus routes extending outside the Melbourne metropolitan area'.

Tickets need to be valid for each Zone that a passenger travels in. However, when travelling in a Zone boundary overlap, the ticket only needs to be valid for one of the overlapping Zones.

Melbourne bus zones

Maps showing the bus routes specified below are available for inspection at the MetShop at Melbourne Town Hall, on the Metlink website www.metlinkmelbourne.com.au and at the office of the Director of Public Transport. The following bus stop is specified as a pre-pay bus stop:

- The site bounded by Doncaster Road, Hender Street and the Eastern Freeway known as the Doncaster Park and Ride and forming part of metropolitan bus routes numbers 207, 280, 282, 284, 285, 307, 309, 313, 316 and 319.

Validating your Metcard

Validation is required to ensure that passengers travel with a valid ticket. It is an offence to travel without a valid ticket and passengers who do so risk being fined.

Validation also provides Metlink with useful information, such as the number of passengers using particular services.

Pre-purchased Metcards

Passengers must validate or re-validate their Metcard in accordance with the requirements stated in Chapter 10. Most train stations have black and steel validators at the entrance to the platform. Green validators are installed on board trams and buses.

To validate or re-validate a Metcard, insert it into the slot as shown on the unit. When the ticket is removed, one of the following tones will sound:

- 1 'beep' for successful full-fare ticket validation
- 2 'beeps' for successful concession ticket validation
- 5 'beeps' if validation is unsuccessful

Some train stations (including those in the City) have electronic barriers, which are opened by inserting a Metcard into the slot above the green arrow and then removing it from another slot at the top of the barrier. If the validation is unsuccessful, the ticket will be returned through the input slot and the barrier will not open.

Even if station barriers have been left open, passengers must validate or re-validate their Metcard before travelling. If a passenger has not validated their Metcard at the start of a train journey, they will not be able to open the barriers at their destination.

Metcards purchased on trams

Tickets purchased on board trams are already validated for that trip only and do not need to be validated again on that vehicle. However, if passengers transfer to another service, the ticket must be re-validated in accordance with the requirements stated in Chapter 10.

Choosing the right Metcard

Most Metcards can be used for an unlimited number of journeys on any metropolitan train, tram or bus for a set period. A passenger may board any train, tram or bus before their ticket expires, even if the journey extends beyond the ticket's expiry time.

If a train, tram or bus service is running late, the passenger may still use the ticket, provided the service was scheduled to leave before the ticket expired. Similarly if a scheduled train, tram or bus service that would have left before the ticket expired does not run, the passenger may travel on the next service.

2 hour

Allows unlimited train, tram and bus travel within the Zones shown on the ticket for at least two hours. The ticket expires two hours from the next full hour after it was first validated. For example, a ticket validated at 8.55 am will expire at 11.00 am and a ticket validated at 9.05 am will expire at 12.00 noon. Tickets first validated after 6.00 pm are valid until 3.00 am the following day.

10 x 2 hour

A single ticket that can be used for ten 2 hour periods. The ticket can be used by more than one person, but only by one person during each 2 hour period.

No more than two 2 hour periods will be deducted per day. For example, a ticket validated at 9.05 am will expire at 12.00 noon on the first 2 hour period. If the ticket is used again at 1.30 pm on the same day, it will then be valid until 3.00 am the following day.

Conditions of travel are the same as for 2 hour Metcards.

10 x Early Bird

The ticket is only available at metropolitan Premium stations.

A single ticket that can be used for travel on ten weekdays before 7.00 am. The ticket can be used by more than one person, but only by one person on each weekday.

Allows unlimited travel on all electrified metropolitan train services (including City Loop stations) in Zone 1, Zone 2 and Zones 1+2 before 7.00 am on weekdays. The ticket expires at 7.00 am on the day of validation.

If a train service is running late, the passenger may still use a 10 x Early Bird Metcard as long as the service was scheduled to arrive at the passenger's destination before 7.00 am. If a scheduled train service that would have arrived at the passenger's destination before the ticket expired does not run, and the next scheduled train service would not arrive at the passenger's destination before the ticket expires, the ticket is not valid for the passenger's journey and the passenger must purchase a valid Metcard for that journey.

CHAPTER 3 – V/LINE TRAVEL

V/Line is the leading provider of rail and road coach services in regional Victoria, with train services operating to the regional cities of Ballarat, Bendigo, Geelong, Seymour and Traralgon and serving other regional centres including Ararat, Echuca, Swan Hill, Sale, Bairnsdale, Warrnambool and Shepparton. V/Line road coaches connect with many rail services at major stations to provide an integrated and coordinated public transport service across Victoria.

V/Line tickets

V/Line's ticketing system operates on regional train and coach services as well as giving access to metropolitan trains, trams and buses and local bus services in some regional cities. Tickets are either machine-printed or hand-written by staff.

Samples of V/Line tickets are shown below:

Where to buy V/Line tickets

Passengers can purchase V/Line tickets from:

- Staffed V/Line stations
- V/Line ticket agents
- Selected metropolitan premium stations
- Telephoning **136 196**

V/Line passengers must purchase a ticket before travel where a reasonable opportunity exists to do so. If the location where the passenger boards a V/Line train or coach has facilities for the purchase of tickets (e.g. a staffed V/Line railway station or a V/Line ticket agent) the passenger is deemed to have had a reasonable opportunity to purchase a ticket prior to travel. If a passenger boards at an unstaffed V/Line railway station or a roadside coach stop, they may purchase a ticket from the train conductor or coach driver.

V/Line tickets may be checked before, during or after the journey.

Passengers who travel on a metropolitan or regional service to connect with a V/Line service and who are unable to purchase a V/Line ticket before they begin their travel must have separate valid tickets for their travel on the metropolitan or regional service and their travel on the V/Line service.

It is an offence to travel without a valid ticket and passengers who do so risk being fined.

Calculating V/Line fares

To find out the price of a V/Line ticket the following steps normally apply:

- Calculate the number of charging units between the origin and destination
- Choose a ticket type
- Determine the fare based on the ticket type and the number of charging units using the table on p.31
- Add an upgrade to First Class if available.

Note: Fares for V/Line Link services are now part of the regular V/Line fares structure.

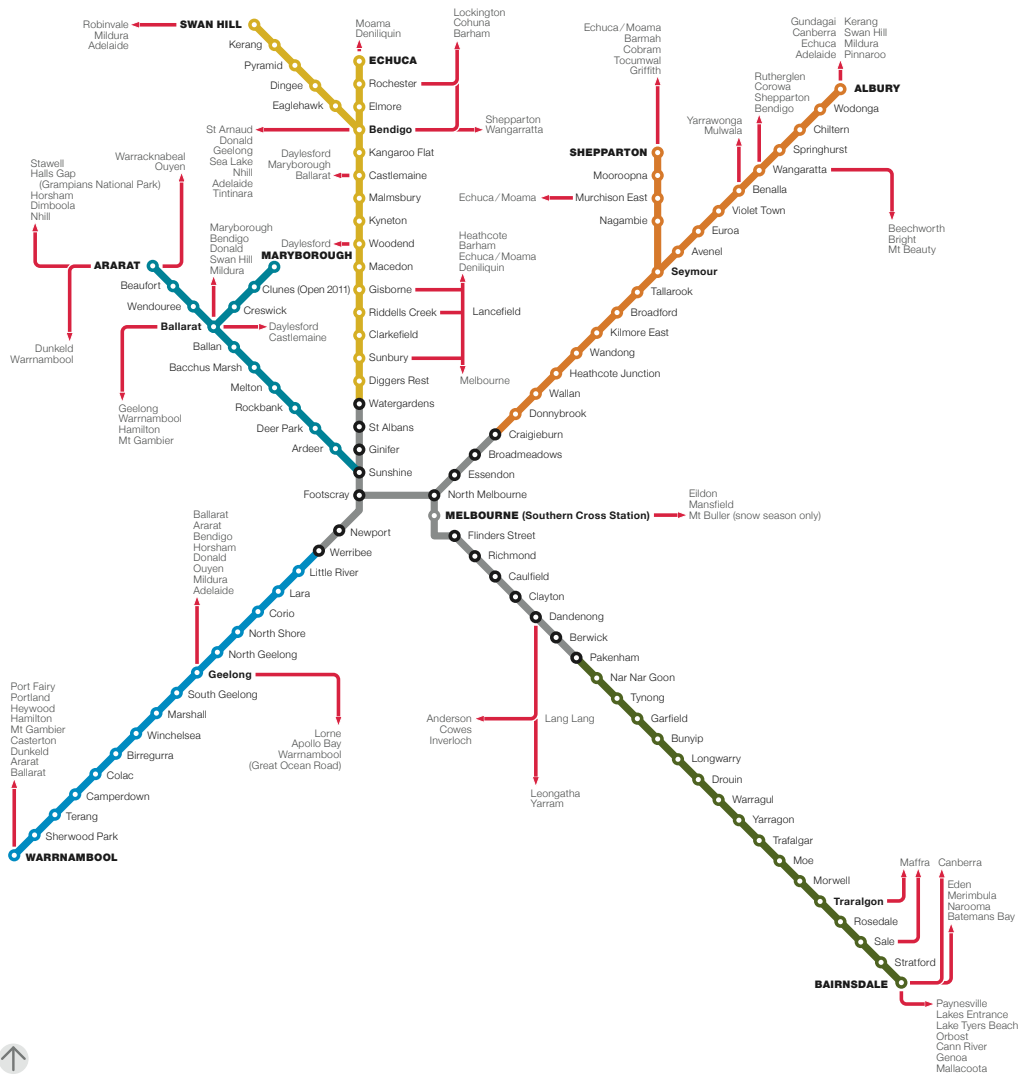

To calculate Charging Units

Passengers are charged based on the shortest route between their origin and destination, unless they choose to take a less direct route.

