EXEMPTION

Application No. A112/2011

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 83 of the **Equal Opportunity Act 1995** (the Act) by The Black Arm Band Inc. (the applicant). The application for exemption is to enable the applicant to advertise for and employ only Indigenous persons as members of the Board of Management of the applicant organisation (the exempt conduct).

Upon reading the material filed in support of this application, including the affidavit of Melanie Daina Rice, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 13, 14, 100 and 195 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- The applicant is an incorporated not for profit organisation established to perform, develop, promote and celebrate contemporary Australian Indigenous music.
- A previous exemption has been granted to the applicant in relation to the employment of Indigenous persons in the roles of General Manager and Community Liaison Coordinator (A312/2010). In that exemption it was noted that the applicant has received funding from the Australia Council for the Arts for projects that support Indigenous personnel in key positions. Such funded projects need to demonstrate clear evidence of Indigenous control, participation and support.
- Funding has been allocated by the Australia Council's Aboriginal and Torres Strait Islander Arts Board (ATSIB) on condition that the applicant has a wholly Indigenous Board. The applicant sought a waiver of that condition from ATSIB and it was refused. Accordingly, ATSIB's funding to the applicant will only proceed if all Board members are Indigenous.
- In these circumstances and taking into account the applicant's mission and activities, it is appropriate that the Board members be Indigenous.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equal and effective protection against discrimination of non-Indigenous persons who would wish to be engaged as a Board member. I am satisfied that the exemption is a measure taken for the purpose of assisting or advancing Indigenous people who are disadvantaged and so it does not amount to discrimination under the Charter. In any event, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 13, 14, 100 and 195 of the **Equal Opportunity Act 1995** to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 25 May 2014.

Health Services Act 1988
HEALTH PURCHASING VICTORIA
Purchasing Policy (Section 134)
Notice of Making a Purchasing Policy

Overview

On 21 August 2008 Health Purchasing Victoria ('HPV') issued a purchasing policy in relation to its tendering activities in accordance with section 134 of the **Health Services Act 1988** (Vic.) ('the August 2008 Purchasing Policy').

Pursuant to section 134 of the **Health Services Act 1988** (Vic.), HPV, having proposed to revoke the August 2008 Purchasing Policy and make a new purchasing policy, and having considered the comments received, now makes a purchasing policy (to be styled 'Principal Purchasing Policy') to govern the future tendering activities of HPV pursuant to the terms of that policy attached to and forming part of this notice.

For the avoidance of doubt, nothing in this policy affects the contracts which were entered into in accordance with the August 2008 Purchasing Policy, or any other earlier dated purchasing policy made by HPV. Those contracts continue to have legal force in accordance with their respective terms.

The Principal Purchasing Policy becomes effective from the date of publication in the Government Gazette.

In accordance with section 134B of the Act, HPV invites comments or submissions from hospitals, health services and any other person or organisation that may consider themselves affected by the making of this policy in relation to this proposed policy. Submissions should be in writing and returned to HPV no later than 5 pm Friday 10 June 2011. Submissions should be addressed to the Compliance Officer, Health Purchasing Victoria, 261–271 Wattletree Road, Malvern, Victoria 3144.

Category:	Governance	Ref No.:	HPV005
Responsibility for Review:	Board	Revision:	001
Date Approved:	April 2011	Review Date:	April 2013

PURPOSE

Pursuant to section 134 **Health Services Act 1988** (Vic.) ('the Act') this policy is made to establish an effective operational and delivery strategy for HPV's forward Prospective Tender Schedule and Confirmed Annual Tender Program. It is designated as 'Principal' in order to differentiate it from other Purchasing Policies which may be developed from time to time. When gazetted it replaces earlier dated general Purchasing Policies, but in no way affects the efficacy of any contracts entered pursuant to those previous policies.

This policy becomes effective from the date of publication in the Government Gazette.

POLICY**1. Terms**

In this policy –

- 1.1. the definitions contained in the Act apply to this policy
- 1.2. 'supplier' means a person or body supplying goods or services under a contract entered pursuant to this policy
- 1.3. 'hospitals and health services' means those hospitals and health services bound by this policy
- 1.4. 'procurement arrangement' means the tendered request for delivery of goods and/or services and the contractual identification of the terms of that arrangement pursuant to this policy.

2. Application

- 2.1 This policy applies to all public hospitals listed in Schedule 1, and to all public health services listed in Schedule 5 of the Act, unless:
- specifically exempted in accordance with the Act or otherwise pursuant to this policy
 - it is determined that pursuant to the procurement arrangements for specific purposes it is appropriate to secure those arrangements by limiting application to certain hospitals or health services only.
- 2.2 HPV may apply this policy to facilitate collaborative procurement arrangements in conjunction with certain public hospitals and public health services.
- 2.3 Additionally, where the policy allows other health or related entities by agreement to take advantage of HPV contracts entered, such entities may be required to be bound by the policy terms.

