**Planning and Environment Act 1987**  
**CASEY PLANNING SCHEME**  
 Notice of Preparation of Amendment  
 Amendment C145  
 Authorisation A01891

The Casey City Council has prepared Amendment C145 to the Casey Planning Scheme.

In accordance with section 8A(3) of the **Planning and Environment Act 1987**, the Minister for Planning authorised the Casey Council as planning authority to prepare the Amendment.

The land affected by the Amendment includes Nos. 175, 177, 1/179, 2/179, 181, 183, 185, 335 and 365 Pound Road, Hampton Park, Nos. 100, 101A, 101B, 102, 103, 104, 105 and 106 Shrives Road, Hampton Park and Nos. 2, 3, 4, 5, 5A, 6, 7 and 8 Wethersdane Drive, Hampton Park.

The Amendment proposes to:

- rezone the area located to the north of Pound Road and Shrives Road, Hampton Park; including Nos. 175, 177, 1/179, 2/179, 181, 183 and 185 Pound Road, 100, 102, 104 and 106 Shrives Road, and Nos. 2, 3, 4, 5, 5A, 6, 7 and 8 Wethersdane Drive, Hampton Park; from a Residential 1 Zone (R1Z) to a Low Density Residential Zone (LDRZ);
- amend Schedule 1 to the Low Density Residential Zone (LDRZ) to introduce a 1 hectare minimum lot size for subdivision of the above area;
- introduce the Design and Development Overlay (DDO – Clause 43.02) into the Casey Planning Scheme; and
- introduce Schedule 1 to the Design and Development Overlay (DDO1) into the Casey Planning Scheme and apply it to the area located south of Shrives Road, Hampton Park; including 101A, 101B, 103 and 105 Shrives Road and 335 and 365 Pound Road, Hampton Park; to require a 2,000-square-metre minimum lot size and the provision of a 6-metre-wide tree reserve along the frontage of properties that are adjacent to arterial roads.

The Amendment would introduce permanent planning controls into the Casey Planning Scheme to guide subdivision within the subject area, replacing interim controls that are currently implemented through the Schedule to Clause 52.03 – Specific sites and exclusions and which are due to expire on 31 May 2011 under the provisions of Amendment C137 to the Casey Planning Scheme. Council is seeking an extension to the expiry date of the interim controls, as a section 20(4) to the **Planning and Environment Act 1987** amendment, to ensure the controls are kept in place while Amendment C145 to the Casey Planning Scheme is being finalised.

You may inspect the Amendment, any documents that support the Amendment and the explanatory report about the Amendment, free of charge, at the following locations: during office hours, at the office of the planning authority, City of Casey, Customer Service Centre, Municipal Offices, Magid Drive, Narre Warren; City of Casey, Customer Service Centre, Shop 8 (Bendigo Bank building), Amberly Park Shopping Centre, 101 Seebeck Drive, Narre Warren South; City of Casey, Customer Service Centre, Cranbourne Park Shopping Centre (opposite Post Office), Cranbourne; and at the Department of Planning and Community Development website, [www.dpcd.vic.gov.au/planning/publicinspection](http://www.dpcd.vic.gov.au/planning/publicinspection)

Any person who may be affected by the Amendment may make a submission to the planning authority.

The closing date for submissions is 17 June 2011. A submission must be sent to the Planning Scheme Amendment Coordinator, City of Casey, PO Box 1000, Narre Warren, Victoria 3805.

Planning Permit Application D/243/2011

The Darebin City Council has prepared Amendment C111 to the Darebin Planning Scheme at the request of Glossop Town Planning on behalf of Builtmore Pty Ltd.

An application for Planning Permit D/243/2011 has also been lodged by Glossop Town Planning on behalf of Builtmore Pty Ltd.

In accordance with section 8A(3) of the **Planning and Environment Act 1987**, the Minister for Planning authorised the Darebin City Council as planning authority to prepare the combined Amendment and Planning Permit.