Regional Location to/from Zone 1

For travel between a regional location and Zone 1, look up the letter code for the regional location and look up the fare in the fare table.

Restricted metropolitan stations: These stations are drop off only travelling to Melbourne, and pick up only travelling from Melbourne.

Regional Location to/from Zone 2 (on same line)

For travel between a regional location and a station in Zone 2 before Zone 1 on the same line, the number of charging units is the number of charging units to Melbourne minus 50 charging units for stations in Zone 2.

Regional Location to/from Regional Location (on same line)

The number of charging units between regional locations on the same line can be calculated by subtracting the charging units to Melbourne for the destination location from the charging units to Melbourne of the origin location and rounding up to the next number of charging units in the table (10, 20 or 50 charging units):

Example 1 Castlemaine to Bendigo
 Melbourne to Bendigo = 162 charging units
 Melbourne to Castlemaine = 125 charging units
 162 units minus 125 units = 37 charging units
 Round up to nearest 10 = 40 charging units

Example 2 Albury to Seymour
 Melbourne to Albury = 320 charging units
 Melbourne to Seymour = 99 charging units
 320 units minus 99 units = 221 charging units
 Round up to nearest 20 = 240 charging units

Regional Location to/from Regional Location (on different line)

The number of charging units between regional locations on different lines can be calculated by adding their charging units to Melbourne and rounding up to the next number of charging units in the table (10, 20 or 50 charging units):

Example 3 Geelong to Drouin
 Melbourne to Geelong = 73 charging units
 Melbourne to Drouin = 91 charging units.
 73 units plus 91 units = 164 charging units.
 Round up to nearest 10 = 170 charging units

Example 4 Ballarat to Dandenong
 Melbourne to Ballarat = 119 charging units
 Travel between Melbourne and Dandenong is included in the Ballarat-Melbourne fare.

To/from Zone B to Melbourne (on same line)

Zone B includes 9 railway stations to the north and west of Melbourne whose fares are priced the same as in Zone 1+2 Metcard. V/Line tickets are required for travel to and from Zone B. Metcard tickets cannot be used for travel to and from Zone B.

Example 6 Donnybrook to Southern Cross

First class travel

V/Line provides First class seating on selected rail services (see timetable for details), particularly on long distance services. First class seating is not available on coaches.

First class seating on all long distance services that travel to and from Albury, Bairnsdale, Shepparton, Swan Hill and Warrnambool must be reserved.

Reserving First class

Customers can reserve First class seats by booking in advance through V/Line stations, V/Line agents and selected Metro Premium stations, or through Viclink Call Centre on **136 196**.

Bookings on long distance services are opened 100 days in advance of the day of travel. Customers can book any time from this period right up to the time of departure. However, advance booking is encouraged to ensure a First class seat.

First class fares

The First class fare is based on an Economy fare and a First class upgrade fee. First class tickets generally include the Economy fare and the First class upgrade. First class tickets may be purchased wherever V/Line tickets are sold. Customers can also use a First class 'multi card' to upgrade from Economy to First class.

It is important that customer pays for First class fare before boarding. The upgrade can be bought along with the Economy ticket, or separately before travel. Conductors will only sell First class upgrades to customers boarding at unstaffed stations.

FIRST CLASS TICKET

The First class upgrade fee

The First class upgrade fee is the same for all ticket types, and applies to full and concession fares.

First class upgrades for regular travellers (Multi Cards)

For a discount fare Regular First class travellers, including people with periodical tickets, can purchase a First class upgrade Multi Card which includes:

- 10 First class upgrades for journeys that are less than 100 charging units or
- 5 First class upgrades for journey that are greater than 100 charging units

For customer convenience these upgrade cards are undated and are clipped by the conductor on board to validate the First class journey at the time of travel.

Conductors will clip:

- ONE trip from the card for customers travelling less than 100 charging units,
- TWO trips for customers travelling more than 100 charging units.

DISTANCE	SINGLE TRIP	MULTI CARD
Less than 100 c/u	\$3.00	\$2.50
Greater than 100 c/u	\$6.00	\$5.00

The First class upgrade is available from stations, V/Line agents and from the Conductor onboard the train.

Refunds on First class upgrades

Refunds on First class will be available when First class carriages are not available due to operational changes in trains or the First class carriage is full on short distance services.

Customers can receive refunds from all staffed V/Line stations, V/Line agents (if ticket was sold there) selected Metro Premium stations or by sending the First class upgrade refund slip to:

V/Line Customer Relations
Reply Paid 5343
Melbourne Victoria 3001

Please note: conductors do not provide refunds on board V/Line services.

What is the best way to purchase First class upgrades?

Long distance customers are encouraged to buy the First Class upgrade as part of their ticket and make a booking at the time of the purchase. This way the upgrade is part of their ticket and a seat is guaranteed.

Short distance customers are encouraged to buy a First class Multi Card so they can choose to travel in First class when they want. This provides customers with the flexibility of using both First class and Economy services. It also removes the need for refunds if the service they are travelling on does not have a First class carriage.

Reservations

Reservations are compulsory on most coach services, all Link services, all Mildura coach services, and long distance trains travelling to/from Ararat, Bairnsdale, Shepparton, Swan Hill, Echuca, and Warrnambool. Weekly

Weekly tickets allow unlimited travel between the origin and destination printed on the ticket, for seven consecutive days.

The ticket expires seven days from the start date printed on the ticket. For example, a ticket valid from Tuesday will expire at the end of services for the following Monday (3.00 am on Tuesday). A weekly ticket used between midnight and 3.00 am must be valid for the previous day.

Monthly

Monthly tickets allow unlimited travel between the origin and destination printed on the ticket, for a month.

The ticket expires one month from the start date printed on the ticket. For example, a ticket valid for travel from 15 June will expire at the end of services for 14 July (3.00 am on 15 July). A ticket first valid for travel on 30 or 31 January or on 1 February will expire on 29 February in a leap year, or on 28 February otherwise. A monthly ticket used between midnight and 3am must be valid for the previous day.

Date-to-Date

Date-to-Date tickets allow unlimited travel between the origin and destination printed on the ticket, for the number of weeks nominated by the passenger. The passenger may purchase tickets for the following durations:

- 10 to 52 weeks (Full Fare/Concession/Student)

The price of the ticket is the Date-to-Date weekly rate multiplied by the number of weeks required. A date-to-date ticket used between midnight and 3.00 am must be valid for the previous day. The ticket expires at 3.00 am on the day following the expiration date on the ticket.

Yearly

Fares from nine V/Line rail stations (Little River, Donnybrook, Wallan, Lara, Bacchus Marsh, Clarkefield, Riddells Creek, Heathcote Junction and Wandong) and three V/Line coach stops (Tooradin, Kinglake West and Five Ways) to Melbourne are aligned with metropolitan fares. This has been done in preparation for the inclusion of these locations within Zone 2 when the new **myki** solution for Victoria is implemented.

The V/Line Yearly Ticket allows unlimited travel between one of the above locations and Zone 1 until the expiry date printed on the ticket. The ticket expires at 3.00 am on the day following the expiry date on the ticket. First class and concession V/Line Yearly tickets are not available. The ticket costs \$1859.00.

CHAPTER 4 – GROUP TRAVEL AND STUDENT PASSES

Group travel

V/Line

A V/Line Group Travel voucher allows a group of 12 or more people to travel together at a reduced rate. All members of the group must travel together at all times, boarding and alighting at the same locations. Group travel discounts are available for Single, Day Return, Off-Peak Single, and Off-Peak Day Return tickets. The fare charged for the group is the concession fare of the selected ticket type multiplied by the number of passengers. The conditions applicable to the voucher are the same as those for the selected ticket type.

Group travel must be arranged at least seven days in advance by telephoning **9619 2338**. Groups may not be able to be accommodated on some services at times of peak demand.

Metropolitan

Prepaid Travel Authority

Allows groups of 12 or more people (maximum of 35 on trams and 25 on buses) to travel together at a reduced rate. All members of the group must travel together at all times, boarding and alighting at the same locations. Available from Premium stations and Metshop.

No refund is permitted should the trip be cancelled or the number of train travellers are less than paid for.

The Prepaid Travel Authority is available for 2 hour, Daily, City Saver and Off-Peak Daily tickets.

The fare charged for the group is the concession fare for the selected ticket multiplied by the number of passengers travelling.

Special Event and Conference ticketing

In some circumstances, special event and conference organisers can include public transport in the cost of event tickets by prior arrangement with the Director of Public Transport, subject to meeting the following conditions:

- All event tickets or delegate passes must be valid for a specific date or dates, which are to be clearly printed on the ticket (no opened ended tickets or passes permitted)
- Tickets must be issued by an approved ticket issuer on approved ticket stock (eg. 'print your own' ticket systems are not permitted)
- Delegate passes must be issued by conference organisers
- The event must cater for more than 500 people per day
- The event must be at an approved venue close to the CBD, including Melbourne and Olympic Parks, Melbourne Exhibition Centre, Victorian Arts Centre (including the Sidney Myer Music Bowl), Etihad Stadium, the Melbourne Cricket Ground and theatres in the CBD
- Events and conferences must not start on weekdays before 9.30am or between 4pm and 6pm to avoid peak hour congestion
- Events must finish one hour before the end of train/tram services to ensure customers are not stranded
- If the event or conference is cancelled or the date changed, free travel is provided on the original date printed on the tickets and the fee remains payable

The cost to the event organiser is based on the number of tickets issued for the event (including complimentary tickets). The fee of \$2.60 per ticket, is common to all events, assumes events will be attended by a mixture of adult and concession ticket holders, and assumes that not all people will use public transport.