3. Policy Requirements

- 3.1 Hospitals and health services where so nominated in a procurement arrangement are required to:
- 3.1.1 abide by the results of the tenders which HPV (or its appointed agent) calls in accordance with this policy and the terms of any resulting contracts entered by HPV.
- 3.1.2 only purchase goods and/or services which are the subject of HPV contracts awarded pursuant to the policy to supply those goods and services.
- 3.1.3 assist HPV in identifying potential tendering opportunities, including working with HPV to collect procurement data to assist that identification process, and developing the tender program.
- 3.1.4 provide input into the development of business cases as requested.
- 3.1.5 nominate participants in consultative and advisory groups, including product reference groups, that will contribute towards:
- 3.1.5.1 the development of tender specifications;
- 3.1.5.2 the evaluation of bid responses and/or other negotiations with suppliers.
- 3.1.6 report compliance with this policy and periodic contract and associated details as requested by HPV.
- 3.1.7 where mutually agreed, act as HPV agent in its own right, or as a contractor in that behalf for HPV, in the conduct of tenders and contract in circumstances and on terms which secure adequate risk management protection for HPV and that agent (such appointment only to be made if mutually acceptable).
- 3.1.8 consider and report whether planned procurement activities are advantaged through HPV involvement and the potential for further value for other HPV clients.
- 3.1.9 refrain from proposing or entering into an agreement, arrangement or understanding which is inconsistent with this Policy or which has or may have the effect of subverting the prescribed legislative powers and/or functions of HPV or all or part of this Policy.

4. Prospective Tender Schedule

- 4.1 HPV will in consultation with stakeholders develop a schedule of prospective tender requirements covering at least three years, which will include:
- 4.1.1 'Greenfield' tendering activity; and
- 4.1.2 Replacement or renewed tenders the intention of which is to supplant (and perhaps expand upon) existing contracts.
- 4.2 The prospective tender schedule may be amended by HPV from year to year to reflect the developing needs of the public health system.

5. Confirmed Annual Tender Program

- 5.1 HPV will publish a finalised prospective tender schedule at least annually, but having regard to the needs of both stakeholders and the market, such publishing may occur more often as may be desirable or necessary at the discretion of HPV. The published schedule for the next year following will be then known as the 'Confirmed Annual Tender Program' (CATP).
- 5.2 The CATP may be amended by HPV (after consultation with hospitals and health services), provided that adequate notice of the proposed amendment is given. The amendments may include:
 - 5.2.1 the addition of other tender(s), including any tenders which may be required by government to fulfill a particular need, but which are not subject to consultation or notice as above;
 - 5.2.2 the deferment of a scheduled tender to a subsequent year; and/or
 - 5.2.3 the removal of a scheduled tender.
- 5.3 At the date of publication of the CATP for a relevant period hospitals and health services may only enter into a new contract or renew any current contract with suppliers for goods or services which are the subject of the CATP (as may be amended in accordance with subclause 5.2), where there is a contractual capacity to terminate forthwith any such contract when a relevant HPV contract for the same deliverables is entered.
- 5.4 For the avoidance of doubt, the obligation in subclause 5.3 does not apply to goods or services which have been removed from the CATP, from the time of that removal.

6. Exemption from Policy Requirements

- 6.1 Application of this policy in respect of certain matters may be suspended from time to time relative to a hospital or health service to the extent detailed in Parts A to D, of this clause, provided that the hospital or health service seeking exemption complies with any requirements of those provisions and is granted appropriate exemption. Such hospitals and health services as may be granted exemption are required to comply with this policy in all other respects.
- 6.2 HPV will in exercising its discretion pursuant to this clause concerning an application for exemption have regard to the factors referred to in section 133 of the Act.
- 6.3 Should a hospital or health service be denied exemption, or any exemption having been granted is no longer applicable to the circumstances of the hospital or health service, or it is necessary to vary an exemption, the policy will from that date be applied in accordance with any varied exemption or otherwise in full.

A. Existing Contracts

Consideration will be given to an application for exemption where the relevant details are provided to HPV by the Chief Executive Officer of a hospital or health service concerning:

- the extent that a hospital or health service has a current contract in force in respect of the supply of particular goods and/or services at the time notification occurs that those goods and/or services are part of a Confirmed Annual Tender Program in accordance with clause 5 of this policy; or
- an HPV contract entered in accordance with a previous direction or purchasing policy issued by HPV; or
- an HPV contract entered outside the Confirmed Annual Tender Program in circumstances where on behalf of various stakeholders HPV is requested to act to represent their special interests and HPV does so in the exercise of its discretion accordingly, noting that if a health service is not part of the stakeholder group, then no exemption application is required.

Any HPV contract let in accordance with a previous direction or purchasing policy will continue to be subject to the conditions of the said direction or purchasing policy.