The Amendment and application for Planning Permit affects land at 99 Helen Street, Northcote, including units 1–9.

The Amendment proposes to rezone the land at 99 Helen Street, Northcote, from the Industrial 3 Zone to the Business 2 Zone.

The application for Planning Permit is for the use of the land for nine (9) dwellings, associated buildings and works, and a reduction in car parking requirements associated with this use.

You may inspect the Amendment, the explanatory report about the Amendment, the application, and any documents that support the Amendment and the application, including the proposed permit, free of charge, at the following Darebin City Council location: Preston Customer Service Centre, 274 Gower Street, Preston.

The Amendment can also be viewed free of charge online at the Department of Planning and Community Development website at [www.dpcd.vic.gov.au/planning/publicinspection](http://www.dpcd.vic.gov.au/planning/publicinspection); and the Darebin City Council website at [www.darebin.vic.gov.au](http://www.darebin.vic.gov.au)

Any person who may be affected by the Amendment may make a submission to the planning authority.

The closing date for submissions is 20 June 2011.

A submission must be sent to the Darebin City Council, Strategic Planning Department, Submission to Amendment C111, PO Box 91, Preston, Victoria 3072.

#### EXEMPTION

##### Application No. A57/2011

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 83 of the **Equal Opportunity Act 1995** (the Act) by Monash University (the applicant). The application for exemption is to enable the applicant to advertise for and appoint only a person of Aboriginal or Torres Strait Islander descent to the position of Head of Harvest Alliance School for Indigenous Health and grant the title Chair of Indigenous Health (the exempt conduct). In these Orders Aboriginal and Torres Strait Islander people are referred to as Indigenous people.

Upon reading the material filed in support of this application, including the affidavit of Steven Lodewijk Wesselingh, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 13, 14, 100 and 195 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- The applicant is a public university established under the **Monash University Act 2009** (the Monash Act). One of the purposes of the applicant referred to in the Monash Act is to use its expertise and resources to involve Indigenous people in its teaching, learning, research and advancement of knowledge activities so as to contribute to Indigenous people realising their aspirations and safeguarding Indigenous culture.
- The applicant has 10 teaching facilities, including the Faculty of Medicine Nursing and Health Science (Medical Faculty). The Medical Faculty delivers training in all health sciences including medicine, nursing, radiography and medical imaging, nutrition and dietetics, paramedic studies, social work, behavioural neurosciences, occupational therapy, physiotherapy and biomedical sciences.
- The Medical Faculty currently has 33 Indigenous students and it actively seeks to attract and retain Indigenous students. While the existing programs have assisted in increasing the numbers of Indigenous students in the Medical Faculty, the applicant determined that an opportunity to increase the success of the existing programs was through the establishment of a School for Indigenous Health. That School has been established as a result of a generous donation from the Harvest Alliance Foundation.

- The Harvest Alliance School for Indigenous Health (the School) has been established to contribute to transformational change in the health of Indigenous people by a rapid increase in the number of qualified Indigenous health professionals and non-Indigenous health professionals with the skills required to deliver services to Indigenous people. In so doing the School will contribute to improving the educational outcomes of the enrolled students and also to the health of Indigenous people who will receive health services from members of their community with knowledge and skill in delivering those services in a culturally appropriate manner. The School will improve the current very poor rates of representation of Indigenous people in the health professions. It also hopes to assist in addressing the overrepresentation of Indigenous people in the population who experience poor health outcomes. Indigenous health will be integrated through all aspects of the Medical Faculty and its curriculum.
- A Head of School leads each school within the Medical Faculty. This is an academic position occupied by a senior academic holding an appointment at the level of associate professor or professor. The Head is responsible for the strategic, academic and administrative leadership, vision and excellence for the school. The applicant wishes the School to be headed by an Indigenous person for a number of reasons including so as to: establish the credibility of the school with Indigenous people; attract Indigenous staff to teaching, research and support positions within the School to provide culturally aware and safe learning environments for the students; ensure that teaching curriculum is appropriately adapted to the needs of the students; deliver research and training programs that are adapted to the needs of Indigenous people; and to successfully engage with local Indigenous communities. By appointing an Indigenous person as Head of the School, the office holder will provide an important example to Indigenous and non-Indigenous students and staff alike that there are competent Indigenous health professionals who can lead the Indigenous community and also, importantly, the wider community. The Head of the School will be granted the title of Chair of Indigenous Health.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (the Charter). Arguably, this exemption limits the right to equal and effective protection against discrimination of non-Indigenous persons who would wish to be employed as the Head of the School. I am satisfied that the exemption is a measure taken for the purpose of assisting or advancing Indigenous people who are disadvantaged and so it does not amount to discrimination under the Charter. In any event, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 13, 14, 100 and 195 of the **Equal Opportunity Act 1995** to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 18 May 2014.