The fee includes unlimited travel within Zones 1+2 on the day of the event (until 3.00 am the next day). This fee only covers free travel, and does not include the cost of providing additional services. For more information, please contact the Department of Transport on **9655 3333** or email: event.notification@transport.vic.gov.au

Victorian Student Passes

Student passes are available to full-time primary or secondary students, who possess a valid Victorian Public Transport Concession Card, for travel on the services specified in the table below. Student passes are valid on weekdays and weekends (including school holidays and public holidays).

Prices and travel entitlements vary depending on the student's place of residence, as shown in the table below:

	HALF- YEARLY	YEARLY	TRAVEL ENTITLEMENTS	AVAILABLE FROM
Southwest Transit (Warrnambool)	\$115.90	\$217.70	Unlimited travel on all bus services in Warrnambool.	Warrnambool Bus Lines
Colac School Town Service	\$163.80	\$327.60	Unlimited travel on Colac School Town services.	Colac Transit
Portland Town and Portland North School Town Service	\$163.80	\$327.60	Unlimited travel on Portland Town and Portland North School Town Services.	Portland Bus Lines

CHAPTER 5 – REGIONAL BUSES

This chapter covers tickets that are valid on local bus and some train services in Victorian regional towns and cities.

2 Hour

Regional local transport fares in most major towns and cities are based on 2 hour tickets. These allow unlimited travel for at least two hours on local bus and train services.

The ticket expires two hours from the next full hour after it was purchased. For example, a ticket purchased at 8.55 am will expire at 11.00 am and a ticket purchased at 9.05 am will expire at 12.00 noon. Tickets purchased after 6.00 pm are valid until 3.00 am.

A passenger may transfer to any local bus or train service before their ticket expires, even if the journey extends beyond the ticket's expiry time.

The scheduled departure of the service is relevant rather than the actual departure time. So if a service is running late, the passenger may still use the ticket, provided the service was scheduled to leave before the ticket expired. Similarly if a scheduled service that would have left before the ticket expired does not run, the passenger may travel on the following service.

Daily

A Daily ticket allows unlimited travel on nominated town bus services (and V/Line rail services where shown below) on the day of issue until 3.00 am the next day.

A passenger may transfer to any local bus (or train) service in the town bus service area before the ticket expires.

Weekly

Weekly tickets allow unlimited travel on the nominated services for seven consecutive days.

The ticket expires seven days from the start date printed on the ticket. For example, a ticket valid from Tuesday will expire at the end of services for the following Monday (3.00 am on Tuesday).

A weekly ticket used between midnight and 3.00 am must be valid for the previous day.

Monthly

Monthly tickets allow unlimited travel on the nominated services for one month.

The ticket expires at the end of services one month from the start date printed on the ticket. For example, a ticket valid from 15 June will expire at the end of services for 14 July (3.00 am on 15 July). A ticket valid from 30 or 31 January or on 1 February will expire on 29 February in a leap year or on 28 February otherwise.

A Monthly ticket used between midnight and 3.00 am must be valid for the previous day.

Seniors Sunday Pass

Allows unlimited free train, tram and bus travel from 3.00 am on Sundays until 3.00 am Monday morning wholly within Zones 1 and 2; or travel wholly within the Ballarat Transit System, or Bendigo Transit System or Geelong Transit System; or the town bus services of Mildura, Moe, Morwell, Traralgon and Warrnambool.

Eligibility criteria for these passes are the same as in Chapter 2.

Allows unlimited free train, tram and bus travel from 3.00 am on Sundays until 3.00 am Monday morning wholly within Zones 1 and 2; or travel wholly within the Ballarat Transit System, or Bendigo Transit System or Geelong Transit System; or the town bus services of Mildura, Moe, Morwell, Traralgon and Warrnambool.

Persons eligible for these passes may apply for tickets giving similar entitlements issued under the conditions contained in the Victorian Fares and Ticketing Manual (myki) (effective 7 September 2010). Tickets so issued will be valid for travel on the town bus services of Mildura and Warrnambool as well as those services on which tickets issued under those conditions may already be used.

CHAPTER 7 – ACCESSIBLE TRANSPORT

Accessible transport

Public transport services in Victoria are progressively being made accessible to people with disabilities, to comply with the provisions of the Commonwealth Government's **Disability Discrimination Act** (1992) and the Victorian Government's Disability Standards for Accessible Public Transport (2002).

All metropolitan and most V/Line trains are wheelchair accessible, along with most metropolitan and V/Line stations.

New trams and buses are being delivered with low floors for easy access, while an increasing number of tram stops in the Melbourne CBD and elsewhere on the tram network are being made into accessible stops.

Access for people using wheelchairs and mobility aids

Metropolitan

Trains

All metropolitan trains are wheelchair-accessible via a manual ramp deployed by the driver from the front carriage. Passengers who need assistance boarding trains should wait on the platform near the front of the train.

Most metropolitan train stations are wheelchair-accessible and Premium stations have wheelchair-accessible toilets. Passengers should phone Metro on **1800 700 105** to inquire about particular requirements such as obtaining assistance from station staff at Premium stations or travelling in large groups.

Trams

Low-floor trams have two allocated spaces for passengers using wheelchairs or mobility aids, directly inside the first set of double doors. They also have a call button so that passengers who need assistance getting off the tram can alert the driver to deploy a bridging plate at the door threshold.

People using wheelchairs and scooters can currently access low floor trams from platform stops on Routes 109, 96, 6, 8 and 72. At the time of this manual going to press, there are more than 200 accessible 'platform'-style tram stops on the Melbourne tram network.

The Department of Transport's Public Transport Division in conjunction with Yarra Trams and local councils are undertaking programs to increase the number of accessible trams stops. Contact Yarra Trams on **1800 800 166** for more information on accessible routes and stop locations.

Buses

The majority of bus services in Melbourne use wheelchair-accessible low-floor buses, including SkyBus and NightRider services. The driver deploys a manual ramp from the door at the bus stop kerb.

Passengers should contact the relevant operators to find out which services are operated with low-floor buses. Some bus companies' timetables also show which services are operated by low-floor buses.

A demand responsive wheelchair-accessible bus is available for travel between St Kilda, Port Melbourne, Flinders Street and Southern Cross stations. It can transport up to three passengers in wheelchairs and four other passengers.

Metcard fares apply to this service. For bookings, phone **1800 012 061**.

Regional

V/Line trains and coaches

All V/Line stations are wheelchair accessible. All trains are accessible via a portable wheelchair ramp deployed by the conductor on request. Space for passengers with disabilities on trains may be limited and passengers may be restricted to particular parts of the train.

Conductors and station staff are available on request to further assist passengers.

Wheelchair accessible toilets are available on all Sprinter and V/Locity railcars, while limited accessible toilet facilities are available on locomotive-hauled services. Some V/Line coach services are wheelchair accessible.

Passengers with disabilities should phone **136 196** for information on which services are most suitable for their needs. Bookings for passengers using wheelchairs or scooters on V/Line rail and coach services are required at least 24 hours in advance.

Mobility aids

A mobility aid (wheelchair, scooter or motorised vehicle) needs to:

- Fit within an allocated space of 1300 mm (length) x 800 mm (width)
- Be no more than 750 mm wide at a height 300mm above the ground to fit between the wheel axles of a bus.

Additionally, the total weight of the mobility aid, its user and any attendants must be less than 300 kg, as this is the maximum load for boarding devices such as ramps.

Mobility aids that exceed these standard wheelchair dimensions (800 mm wide x 1300 mm long) may not be able to be accommodated.

Service animals

Assistance animals

Only animals identified on an Assistance Animal Pass can travel for free on all Victorian public transport services.

All other animals travel subject to the conditions stated on page 64 of this manual.

Assistance Animal Pass

The Assistance Animal Pass has been developed to assist people with an ongoing disability (including issues relating to ageing and psychiatric illness) who are unable to use public transport without an assistance animal. The Assistance Animal Pass will only be issued to people whose animals have been trained with the necessary training to travel on public transport.

Animals that have only been trained to provide companionship and support at home will not qualify for the Pass.

The Assistance Animal Pass is separate from the Companion Card (see page 55). If an applicant requires both an assistance animal and a companion to travel on public transport, they must apply for **both** an Assistance Animal Pass and Companion Card.

The Assistance Animal Pass is only issued to people who can demonstrate that their assistance animal alleviates the effects of their disability.

Types of assistance animals covered by the Assistance Animal Pass include:

- Guide Dogs: trained to help blind or visually-impaired people
- Hearing Dogs: trained to help deaf or hearing-impaired people
- Mobility Support Animals: trained to help people with physical disabilities who use wheelchairs or have difficulty moving
- Medical Alert Animals: trained to assist their handlers before and during a medical emergency
- Psychiatric service animals: trained to provide support to people with psychiatric disabilities.

The Metlink Central Pass Office (CPO) will manage the Assistance Animal Pass application process, assessment of animal suitability and issue of Assistance Animal Pass. Contact the Metlink CPO on **9619 1159** or **9619 1650**.

CHAPTER 8 – BICYCLES, SURFBOARDS AND OTHER ITEMS

Folding Bicycles

Folding bicycles can be carried free on metropolitan trains, trams and buses, V/Line trains and coaches, and regional town bus services at any time. Folding bicycles must not exceed the dimensions of 82 cm long x 69 cm high x 39 cm wide, have wheel rims no more than 20 inches (51 cm) in diameter and be folded up and stored inside a bag or cover before boarding.

A folding bicycle means a bicycle that has small wheels and frame latches allowing the frame to be collapsed. Regular bicycles of any size, with or without wheels, are not considered folding bicycles and are subject to the conditions below regarding bicycles on public transport.

On metropolitan buses folding bicycles cannot be stored in parcel racks. On V/Line trains and coaches, folding bicycles cannot be stored in overhead luggage racks.