B. Exemption Criteria

If at any time no less than 5 days prior to the release of a tender, or within a reasonable period after the HPV has determined to enter a contract with a supplier (but in any event prior to the contract commencement date), and regarding particular goods or services covered in the relevant Confirmed Annual Tender Program, the Chief Executive Officer of a hospital or health service –

- notifies HPV in writing that exemption is sought from participation in the particular tender or contract, as the case may be (either in whole or part) on:
 - clinical or operational grounds (as defined herein); or
 - the effect of the tender and proposed contract with regard to potential impact on the viability of small or medium sized businesses or local employment growth or retention, and
- HPV considers in its absolute discretion that the reasons advanced support a grant of exemption, and determines accordingly:

Then that hospital or health service in relation to that tender or contract as the case may be, and those goods or services for which the hospital or health service seeks exemption may accordingly be exempted from the application of the policy

Notwithstanding the requirements of this Part B Exemption Criteria, HPV may in the exercise of its absolute discretion at any time grant exemption to a hospital or health service where it is reasonably established special circumstances exist to justify exemption, with or without condition. In making this decision HPV will have regard to the matters specified in section 133 of the Act.

C. Exemption Protocol

Accompanying the notice seeking exemption shall be a statement of the reasons, including reasonable evidence of any tender, standing offer, contract or other arrangement the hospital or health service may have under consideration relating to such goods or services in lieu of the proposed HPV tender or contract, or otherwise any reasons effectively preventing it at law from so doing.

In assessing the reasons provided in support of exemption HPV may ask for supporting documentation or other identifying material which it believes is required to assist the making of a decision, and the hospital or health service shall comply to the best of its ability.

A hospital or health service having sought and received exemption from a specific tender or contract is permitted to be included in that tender prior to its release or the contract, as the case may be, at the absolute discretion of HPV and is conditional upon the hospital or health service supplying HPV with data or other material regarding its current arrangements (if any) in relation to the procurement of the good or service (including data about volume and price of those goods or services).

HPV shall endeavor to consider and determine the issues contained in a notice seeking exemption as soon as possible prior to formally sanctioning any withdrawal.

Hospitals and health services must maintain absolute confidentiality of draft tender specifications, and may not discuss the same or any related detail with any party not representing the same interests as HPV without the express written consent of HPV.

D. Definition of ‘Clinical or Operational Grounds’

For the purposes of this policy ‘clinical or operational grounds’ establishes the continuing reasons why an exemption from participation and/or purchase or use of a particular good or service by a hospital or health service (other than in accordance with this policy) is necessary to ensure –

- that patients of the hospital or health service will receive clinically appropriate treatment or care; or
- the effective administration of the hospital or health service.

In establishing clinical or operational grounds it is not sufficient to rely upon the fact that a particular good or service has been traditionally used at the hospital or health

service in the past or is preferred by employees of, or contractors to, the hospital or health service. Objectively verifiable reasons are necessary as to why the use of that particular good or service is required in the future or why a new or re-entered contract is preferred which does not align with the Policy requirements.

For example, a specialist service provided at the health service or hospital may necessitate the use of a unique product that is not available under the relevant tender, or operational reasons may dictate a need to enter into or renew a contract prior to the commencement of an HPV tender and the term of that contract may not be negotiable.

7. Compliance Reports

The Chief Executive of a hospital or health service is required to report at least annually to HPV in relation to compliance by their organisation with this policy. A report shall be in a format and include such details as HPV may require in order to meet its legislative obligations.

8. Assignment of Contract Rights/Novation

8.1 HPV may, at its absolute discretion, assign right of access to contracts entered by HPV pursuant to this policy, or an earlier purchasing policy or direction, in favour of a registered funded agency (as defined).

Such agencies may include (but are not necessarily limited to):

- multipurpose services;
- denominational public hospitals;
- privately run public hospitals;
- ambulance services;
- bush nursing hospitals;
- not-for-profit nursing homes; and/or
- other entities who receive program funding from the Department of Health.

8.2 Additionally, where a 'health or related service' (as defined) may seek contract access as above, and HPV determines in its absolute discretion that benefit would accrue to that agency in delivery of services directed to public health, such health or related service may be granted access on such terms and conditions as are appropriate and as may be mutually agreed, including but not limited to the requirement to relinquish other external purchasing arrangements or agreements for any items or services included in those HPV contracts in respect of which access may be sought. The onus of providing evidence of that benefit as may be required by HPV remains with the health or related service seeking access.

9. Supply, Logistic or Procurement Services

9.1 Where the deliverables pursuant to an existing or new HPV contract are, or may be intended for supply, *in specie*, for logistic purposes or pursuant to corporate group procurement policy, to another separately identifiable entity referred to in clause 8 which is a member of the same corporate group structure, the public hospital or health service shall identify that outcome to HPV. The prior approval of HPV for contract access, either upon the introduction or continuance of such arrangements shall be required pursuant to clause 8.

9.2 Approval by HPV to arrangements by public hospitals or health services for supply, logistic or procurement which may occur in relation to non health entities may be provided, where those arrangements are local and are not pursued with a view to profit and where a community or related benefit is established. The introduction or continuance of such arrangements, if approved, may be subject to conditions.