BUSHFIRE NEIGHBOURHOOD SAFER PLACES

CFA  
ASSESSMENT GUIDELINE

DECEMBER 2010

NEIGHBOURHOOD SAFER PLACES  
PLACES OF LAST RESORT

### INTRODUCTION

**Neighbourhood Safer Place** means a place that may, as a last resort, provide shelter for people from the immediate life threatening effects of a bushfire.

They are an area or premises that may provide some sanctuary from direct flame contact and radiant heat. It is envisioned it would be an existing space or structure, such as an oval or a building, that may protect a person against fire.

This assessment guideline articulates the process by which qualified/experienced CFA Officers assess the suitability of Neighbourhood Safer Places and is not intended for use by the general public.

### BACKGROUND

Reducing the impact of bushfires is a shared responsibility between government, emergency service organisations and the community. The community has an integral role to take the necessary steps to prepare their property and to implement their bushfire survival plan.

This document sets out criteria for CFA's assessment of Neighbourhood Safer Places. The criteria provide a framework to assist Municipal Councils to identify Neighbourhood Safer Places to provide a place of last resort for people to gather during the passage of a bushfire front. The primary purpose of a Neighbourhood Safer Place is the protection of human life from a bushfire.

The 2009 Victorian Bushfires Royal Commission (VBRC) Final Report stated that the people who left their homes sheltered in a variety of locations, for example, other houses or buildings; bunkers, reserves and ovals; pubs; in-ground swimming pools, cars and dams. Some people reported that these were pre-planned alternatives and, in some cases, helped people survive. However, the VBRC also heard examples of people dying in very similar locations, which serve to highlight that, these locations do not guarantee safety (VBRC Final Report Vol 2: pg 19).

The VBRC also stated that 'many people did not have a well-thought-out plan and were left to make their own decisions without the benefit of assistance from the authorities [and] for these people, the lack of alternatives, the provision of shelters, refuges or evacuation, became critical as a fallback option' (VBRC Final Report Summary: pg 5). They also 'considered that a revised bushfire safety policy should provide information about places in which to shelter and support for individuals in identifying such places' (VBRC Final Report Vol 2: pg 21). Neighbourhood Safer Places continue to be a part of the shelter options for community members.

### CONCEPT

A Neighbourhood Safer Place is a space that:

- is a place of last resort for individuals to access and shelter in during the passage of fire through their neighbourhood – without the need to take a high risk journey beyond their neighbourhood;
- provides a level of protection from the immediate life threatening effects of a bushfire (direct flame contact and radiant heat); and
- is intended to provide relative safety;
- but does not guarantee the survival of those who assemble there; and
- should only be accessed when personal bushfire survival plans cannot be implemented or have failed.

Neighbourhood Safer Places should be recorded in Township Protection Plans. However, not all townships will have Neighbourhood Safer Places identified in these Plans as they may not meet specific criteria identified in this document and within a council's Municipal Neighbourhood Safer Places Plan. Some towns may not have the fire risk profile to indicate a need for a Neighbourhood Safer Place.