Bicycles

Metropolitan Trains

Bicycles can be carried free on metropolitan trains at any time. Cyclists must not, at any time, board at the first door of the first carriage, or store a bicycle in the area adjacent to this door, as this area is reserved for passengers in wheelchairs.

As a courtesy to fellow passengers, cyclists are requested to avoid heavily congested carriages.

V/Line Trains

Bicycles can be carried free on V/Line trains at any time. On V/Line trains, bicycles must be stowed in the location(s) designated by the conductor. V/Line has several different train types and VLocity and Sprinter trains in particular have limited space for bicycles. If a V/Line conductor determines that there is not sufficient room to carry a bicycle on a V/Line train, it will not be able to be carried on that train.

Bicycles must not obstruct passageways or doorways and must not inconvenience other customers.

As a courtesy to fellow customers, cyclists are requested to avoid heavily congested carriages.

Metropolitan Trams, Metropolitan Buses, Regional Town Buses, V/Line Coaches

Bicycles are not permitted on these services at any time, with the exception of folding bicycles (see above).

Bicycle lockers

Some metropolitan and V/Line train stations have bicycle lockers, which can be used to store bicycles, helmets and safety vests.

Passengers may obtain lockers for up to 3 months by paying a bond, which will be returned at the end of the period (provided the locker is clean, undamaged and that the locker key is returned in a serviceable condition). This period can be extended beyond 3 months if renewal is applied for on or before the expiry date. Other stations such as Southern Cross have a self-storage locker system.

Bicycle lockers at unstaffed stations may be reserved at a nearby staffed station.

Items are stored in bicycle lockers at the passengers' own risk. Operators will not be liable for any loss of or damage to items stored in bicycle lockers.

Bicycle cages

Bicycle cages have been installed at a number of metropolitan and V/Line stations. A bicycle cage allows the storage of over 20 bicycles in a cage secured by a locked door that is opened with an electronic swipe card.

Passengers can obtain a parking place in a bicycle cage by contacting Bicycle Victoria and by paying a refundable deposit for a swipe card that provides access to the cage.

For further information on bike cage locations and obtaining a space in one call Bicycle Victoria on **1800 639 634** or visit **bv.com.au**

Transport operators and Bicycle Victoria will not be liable for any loss or damage to items stored in bicycle cages.

Surfboards

Metropolitan and Regional Town Services

Surfboards are not permitted onboard metropolitan trams and buses or regional town services at any time.

Surfboards can be carried for free on metropolitan trains. Surfboards must not obstruct passageways or doorways and must not inconvenience other passengers.

Passengers with surfboards are requested to avoid travelling during peak periods.

On metropolitan trains, surfboards must not be placed near the first door of the first carriage, as this space is reserved for passengers in wheelchairs.

V/Line

Surf skis, sailboards, canoes and similar items are not permitted on V/Line trains.

Generally, V/Line coaches do not carry bicycles, surfboards, surf skis, sailboards, canoes and similar items. There is an exception for coach services along coastal routes where surfboards and boogie boards may be carried subject to available space on the day of travel. Passengers are to be aware that this applies to both the forward and return legs of the journey.

Call **136 196** for further information.

Bicycles and surfboards on other public transport services

Passengers travelling with bicycles or surfboards on CountryLink or Great Southern Railway services must contact these companies directly to arrange carriage of bicycles and surfboards. Passengers who are travelling on these services must comply with the conditions of carriage set by these operators.

Luggage on V/Line services

On V/Line trains, passenger's luggage can be stowed in overhead racks above the seats and in the vestibules at the end of each carriage. On V/Line coaches, luggage must be stored in the luggage compartment with the exception of one small bag (this can include eg back pack, laptop, bag briefcase or handbag) with the dimensions no greater than length 40 cm x width 35 cm x height 15 cm.

The total luggage limit for all V/Line services is 30 kilograms. People can carry two items of luggage, with no one item weighing more than 20 kilograms, as well as one piece of hand luggage on V/Line services free of charge.

To comply with Occupational Health & Safety obligations V/Line staff and Coach Drivers will not handle any individual luggage over 20 kilograms in weight. It should be noted that the customer will be responsible for handling these items. Please note that excess luggage beyond the weight and height/width dimensions will not be carried on V/Line train or coach services.

Prams, pushers and strollers (weighing up to 20 kg), children's car seats, wheelchairs and small items of sporting and camping equipment (a set of golf clubs or snow skis, stocks and boots will be treated as one piece of luggage) will also be carried as luggage. Surf skis, sailboards, canoes and similar items will not be carried as luggage.

Passengers are advised to keep their luggage with them at all times when travelling and to carry all personal medication, keys and valuables in their hand luggage.

Passengers with special needs can seek assistance with luggage from station staff, train conductors and coach drivers when boarding, alighting or transferring between services.

Checked Luggage

Luggage limits apply for all checked luggage on both rail and coach services.

A checked luggage service is available onboard intercity locomotive-hauled V/Line train services. Intercity locomotive-hauled trains operate on the Albury, Bairnsdale, Shepparton, Swan Hill and Warrnambool lines. Checked luggage will only be carried to stations beyond Seymour (Shepparton services), Traralgon (Bairnsdale services), Eaglehawk (Swan Hill services) and Marshall (Warrnambool services).

A checked luggage service is also available on V/Line coaches connecting to and from locomotive hauled trains at Albury*, Bairnsdale, Shepparton, Swan Hill and Warrnambool.

Passengers must check in their luggage at least 30 minutes before their service is scheduled to depart. Wherever possible, the luggage will travel on the same service (wheelchairs, sporting equipment, prams and similar items must travel on the same service).

Passengers must clearly label all luggage with their name and address, their destination and the date and service they are travelling on, as well as removing all previous luggage tags.

When checking in luggage, station or agency staff and coach drivers should give the passenger the receipt portion of the luggage tag. Passengers must present this tag to retrieve their luggage. Tags are colour-coded to help staff sort luggage according to its destination.

Luggage can only be sent to the passenger's destination. If that location is unstaffed, the passenger must pick up the luggage as soon as it arrives. V/Line is not liable for lost luggage on board its trains and coach services.

Passengers who lose their luggage tags must sign a declaration giving a description of the items and indemnifying V/Line against any loss or claim for wrong delivery. V/Line will only return the luggage if sufficient evidence of ownership is provided.

At Southern Cross Station, checked luggage will be delivered on the platform beside the train or beside the road coach immediately on arrival. Luggage unclaimed on arrival will be transferred to the luggage hall. At other stations or stops luggage will be delivered on the platform beside the train or on the roadside beside the road coach.

Liability and Insurance

V/Line may pay up to \$600 to any passenger whose checked luggage is lost, damaged or delayed as a result of negligence by V/Line's employees, agents or contractors but only when:

- The items were in a suitcase, bag or other receptacle that was securely locked and clearly labelled with the passenger's name, address and destination
- The luggage was handed to an employee, agent or contractor of V/Line and a luggage tag was obtained for each item.

V/Line is not liable for any loss, damage or delay to bicycles, surfboards, sporting or camping equipment. V/Line is not liable for any loss, damage or delay arising out of any other cause. Passengers who require additional cover should obtain appropriate travel insurance.

Dangerous goods

Items likely to injure or endanger other persons are not permitted to be carried on passenger vehicles in Victoria.

Examples of such items prohibited from carriage on passenger vehicles include:

- Flammable liquids and gases (petrol, kerosene, LPG, propane)
- Firearms
- Explosives
- Corrosive or acidic chemicals

Cloakrooms

Limited cloakroom space is available at Bendigo, Geelong and Wodonga stations for storage of items which will not fit in luggage lockers eg. sporting equipment, wheelchairs and other items.

To store items in the cloakroom, passengers must pay \$2.60 per item per day and will be issued with a separate ticket for each item.

To retrieve an item, passengers must present their ticket at the cloakroom and pay any overtime charges due. Staff should ask for a description of the item.

* Due to track work on the Albury line, V/Line coach services are currently replacing track services between Albury and Seymour, therefore V/Line will not be able to accept checked luggage on Albury services until this work is complete.

If a passenger needs to access an item from the cloakroom, the ticket must be handed in and another ticket issued and paid for when the item is returned to the cloakroom.

Passengers who lose their ticket must sign a declaration giving a description of the item. They must pay any outstanding charges along with a \$1.20 search fee.

V/Line is not liable for any loss of or damage to items stored in cloakrooms.

Prams, shopping jeeps and golf buggies

Prams, pushers, shopping jeeps, golf buggies and similar items can be carried for free on public transport services, as long as the comfort, access and safety of other passengers are not affected.

Motorised vehicles

Petrol-driven vehicles of any kind are not permitted on public transport services for safety reasons.

Electrically-driven mobility aids (such as wheelchairs and scooters) are permitted on public transport, but must conform to the dimensions given on page 60 of this manual.

Animals

Only animals identified on an Assistance Animal Pass can travel on all public transport services.

All other animals travel subject to the conditions stated below.

Metropolitan services

Dogs on leads are permitted on metropolitan trains, but only if they are muzzled.

It is strongly advised that passengers with dogs do not travel during weekdays between 7.00 am and 9.00 am and between 4.00 pm and 6.00 pm.

Dogs are not allowed on seats, are not allowed to block doorways or passageways and must be controlled by their owner at all times.

Owners must clean up any mess created by their dogs.

Small animals can travel on metropolitan trains, trams and buses, but they must be in a suitable container.

V/Line services

Animals are not permitted to travel on V/Line train and coach services with the exception of guide dogs, hearing guide dogs, guide dogs in training or an animal identified on an Assistance Animal Pass (see page 60).

CHAPTER 9 – REFUNDS AND REPLACEMENT TICKETS

General Rules

The following general rules apply to refunds and replacement tickets for Metcard and V/Line tickets. Refunds and replacements are generally not available for tickets issued by other operators – please check with the operator for details.

Most Metcard refunds or replacements require a completed Metcard Refund Form. Forms and a reply-paid postage envelope are available from Metro Premium stations, The MetShop, selected Metcard retail agents and from the Metcard Helpline (**1800 652 313**). The Metcard Refund Form can also be downloaded from the Metlink website. In some cases, an administration fee of \$9.80 on refunds is applicable.

A refund or replacement may apply in the following circumstances:

- Unused Tickets
- Surrendered Tickets
- Defective Tickets
- Ticket Equipment Faults
- Mutilated Tickets
- Medical Condition and Change of Travel Circumstances
- Industrial Stoppage and Severe Service Disruption
- Special Consideration
- Lost and Stolen tickets

No refund is available for a purported Metcard that has not been electronically encoded, unless it can be determined that the absence of encoding has been caused by a Metcard equipment fault

Unused tickets

The ticket must not have been used or validated on any service.

Metcard

For unused 2 hour, 10 x 2 hour, Daily, Weekly, Monthly, Seniors Daily, 5 x Seniors Daily, 5 x Daily, City Saver Ticket, City Saver x 10, Sunday Saver, 5 x Weekend Daily, Off-Peak Daily and Group Traveller tickets:

- If a refund is required, the refund amount is equal to the price paid for the ticket, minus the administration fee. A Metcard refund form should be completed and posted to Onelink, enclosing the ticket.
- If the passenger requires replacement tickets, passengers may obtain replacement tickets from The MetShop provided the magnetic stripe can be read by a ticket reading machine. No administration fee applies, but the passenger must use the value of the ticket towards the purchase of other tickets of equal or greater value. Passengers may also obtain replacement tickets by mail from OneLink by completing and posting the Metcard Refund Application Form (no refund fee applies).

V/Line (All tickets)

Unused V/Line tickets may be exchanged for another date or refunded, provided they are presented to a V/Line booking office prior to the departure date printed on the ticket. No administration fee applies.

Surrendered tickets

These conditions apply if a ticket is surrendered in compliance with a request made under regulation 19 of the Transport (Ticketing) Regulations 2006.

In these conditions, ‘**enforcement activity**’ means the issue and enforcement of an infringement notice or the bringing and prosecuting of proceedings for an offence.

If the holder of the ticket surrenders the ticket to an Authorised Officer while travelling on a passenger vehicle, he or she will be issued with a travel permit for the balance of the travel authorised by the ticket up to a maximum of seven days travel.

A surrendered ticket will be retained by the Authorised Officer or the member of the police force to whom the ticket was surrendered, or by the Department of Transport, at least until –

- (a) a decision is taken to not proceed with any enforcement activity to which the ticket is relevant; or
- (b) all enforcement activities to which the ticket is relevant are concluded.

When either of the events referred to in the immediately preceding paragraph occurs, the following conditions apply in respect of the surrendered ticket –

- If the ticket is a concession ticket which has been used by a person who has no entitlement to rely on the concession ticket for travel in a passenger vehicle or entry to a designated area –
 - (a) no replacement tickets will be issued and no refund will be made, to the extent of the whole or part of any unused value remaining on the ticket at the time of surrender; and
 - (b) the ticket will not be returned except as provided in the next succeeding dot point.
- If a person referred to in the immediately preceding dot point obtains an entitlement to rely on the concession ticket for travel in a passenger vehicle or entry to a designated area and –
 - (a) applies for the return of the ticket; and
 - (b) presents evidence of the relevant entitlement –
to the Department of Transport within 28 days of a decision to not proceed with any enforcement activity, or of the conclusion of all enforcement activities, to which the ticket is relevant, the ticket will be returned if it has any remaining unused value, but no replacement tickets will be issued, and no refund will be made, to the extent of the whole or part of any unused value remaining on the ticket at the time of surrender.
- If the ticket was fraudulently or, in some other way, dishonestly obtained or used –
 - (a) no replacement tickets will be issued and no refund will be made, to the extent of the whole or part of any unused value remaining on the ticket at the time of surrender; and
 - (b) the ticket will not be returned –
except as provided in the next succeeding dot point.
- If the original holder of a fraudulently or dishonestly obtained or used ticket applies to the Department of Transport for the return of that ticket within 28 days of the conclusion of all enforcement activities to which the ticket is relevant and satisfies the Department that he or she was not a party to the deception or dishonesty –
 - (a) if the ticket has any remaining unused value, it will be returned to the original holder; and
 - (b) whether or not the ticket is returned under paragraph (a), the original holder is entitled to a replacement ticket or tickets, or a refund, to the extent of the whole of any unused value remaining on the ticket at the time of surrender, less, if the ticket is returned, any remaining unused value as at the date the ticket is returned.
- If the enforcement activities culminated in a successful prosecution of the holder of the ticket, an order may be sought by or on behalf of the informant for the forfeiture of the ticket. If such an order is not made by the Court, the ticket will be returned to the person prosecuted if it has any remaining unused value, but no replacement tickets will be issued, and no refund will be made, to the extent of the whole or part of any unused value remaining on the ticket at the time of surrender.

- If the enforcement activities culminated in the prosecution of the holder of the ticket and that prosecution resulted in the acquittal of the holder of the ticket on the charge or charges and if the holder makes application to the Department of Transport within 28 days of the Court's decision –
 - (a) if the ticket has any remaining unused value, it will be returned to the holder; and
 - (b) whether or not the ticket is returned under paragraph (a), the holder is entitled to a replacement ticket or tickets, or a refund, to the extent of the whole of any unused value remaining on the ticket at the time of surrender, less, if the ticket is returned, any remaining unused value as at the date the ticket is returned.
- If an infringement notice was issued and either –
 - (a) the penalty specified in the notice is paid before an enforcement order in respect of the notice is made; or
 - (b) if the notice becomes the subject of an enforcement order, the amount required to be paid under the order is paid –and if the holder of the ticket makes application to the Department of Transport within 28 days of the payment of the penalty or amount (as the case may be), the ticket will be returned to the holder if it has any remaining unused value, but no replacement tickets will be issued, and no refund will be made, to the extent of the whole or part of any unused value remaining on the ticket at the time of surrender.
- If –
 - (a) an infringement notice was issued; and
 - (b) the notice was lodged with the Infringements Registrar; and
 - (c) the notice was subsequently revoked by a Court; and
 - (d) under section 69 of the **Infringements Act 2006**, the matter is not referred to the Court –and if the holder of the ticket makes application to the Department of Transport within 28 days of receiving the notice under section 69(3) of the **Infringements Act 2006** from the Infringements Registrar that the matter will not be referred to the Court –
 - (e) if the ticket has any remaining unused value, it will be returned to the holder; and
 - (f) whether or not the ticket is returned under paragraph (e), the holder is entitled to a replacement ticket or tickets, or a refund, to the extent of the whole of any unused value remaining on the ticket at the time of surrender, less, if the ticket is returned, any remaining unused value as at the date the ticket is returned.
- If an infringement notice was issued, but later withdrawn and either –
 - (a) a decision was made to not undertake any other enforcement activity to which the ticket is relevant; or
 - (b) an official warning is given to the holder of the ticket –and if the holder of the ticket makes application to the Department of Transport within 28 days of receiving the notice of withdrawal or warning letter (as the case may be) –
 - (c) if the ticket has any remaining unused value, it will be returned to the holder; and
 - (d) whether or not the ticket is returned under paragraph (c), the holder is entitled to a replacement ticket or tickets, or a refund, to the extent of the whole of any unused value remaining on the ticket at the time of surrender, less, if the ticket is returned, any remaining unused value as at the date the ticket is returned.
- Unless the ticket is a ticket referred to in the first dot point above, if a decision was taken to not proceed with any enforcement activity to which the ticket is relevant, and if the holder of the ticket makes application to the Department of Transport –

- (a) if the ticket has any remaining unused value, it will be returned to the holder; and
 - (b) whether or not the ticket is returned under paragraph (a), the holder is entitled to a replacement ticket or tickets, or a refund, to the extent of the whole of any unused value remaining on the ticket at the time of surrender, less, if the ticket is returned, any remaining unused value as at the date the ticket is returned.
- An application under the last preceding dot point must be made no later than 28 days after the holder of the ticket receives advice from the Department of Transport that no enforcement activity to which the ticket is relevant will proceed.

Defective tickets (Metcard only)

A ticket is defective if the magnetic stripe is unable to be electronically read, and the ticket has not been visibly damaged. If the ticket or magnetic stripe has been visibly corrupted or damaged, then please refer to the section on Mutilated/Damaged tickets. Defective tickets are exchanged for new tickets – no administration fee applies.

Unused valid tickets that cannot be validated

(excluding 10 x 2 hour/5 x Daily/City Saver x 10/5 x Weekend Daily/5 x Seniors Daily)

Unused valid tickets that cannot be validated will be replaced for an identical ticket at no charge. Tickets can be returned to Onelink using the Metcard Refund/Replacement Application Form. Most unused tickets may be exchanged for new tickets at The MetShop.

10 x 2 hour, 5 x Daily, City Saver x 10, 5 x Weekend Daily or 5 x Seniors Daily

If a 10 x 2 hour, 5 x Daily, 5 x Weekend Daily or 5 x Seniors Daily ticket cannot be validated, it can be exchanged at the booking office of any Premium station or the MetShop. If no trips have been used, the ticket will be replaced. If the ticket has been used, then individual 2 hour, Daily, City Saver, Sunday Saver or Seniors Daily tickets will be provided for any unused periods on the ticket. For the 10 x 2 hour ticket, passengers will be issued a Daily ticket for the next 2 hour period and 2 hour tickets for the remaining unused periods on the ticket. City Saver x 10 tickets can only be exchanged at Premium stations in the City Saver area. For defective 5 x Weekend Daily tickets replacement Sunday Saver tickets will be issued. If this does not suit the customer (who may only travel on Saturdays) then the ticket will need to be mailed to OneLink Transit Systems using the Metcard Refund Application Form and a cheque refund will be sent.