Neighbourhood Safer Places are not to be confused with Fire Refuges<sup>1</sup>, Relief Centres, Recovery Centres, Assembly Areas, or Informal Places of Shelter, each of which have a different and specific purpose.

### LIMITATIONS

Neighbourhood Safer Places have a number of limitations, being:

- limited capacity;
- no guarantee of safety;
- they do not cater for animals;
- emergency services will not necessarily be present;
- they do not provide meals or amenities;
- they may not cater for particular special needs (e.g. infants, elderly, ill or disabled);
- they may not provide shelter from the elements, particularly flying embers; and
- there are risks to people during access, shelter during passage of the fire front and egress from Neighbourhood Safer Places.

### CFA Neighbourhood Safer Places Assessment Criteria

Neighbourhood Safer Places should provide protection to people from lethal levels of radiant heat through an appropriate separation distance between fire hazards, particularly vegetation, and the site of the Neighbourhood Safer Place. Isolated flammable elements may occur within the separation space so long as such elements do not add to a fire's rate of spread nor significantly contribute to the radiant heat impacting on the Neighbourhood Safer Place.

Fire industry collaboration established criteria to determine the suitability of any site as a Neighbourhood Safer Place. The critical criteria decided upon was radiant heat load with maximum allowable radiant heat loads agreed upon for sites that are open spaces and those that are buildings. It was further agreed that each Neighbourhood Safer Place needs to be assessed on its merits, with radiant heat load calculated using the NSW Rural Fire Service Site Bush Fire Attack Assessment Methodology (Douglas and Tan, 2005) as the assessment tool in these guidelines.

### Radiant Heat and Setback Measurements

To provide initial direction to CFA staff and others in assessing the suitability of potential Neighbourhood Safer Places, the following guidance is provided:

Neighbourhood Safer Places must meet the following criteria for radiant heat load:

- 1 If a Neighbourhood Safer Place is an open space the maximum potential radiant heat impacting on the site must be no more than 2kw/m<sup>2</sup>.
- 2 If a Neighbourhood Safer Place is a building, the maximum potential radiant heat impacting on the building must be no more than 10kw/m<sup>2</sup>.

By way of example, Neighbourhood Safer Places adjoining extreme fuel hazards, this equates to a separation distance from the fire hazard of:

- greater than 310 metres from the outer edge of the NSP for an open space; and
- greater than 140 metres from the outer edge of a building to the fire hazard.

It is acknowledged that for NSPs abutting less than extreme fuel hazards this separation distance may be reduced so long as the criteria for maximum radiant heat impact are met.

### Additional Management for Neighbourhood Safer Places in Grassland Areas

Grasslands have a distinct place in the Neighbourhood Safer Places framework, due to:

- the potential for rapid growth in conditions of adequate warmth and moisture; and
- the requirement under section 50J of the CFA Act for councils to review their NSPs by 31 August each year.

<sup>1</sup> Fire refuges have been described in the OESC Fire Refuges in Victoria – Policy and Practice (2005). However, these guidelines are currently undergoing a review with the OESC and because the issues associated with fire refuges are being considered separately, they will not be considered further in this document.

Councils may identify a suitable Neighbourhood Safer Place site in a grassland area that can only meet the assessment criteria with active management of the site over the fire danger period, with treatments including slashing, mowing or grazing.

In these circumstances CFA may certify the site as meeting the assessment criteria provided that appropriate, specified and prescribed treatments are in place throughout the fire danger period. This must include prescriptions for management of the grassland secured by agreed terms entered into by the landholder. The landholder may be the council, a public authority, an agency or a private person.