Tickets unable to be validated with a visible expiration date within one month

Public transport passengers are required to take all reasonable steps to validate their Metcard correctly. However, if a defective Metcard was initially validated correctly and has a clearly visible expiration date less than one month away, then it remains valid for travel until the expiry date printed on the ticket and may be presented to staff for visual inspection when travelling. Passengers may choose to exchange defective Metcards at The MetShop for replacement Metcards. Weekly, Daily and Sunday Saver Metcards will be used to make up the remaining time on the Metcard (using the smallest number of Metcards possible).

Yearly Metcards unable to be validated

With Yearly Metcards purchased at a Station or the MetShop, the holder must take the defective Yearly Metcard back to the outlet from which it was purchased and complete a declaration form. The station or MetShop will issue two interim Weekly Zone 1 + 2 full fare Metcards. Paperwork and the defective Yearly Metcard are forwarded to OneLink, c/o The Stationmaster's Office, Flinders Street Station. Replacement tickets are then mailed to the holder, taking into account the two interim Weekly Metcards already provided.

For Yearly Metcards issued through a Commuter Club, the holder should contact their Commuter Club coordinator or visit the Stationmaster's Office at Flinders Street Station to arrange replacement. An interim Monthly Zone 1 + 2 Metcard will be supplied.

Victorian Student Passes

The passenger should return the Victorian Student Pass to the location it was purchased from for a replacement.

Ticket equipment faults (Metcard only)

In case of a Metcard equipment fault, passengers should complete a Metcard Refund Application Form and post it to OneLink for processing. No refund fee applies for Metcard machine faults. Passengers are requested to provide as much information as possible to assist in processing their claim.

Metcard machine faults may include:

- Metcards not issued;
- No change or incorrect change provided;
- Metcard printed with wrong date;

Applications are cross referenced against the Metcard central computer system which continually monitors ticketing equipment and records faults

Mutilated/damaged tickets

Tickets that are Mutilated/Damaged can become invalid through:

- Heat damage;
- Bent, punched through, torn or cut;
- Chewed;
- Water damaged;
- Covered in dirt or other foreign substance;
- Damage that exceeds normal wear and tear

Metcard

Refunds and replacements of mutilated and damaged Metcards can only be done via the Metcard Refund Application Form and posted to OneLink. If the passenger requests replacement Metcards, passengers will receive a combination of Metcards that equals or exceeds the amount of the refund calculated. An administration fee of \$9.80 is charged for mutilated and damaged Metcards and is deducted from the refund or the value of replacement tickets.

For Yearly Metcards the holder must return the mutilated/damaged Yearly Metcard to the issuing outlet and complete a declaration form. Yearly Metcards issued through the Commuter Club are to be returned to the Stationmaster's Office at Flinders Street Station. The holder will be issued interim tickets with the remainder mailed by OneLink.

V/Line

Generally, a mutilated ticket will be replaced where it is possible to verify the issue of the original ticket with the issuing station and a Declaration Form is completed setting out the circumstances. An administration fee of \$5 must be paid to replace a mutilated ticket. The mutilated ticket must be retained and submitted with a ticket office/agent sales return to verify the replacement ticket.

Medical conditions or change of travel circumstances

In certain circumstances, refunds and replacement tickets may be available for passengers who have experienced medical problems or a change in circumstances.

Medical

Refunds due to medical conditions will only be allowed if the application meets the following requirements:

- the claim is accompanied by the ticket;
- the claim is accompanied by the doctor's certificate for the days claimed (statutory declarations are not accepted as proof);
- the passenger has missed at least three weekdays for weekly tickets, five weekdays for monthly, five days per month for date to date tickets or twenty weekdays for yearly tickets.

A refund based on a medical condition can be claimed for non-consecutive days of illness. However, a certificate must be produced for each of the days.

Change of Travel Circumstances

Only the following reasons are accepted for Change of Travel Circumstances.

- Change of home address;
- Change of place of employment/employer or school;
- Retrenchment;

Refund applications based on change of travel circumstances will only be allowed if the following conditions are met:

- the claim is accompanied by the ticket;
- only one change of circumstance is claimed;

The refund application must be supported by documentary evidence such as a letter from employer or school. Statutory declarations are not accepted as proof.

Metcard

The ticket should be forwarded to Onelink accompanied by a Metcard Refund Application Form and supporting documentation. The passenger should indicate if they are seeking a refund or replacement tickets. When travel circumstances have changed, the passenger should indicate the new combination of zones their replacement tickets should be valid for. An administration fee of \$9.80 may apply.

V/Line

Application for V/Line refunds should be made at the ticket office of staffed V/Line stations. Passengers are requested to bring copies of any documentary evidence that supports their application for special consideration.

Transferred Yearly Metcards

Yearly Metcards may be transferred to a different combination of Zone(s). An 'Application for Yearly Ticket Zone Transfer Form' must be completed.

For transfer involving a higher fare pro-rata payment based on the difference in the fare must be paid at the issuing station/office (contact OneLink to obtain the amount payable). For transfer to a lower fare a pro-rata refund will be provided by OneLink Transit Systems.

Yearly Metcards issued through the Commuter Club transferred to a higher or lower fare must be returned to the Stationmaster's Office at Flinders Street Station. Yearly Metcards issued at stations or the MetShop must be returned to the place from which it is purchased.

Holder of Yearly Metcards applying for a transfer will be issued two interim Weekly full fare Metcards for Yearly Metcards issued at stations or the MetShop, or an interim Monthly Metcard for Yearly Metcards issued through the Commuter Club. The interim Metcards are to be available for the new zone(s) the transferred Yearly Metcard is to be available. The balance of replacement Metcards until the original expiry date will be mailed to the holder by OneLink.

An Administration Fee of \$9.80 applies and is added to the customer's pro-rata payment (higher fare) or deducted from the customer's refund (lower fare).

Severe service disruption and customer Compensation Codes

In the event of prolonged severe service disruption or industrial action, special bulletins will advise refund arrangements. Severe service disruption is where regular services are unable to be provided, and replacement services are not available for an extended period of time. The following conditions will normally apply:

- The application must be accompanied by the ticket
- The ticket was valid for travel during the stoppage
- The ticket was not used on alternative or replacement services during the stoppage.
- The application is submitted within 14 days of the expiry of the ticket

Refunds that are based on industrial stoppage or severe service disruption do not attract an administration fee. The special bulletin will detail how to apply for the refund.

Metropolitan trains and trams

Yarra Trams and Metro have developed special Compensation Codes under their Passenger Charters which allows passengers to be compensated when performance targets in relation to punctuality and reliability are not met.

The Yarra Trams and Metro Compensation Codes are available from their websites, www.yarratrams.com.au and www.metrotrains.com.au. Metro Compensation Claim Forms are available from all Premium Stations or on the Metro website. Yarra Trams Compensation Forms are available by calling **131 638**, writing to Yarra Trams or from the Yarra Trams website.

Special consideration

Refunds may be provided in a very limited number of circumstances not covered by the above.

Applications for Metcard refunds should be made using the Metcard Refund Application Form.

Passengers are requested to include copies of any documentary evidence that supports their application for special consideration. An administration fee may apply.

V/Line

Application for V/Line refunds should be made at the ticket office of staffed V/Line stations. Passengers are requested to bring copies of any documentary evidence that supports their application for special consideration.

Lost or stolen tickets

No refunds or replacements are available for lost or stolen tickets, with the exception of Student Passes, Yearly Metcards, reserved V/Line tickets and Date-to-Date V/Line tickets for which a duplicate ticket (or tickets) may be issued.

Metcard

Lost or stolen Student Passes or Yearly Metcards may be replaced with a duplicate ticket (or tickets) upon completion of the declaration form 'Application for Replacement Periodical Ticket' which must be completed and signed, with the signature witnessed by a Police Officer.

Applications for a duplicate ticket (or tickets) must be made at the place of issue of the original ticket. For Yearly Metcards issued through a Commuter Club, applications must be made at the Station Master's Office at Flinders Street Station. Declaration forms are available from any Premium station. A duplicate ticket fee of \$12.00 applies.

V/Line

Lost or stolen reserved seating tickets will be replaced if reported before the day of travel at any staffed V/Line station on completion of an application form.

A lost or stolen Date-to-Date ticket will be replaced with a duplicate ticket at any staffed V/Line station on completion of an application form. A duplicate ticket fee of \$12.00 applies.

Refund procedures

Metcard

The majority of Metcard refunds and replacements need to be made using the Metcard Refund Application Form. A number of tickets can be submitted with a single refund form, but only one reason is allowed per claim. Refunds or replacements can only be considered if the following conditions are met:

- The refund form has been completed correctly, including signature
- A claim is submitted in writing no later than twelve (12) months after date of last validation of ticket (for used tickets)
- The sale of the ticket can be traced
- Ticket has not been reported lost, stolen or invalid
- If the calculated refund amount is a positive amount.
- If specific criteria listed in the preceding sections are met
- Documentary proof of claim is included, if required (eg. medical certificate)

An administration fee applies for refunds – with some exceptions. In circumstances where it is possible to get replacement tickets over the counter from The MetShop, photo identification is normally required for replacement tickets to be processed to protect against fraud. Any passenger who applies for a refund or replacement, and provides false or misleading information is subject to penalty, including an infringement notice and court action. The Metcard central computer system tracks ticket validations and equipment faults and is used in the assessment of refund applications to prevent fraud.

V/Line

Refunds are available from staffed V/Line stations. No application form is normally required, but a refund slip must be signed by the passenger.

No refund, allowance or compensation shall be granted for:

- Changes of timetable, reduction of services or reduction of fares during the availability of the ticket.
- Passengers paying full fare who produce a valid concession card after travel has commenced, or has been completed.
- Disruption of services where V/Line has provided alternative or substitute transport services.
- All metropolitan tickets (Metcards).
- Tickets marked 'departmental'.
- Tickets within the following categories:
 - Tickets issued in exchange for a voucher.
 - Tickets issued free.
 - Tickets that were paid for by personal cheque where notification of clearance has not been received.
 - Any discounted ticket stipulated in the Fares and Conditions Manual or Associated Marketing News as non-refundable.

No refunds or adjustments will be made after travel has taken place on the ticket.

For information regarding the refund policy for specific fare types, refer to the relevant fare conditions page. For further assistance, phone the Chief Booking Clerk on **9619 2187**.

CHAPTER 10 – GENERAL AND SPECIAL TICKETING CONDITIONS

Application of chapter

The conditions in this Chapter apply to all classes of tickets and all services unless otherwise specified.

Fares

A person who undertakes a journey in a passenger vehicle, or makes an entry to a designated area, for which a fare is required, must pay at least the correct fare in accordance with the conditions contained in this manual for the travel in a passenger vehicle that consists of or includes the journey or for the entry.

Designated areas

The correct fare for travel in a passenger vehicle in a zone, or to, from or through a location, at a particular time is deemed to be the correct fare for an entry to a designated area in that zone, or at that location, at that time.

If a ticket is valid for travel in a passenger vehicle in a zone, or to, from or through a location, at a particular time, the ticket is valid for an entry to a designated area in that zone or at that location at that time.

V/Line and metropolitan tickets

Passengers holding valid Metcards are permitted to use Economy class V/Line services within Zones 1+2 when travelling to or from Ardeer, Deer Park, Rockbank, Melton, Diggers Rest, Sunbury, and Pakenham railway stations at any time.

However, where V/Line train services stop at railway stations in the metropolitan area, pick up and set down restrictions apply. These restrictions are set out in V/Line timetables which may be viewed or obtained at V/Line railway stations and viewed on the Viclink website (viclink.com.au). The Metcards of passengers boarding or alighting at stations in contravention of these restrictions are not, or cease to be, valid for travel on the relevant V/Line train service.

The preceding two paragraphs do not affect the travel entitlement of holders of Yearly, Monthly or Weekly Metcards who purchase V/Line extension tickets and rely on those tickets for their journey on a V/Line train service.

Extension tickets

Passengers must have a single valid ticket for their entire journey.

Exceptions to this are Yearly, Date-to-Date, Monthly and Weekly ticket holders who may use that ticket beyond the zone or locations for which the ticket is valid by purchasing a 2 hour, Daily or Single ticket for the additional zone or locations.

The ‘extension ticket’ must be purchased before the journey. If this is not possible by taking all reasonable steps before the journey, the ticket must be purchased as soon as there is a reasonable opportunity during the journey or, if there is no reasonable opportunity during the journey, at the completion of the journey. If the extension ticket is a Metcard, then it must be validated as soon as there is a reasonable opportunity during the journey or, if there is no reasonable opportunity during the journey, then it must be validated as soon as taking all reasonable steps will permit after the journey, in accordance with the conditions set out later in this chapter under the heading ‘Validation and Re-validation of Metcards’.

Public holidays

For the purposes of ticket conditions, a reference to Public Holidays refers to the following days in 2011:

- Saturday 1 January 2011 (New Year's Day)
- Monday 3 January 2011 (New Year's Day) (additional)
- Wednesday 26 January 2011 (Australia Day)
- Monday 14 March 2011 (Labour Day)
- Friday 22 April 2011 (Good Friday)
- Saturday 23 April 2011 (Saturday before Easter Sunday)
- Monday 25 April 2011 (Easter Monday)
- Tuesday 26 April 2011 (ANZAC Day) (substitute)
- Monday 13 June 2011 (Queen's Birthday)
- Tuesday 1 November 2011 (Melbourne Cup Day – Metropolitan only)
- Monday 26 December 2011 (Boxing Day)
- Tuesday 27 December 2011 (Christmas Day) (substitute).

Delayed/disrupted/replaced services

Where a passenger arrives at a railway station or a bus or tram stop to board the last service scheduled to depart prior to the expiry of a ticket, and the service is delayed or does not run, the passenger is allowed to travel on the next available train, tram or bus; even if it departs after the ticket has expired. However, this condition does not apply in respect of 10 x Early Bird tickets for which special conditions apply – see Chapter Two.

When replacement vehicles are provided, tickets are valid on the alternative services to the same extent as they applied on the original service.

Overland and XPT services

Where V/Line tickets are accepted on the Overland and XPT train services, V/Line fares will apply, but the relevant operator's ticketing conditions will apply. Reservations are required.

Contract between passengers and operators

A ticket issued by or on behalf of one or more operators is evidence of a contract between the passenger who holds the ticket and each operator whose passenger services the passenger is entitled by the ticket to use.

Ownership of tickets

A ticket issued by or on behalf of an operator remains the property of the operator at all times. A ticket issued by or on behalf of the Public Transport Ticketing Body remains the property of that Body at all times.

Validity of tickets**General**

A ticket is valid for a journey in a passenger service or an entry to a designated area if –

- (a) any fare for the journey or entry has been paid; and
- (b) either –
 - (i) in the case of a Metcard, the ticket has been correctly validated or re-validated in accordance with the conditions contained in this chapter and, except as specified in this chapter, the whole of the journey or the entry conforms with a journey or an entry to a designated area electronically recorded on the ticket as being authorised by it; or
 - (ii) in all other cases, the whole of the journey or the entry is authorised on the face of the ticket; and

- (c) in the case of a concession ticket, it either itself constitutes, or is accompanied by, evidence of a current concession entitlement to rely on that ticket; and
- (d) it is used in accordance with all other conditions for its use applicable in respect of that class of ticket.

Transfer of ticket

Unless otherwise specified in another chapter in this manual, only the person who first uses the ticket for a journey or an entry to a designated area is entitled to use that ticket for that journey or entry and any subsequent journey or entry to a designated area authorised by the ticket.

A ticket that is used for a journey or an entry to a designated area in contravention of the condition in the immediately preceding paragraph is not valid for that journey or entry.

Defaced tickets and concessions

A ticket is invalid if –

- (a) it has been altered, defaced or mutilated in any material particular; or
- (b) it becomes, or has been made, illegible in any material particular; or
- (c) information stored in or on the ticket in a magnetic stripe or electronic chip has been altered or destroyed or made inaccessible in any material particular.

Evidence of a concession entitlement is invalid if the card or other document which constitutes that evidence –

- (a) has been altered, defaced or mutilated in any material particular; or
- (b) becomes, or has been made, illegible in any material particular.

Liability of operators

An operator whose passenger services are entitled to be used by a passenger is not responsible to that passenger for any loss, damage or delay caused by any failure by another operator in the provision of passenger services.

An operator shall not, in respect of any passenger, be liable for any loss, damage or delay caused by or arising from an act of God or inevitable accident, riot, civil commotion, strike, lock-out, stoppage or restraint of labour, regardless of the cause and whether partial or general.

An operator may use any mode of transport to carry passengers and may substitute the mode of transport used at any time, including during a journey.

An operator is not liable to a passenger for –

- (a) any consequences arising from any variation in the time of arrival at or departure from any station or stop of any passenger vehicle; or
- (b) any loss or damage as a result of a cancellation of a passenger service or any variation of the time of arrival at or departure from any station or stop of any passenger vehicle.

An operator may cancel wholly or in part the scheduled passenger services shown in the operator's timetables or may vary the point at which passenger services will pick up and set down passengers.

An operator does not guarantee the time of arrival or departure of its passenger services at the times published in its timetable.

A ticket issued by or on behalf of an operator or which an operator is required to accept is subject to any alteration which the operator may make to any passenger service to which that ticket relates during the currency of the ticket and the holder of the ticket is not entitled to any allowance or compensation due to any change in the time of the service or any reduction in the service.

Discontinued use of tickets

Regional Bus Tickets (other than Seniors Sunday Passes and Sunday Passes) that have been issued in respect of the following bus services or train services may not be used in relation to those services –

- the bus services that comprise the Ballarat Transit System
- the bus and train services that comprise the Bendigo Transit System
- the bus and train services that comprise the Geelong Transit System
- the town bus services of Moe
- the town bus services of Morwell
- the town bus services of Seymour
- the town bus services of Traralgon.

New conditions for, and abolition of, ticket types

If a type of ticket in a class specified in the conditions contained in this manual is included in a class of tickets specified in conditions (in this and the next succeeding paragraph called ‘replacement conditions’) which are determined and published in accordance with section 220D of the **Transport (Compliance and Miscellaneous) Act 1983** and which replace the conditions contained in this manual, any ticket of that type that, immediately before the replacement conditions take effect –

- (a) has been issued but not used; or
- (b) has been used and is still able to be validly used –

may be used or continue to be used (as the case requires) after the replacement conditions take effect, subject to the replacement conditions.

If a type of ticket specified in the conditions contained in this manual is not included in a class of tickets specified in replacement conditions, any ticket of that type ceases to be valid in any way for travel or entry to a designated area when the replacement conditions take effect. Any refund in relation to any unused travel to which the holder of a ticket of that type would otherwise be entitled must be applied for in writing to the relevant operator, enclosing the relevant ticket, no later than three months after the replacement conditions take effect or such longer period as the Director may specify in a notice published in the Government Gazette in relation to that type of ticket.

Encoded information

If –

- (a) there is an inconsistency between the information electronically encoded on a Metcard and the information printed on that Metcard; or
- (b) the information printed on a Metcard becomes illegible as the result of fair wear and tear; or
- (c) no information or incomplete information is printed on a Metcard when the Metcard is issued or validated –

the information electronically encoded on the Metcard prevails or applies (as the case requires) unless other information available about the Metcard (for example, the place, date or time of purchase or the fare paid) indicates that the electronically encoded information is unreliable.