The identified treatment of the grassland must be included within the MFPP or MFMP (whichever is relevant). Council has the role of facilitation and, if required, enforcement of the treatment(s) during the fire danger period. Fire Prevention Notices would not ordinarily be an appropriate method for achievement of management prescriptions in NSPs. Their use would only be an option of last resort that councils may use where a private landholder has reneged on their agreed conditions and the grassland condition constitutes or may constitute a danger to life or property from the threat of fire.

NEIGHBOURHOOD SAFER PLACES –  
Places of Last Resort  
CFA ASSESSMENT CRITERIA REPORT

Neighbourhood Safer Place Site Name and Address:

The site is assessed as:

- a)  Meeting the CFA assessment criteria on the day of assessment; or
- b)  Not meeting the CFA assessment criteria on the day of assessment; or
- c)  Meeting the assessment criteria provided that prescriptions of management of the grassland over the fire danger period are secured by agreed terms entered into by the landholder (see below).

**Criteria**

1) Setback distances and Radiant Heat Measures

Neighbourhood Safer Places should provide protection to people from lethal levels of radiant heat by providing an appropriate separation distance between fire hazards, particularly vegetation and the site of the Neighbourhood Safer Place.

If a Neighbourhood Safer Place is an open space, the appropriate separation distance should be greater than 310 metres from the outer edge of the NSP to the fire hazard, or should be prescribed to ensure a maximum potential heat impacting on the site of no more than 2kw/m<sup>2</sup>.

If a Neighbourhood Safer Place is a building, the appropriate separation distance greater than 140 metres from the outer edge of the building to the fire hazard or should be prescribed to ensure that the maximum potential heat impacting on the building is no more than 10kw/m<sup>2</sup>.

	North Aspect	East Aspect	South Aspect	West Aspect
Setback distance (m)				
Radiant Heat (kw/m <sup>2</sup> )				

2) The following is only to be completed if grassland areas require further and specified management over the fire danger period

Recommendation	Y/N
There must be prescriptions for management of the grassland over the fire danger period, secured by agreed terms entered into by the landholder.	
The identified treatment of the grassland be included within the MFPP or MFMP (whichever is relevant) and is the responsibility of Council to facilitate and if required enforce the treatment during the fire danger period.	
Treatments and Prescriptions:	(FSOs – Recommend the most appropriate treatments and prescriptions at the time of assessment). E.g. Slashing, Grazing or Mowing to inner zone conditions for WMO for xx metres.

**LATE NOTICES**

## EXEMPTION

Application No. A79/2011

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 83 of the **Equal Opportunity Act 1995** (the Act) by Moreland City Council (the Council) for exemption from sections 13, 14, 42, 100 and 195 of that Act. The application for exemption is to enable the applicant to engage in the specified conduct.

In this exemption 'specified conduct' means any of the following –

- To operate single gender sessions at the Council's Aquatic and Leisure Facilities and in particular at Fawkner Leisure Centre, at Coburg Leisure Centre and the Brunswick Baths.
- To provide those sessions during and outside normal opening hours and in areas that can be closed off to the general public if required.
- To advertise those sessions.
- To advertise for and employ female only or male only staff as required to operate the single gender sessions.

Upon reading the material submitted in support of the application, including the affidavit of Tony Oulton and upon hearing from Ms Rowena Frost on behalf of the Council, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 13, 14, 42, 100 and 195 of the Act to engage in the specified conduct.

In granting the exemption the Tribunal noted:

- The multicultural nature of the population of Moreland City Council.
- The Council's policy and strategic direction which recognises the provision of facilities to meet a diverse range of needs.
- That the exemption application was advertised at each of the centres and the Tribunal received no submissions objecting to the exemption.
- That the granting of the exemption will enable greater community engagement, healthier lifestyles and an opportunity to educate and increase awareness about water safety.

The Tribunal hereby grants an exemption to the Applicant from the operation of sections 13, 14, 42, 100 and 195 of the Act to enable the applicant to engage in the specified conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 19 May 2014.