Validation and re-validation of Metcards

A Metcard must be –

- (a) validated for the first or only journey or entry to a designated area authorised by the Metcard; and
- (b) if the Metcard authorises more than one journey or entry to a designated area, re-validated for each subsequent journey or entry to a designated area –

in accordance with the following paragraphs.

Validation and Re-validation off-vehicle

For a journey on a train or for an entry to a designated area, a passenger must validate or re-validate a Metcard which authorises that journey or entry before –

- (a) boarding the train; or
- (b) entering the designated area.

However, if a passenger referred to in the last preceding paragraph is not able to validate or re-validate his or her Metcard as required by that paragraph because an operational ticket validating device is not available –

- (a) the requirements set out in that paragraph do not apply; and
- (b) the passenger must take all reasonable steps to validate or re-validate the Metcard –
 - (i) on leaving the train; or
 - (ii) either before leaving, or on leaving, a designated area.

An operational ticket validating device is to be taken as being not available only if –

- (a) the ticket validating device nearest to where the passenger is to board the train or enter the designated area is not able to be operated (due to being faulty, shut down or inactive) so as to properly validate or re-validate the Metcard and it would be unreasonable to require the person to validate or re-validate the Metcard at another ticket validating device which is able to be so operated; or
- (b) the passenger is unable to validate or re-validate the Metcard because of his or her physical or mental disability and is unable to have the ticket validated or re-validated on his or her behalf by a person accompanying him or her or by an authorised person.

However, special validation and re-validation conditions apply to some passengers using the Stony Point railway line.

If a passenger is travelling from a railway station on the Stony Point railway line to a railway station beyond Frankston, the passenger must validate or re-validate his or her Metcard when changing trains at Frankston and the above conditions apply as if the passenger's journey were commencing at Frankston.

If a passenger is travelling to a railway station on the Stony Point railway line from a railway station before Frankston, and the passenger had not been able to validate or re-validate his or her Metcard in accordance with the above conditions, the passenger must take all reasonable steps to validate or re-validate his or her Metcard when changing trains at Frankston as if the passenger's journey were ending at Frankston.

Validation and Re-validation on-vehicle

For a journey on a tram or a bus, a passenger who is relying on a Metcard which –

- (a) requires validation after purchase and has not been validated; or
- (b) has already been validated –

and which on validation or re-validation would authorise that journey, must, after boarding the vehicle move without delay to a ticket validating machine and validate or re-validate the Metcard.

However, if a passenger referred to in the last preceding paragraph is not able to validate or re-validate his or her Metcard as required by that paragraph because an operational ticket validating machine is not available or because there is no reasonable opportunity to do so, the requirements set out in that paragraph do not apply and –

- (a) if the reason why the passenger was not able to validate or re-validate his or her Metcard as required was because an operational ticket validating machine was not available, the passenger must take all reasonable steps to validate or re-validate the Metcard on leaving the vehicle; or

- (b) if the reason why the passenger was not able to validate or re-validate his or her Metcard as required was because there was no reasonable opportunity to do so, the passenger must –
 - (i) validate or re-validate the Metcard as soon as a reasonable opportunity to do so arises while the passenger is on board the vehicle; or
 - (ii) if no such reasonable opportunity arises, take all reasonable steps to validate or re-validate the Metcard on leaving the vehicle.

An operational ticket validating machine is to be taken as being not available only if the ticket validating machine nearest to where the passenger boards the tram or bus is not able to be operated (due to being faulty, shut down or inactive) so as to properly validate or re-validate the Metcard and it would be unreasonable to require the person to validate or re-validate the Metcard at another ticket validating machine which is able to be so operated.

Examples

Examples of where there is no reasonable opportunity to validate or re-validate a Metcard on board a tram or a bus:

- (a) a ticket validating machine is inaccessible because there are so many people around the machine that the machine cannot be reached.
- (b) a person is unable to validate the Metcard because of his or her physical or mental disability and is unable to have the ticket validated on his or her behalf by a person accompanying him or her or by an authorised person.

Note: If a Metcard is purchased from a ticket vending machine located on a tram the Metcard is automatically validated and does not require further validation or re-validation for that journey

Validation and Re-validation after Journey or Entry

If a passenger validates or re-validates a Metcard on leaving a train, tram, or bus or a designated area in accordance with the preceding conditions, the Metcard is deemed to have been valid for the whole of the journey, or for the entry, which the passenger has just completed.

References on Metcards

A reference on a Metcard to 'PTC Conditions of Use', 'Conditions of Use', 'Metcard Conditions' or 'Metropolitan Ticket Conditions' is a reference to the conditions in this manual.

CHAPTER 11 – TICKETING PROCEDURES AND INFRINGEMENT NOTICE PROCESS

Passenger obligations

A passenger must obtain a ticket for every fare paid. A passenger who pays a fare, but does not receive a ticket in return is travelling without a valid ticket. Passengers who observe or experience bus drivers, conductors or other staff accepting money without issuing tickets are requested to report this to Metlink on **131 638**, or Viclink on **136 196** for further investigation.

Bus driver obligations

Bus drivers are required to sign on and sign off from the ticketing system, if present, as they enter and leave the depot. Bus drivers on Metcard routes are also required to update their location on the ticketing system as they travel along the route to ensure validation occurs correctly. If it is not possible for a bus driver to issue a ticket due to equipment failure, then all passengers will travel free of charge. **Bus drivers are not permitted to accept money without issuing a valid ticket in return.** If a passenger pays for their ticket and does not take it, the driver must call them back and give it to them. If the passenger declines to accept the ticket the driver must immediately rip it in half and leave it in their change tray until the passenger leaves the bus, when it can then be discarded.

Tram driver obligations

Tram drivers are responsible for signing onto the tram driver keypad when they enter the tram. This should occur prior to leaving the depot to ensure the ticketing equipment is operational. While bus drivers are required to update their location manually, this process is generally automated on trams. However, errors can occur and it is the responsibility of tram drivers to confirm the location shown on their driver keypad is correct to ensure that tickets are sold and validated correctly. Drivers must not sign off prior to arriving at their final destination or depot.

If the ticketing system is not programmed with the correct location, it may result in passengers being unable to purchase or validate certain tickets.

Authorised Officers

Public transport operators employ staff to perform the role of ‘Authorised Officers’ under the **Transport (Compliance and Miscellaneous) Act 1983** and Transport Regulations. These officers are authorised by the Victorian Government’s Department of Transport after they have been trained in the relevant law and procedures, and have passed a stringent security check and interview.

Where a person is detected by an Authorised Officer travelling on public transport without a valid ticket, and it is believed the person had a reasonable opportunity to purchase and/or validate a ticket, the Authorised Officer may inform the person in clear terms what offence he/she believes has been committed. This also applies where a person is detected/observed committing another offence under the Transport Act or Regulations. The officer may inform the person that he/she intends to report the matter to the Department of Transport and that they may receive an infringement notice in the mail. The person will then be requested by the Authorised Officer to state their name and address.

Authorised Officers and police are empowered by section 218B of the **Transport (Compliance and Miscellaneous) Act 1983** to obtain the name and address of a person reasonably believed to have committed an offence against the **Transport (Compliance and Miscellaneous) Act 1983** or Regulations. This can be done orally, or in writing or by producing documents confirming such details given.

Anybody who fails or refuses to give their name and address, or gives false details to an officer commits another offence.

The officer can also request the person to provide evidence of name and address.

Report of non-compliance

To report an offence an officer will compile a 'Report of Non-Compliance', which contains a summary of the non-compliance alleged, the name and address of the person being reported, the location of the occurrence, the time, date, etc. This document, along with any evidence such as a confiscated ticket, is forwarded to the Department of Transport for processing. The documentation is checked for completeness and, if deemed appropriate, an infringement notice is generated and posted to the alleged offender.

Infringement notice procedures

Upon receiving an infringement notice a person has 42 days (from the notice date) to deal with the matter. If the penalty amount is paid within 42 days, the matter is finalised and no further action is taken. If the penalty amount is not paid within 42 days, Penalty Reminder Notices are generated and sent to the same address to remind the alleged offender of the overdue payment. The Penalty Reminder Notice adds additional administration costs to the penalty. The matter can still be finalised by payment of the penalty (plus administrative costs) within 42 days from the date of the Penalty Reminder Notice. If a person wishes to pay the penalty but because of genuine financial hardship, cannot afford to pay it in one payment, they are encouraged to contact the Department of Transport (DOT) who may grant an extension of time to pay. The DOT system does not allow for part payments-the whole amount must be paid to finalise the matter. The telephone number for infringement payment enquiries is **1300 135 066**.

Where no contact has been made with the DOT within either of the two 42 day periods mentioned above, and the infringement notice remains unpaid, the matter is transferred to the Infringements Court (a division of the Magistrates' Court), for enforcement. Once the matter has transferred to the Infringements Court, any enquiries about the matter must be directed to the Infringements Court, not the Department of Transport. The Infringements Court telephone enquiry number is **9611 7600** or toll free **1800 150 410**. Unpaid infringement notice matters for children are handled by the Children's Court **8601 6700**.

Objections to infringement notices

If a person wishes to have an infringement notice reviewed, this may be done in writing by letter to **GPO, Box 2797, Melbourne VIC 3000** or fax **9665 9400**; or by email to **tia@transport.vic.gov.au**. Upon receipt of a request for review, the infringement process is put on hold, which means the 42 day period is suspended until a decision is made whether to uphold or reject the appeal. If not satisfied with the decision, a person may elect to have the matter taken before a Magistrate. A person may also elect to have the matter dealt with in Court without the appeal process taking place, by notifying the DOT on receipt of the infringement notice.
