Erratum Correction to Advertisement Dated 21 April 2011

Road Discontinuances

Pursuant to sections 207D and 223 and schedule 10, clause 3 of the **Local Government Act 1989** (the Act), the Moorabool Shire Council has formed the opinion that the roads shown hatched on the plan below, and known as Pearce Street, Gaynor Street, Typpyng Street and two unnamed laneways marked as roads, are not reasonably required as roads for public use and resolved to discontinue the roads.

A section 223 process has been completed by Council in accordance with the Act in regard to the road discontinuances.

## SWAN HILL PLANNING SCHEME

## Notice of Preparation of Amendment

## Amendment C41

## Authorisation A01954

VicRoads has prepared Amendment C41 to the Swan Hill Planning Scheme to define the location for a replacement Murray River Bridge crossing at Swan Hill.

The Amendment applies to land on the alignment of the proposed future replacement Murray River bridge crossing between the west bank of the Murray River (the State border with New South Wales) and Curlewis Street (Murray Valley Highway) in Swan Hill.

In accordance with section 9(1) of the **Planning and Environment Act 1987**, the Minister for Planning authorised VicRoads to prepare the Amendment. In accordance with section 9(4) of the **Planning and Environment Act 1987**, VicRoads is the planning authority for this Amendment.

The Amendment proposes to:

- add map 38PAO to the Swan Hill Planning Scheme;
- amend the locations of Heritage Overlays HO138, HO148 and HO149, which are incorrectly plotted on the planning scheme maps;
- apply a Public Acquisition Overlay (PAO3) to identify and reserve land for acquisition by VicRoads for the Swan Hill Bridge project;
- amend the Schedule to Clause 42.01 so that it allows the development of land and the removal, destruction or lopping of any vegetation to the minimum extent necessary for the construction of the Swan Hill Bridge project and associated works;
- amend the Schedule to Clause 43.02 so that it allows the development of land to the minimum extent necessary for the construction of the Swan Hill Bridge project and associated works;
- amend the schedule to Clause 45.01 to introduce the Public Acquisition Overlay (PAO3) with VicRoads as the acquisition authority;
- amend the Schedule to Clause 52.17 so that it allows the removal, destruction or lopping of native vegetation, to the minimum extent necessary for the construction by VicRoads of the Swan Hill Bridge project and associated works; and
- amend the schedule to Clause 61.03 to update the list of maps forming part of the Planning Scheme.

You may inspect the Amendment, any documents that support the Amendment and the explanatory report about the Amendment, free of charge, at the following locations: during office hours, at Swan Hill Rural City Council Office, 45 Splatt Street, Swan Hill; Shire of Wakool Office, Tualka Terrace, Moulamein; VicRoads Northern Regional Office, 57 Lansell Street, Bendigo; Roads and Traffic Authority South West Regional Office, 1 Simmons Street, Wagga Wagga; or at the Department of Planning and Community Development website [www.dpcd.vic.gov.au/planning/publicinspection](http://www.dpcd.vic.gov.au/planning/publicinspection)

Any person who may be affected by the Amendment may make a submission to the planning authority. Please note that submissions may be made available to any person as part of the planning process.

The closing date for submissions is 27 July 2011. All submissions must be sent to: Manager Planning Investigations, VicRoads, Level 1, 3 Prospect Hill Road, Camberwell, Victoria 3124.

An information session has been scheduled to enable anyone to gain further information on the proposed future Murray River bridge crossing at Swan Hill, planning scheme amendment documentation and the planning process. VicRoads' staff will be available at this session to answer questions from interested parties.

The information session will be held on 24 June 2011, from 10.00 am to 5.00 pm at the Swan Hill Town Hall, corner of McCallum and Beveridge Streets, Swan Hill (VicRoads Country Directory Map 586, H4).

#### Panel Hearing

If a submission seeks to change the Amendment and this change is not accepted by the planning authority, then all submissions will be referred to an independent Panel appointed by the Minister for Planning under Part 8 of the **Planning and Environment Act 1987**.

It is anticipated that a Directions Hearing will be held in the week commencing 29 August 2011 and a Panel Hearing in the week commencing 3 October 2011 at the Swan Hill Town Hall.

#### EXEMPTION

Application No. A64/2011

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 83 of the **Equal Opportunity Act 1995** (the Act) by the Victorian Aboriginal Education Association Inc (the applicant). The application for exemption is to enable the applicant to advertise for and employ only Aboriginal or Torres Strait Islander people within the applicant organisation (the exempt conduct).

Upon reading the material filed in support of this application, including the affidavit of Kylie Kinsela, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 13, 14, 100 and 195 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- The applicant was established in 1976 under another name. It is a community based and controlled organisation with the major aim of developing processes for the involvement of the Victorian Aboriginal and Torres Strait Islander community in decision-making regarding education and training provision for Aboriginal and Torres Strait Islander students. A wholistic view of students' needs is taken. The applicant calls for the provision of services which incorporate all sectors of the education system. The applicant also recognises the influence of social and economic issues on the individual. The applicant works closely with

health, social justice, housing, wellbeing and employment services. It also advocates for the Aboriginal and Torres Islander community on a range of issues.

- The applicant is expanding and anticipates that in the next three years it may wish to recruit up to 20 employees. The applicant seeks the exemption to ensure that those staff who interact directly with the Aboriginal and Torres Strait Islander community share that background so as to maximise effectiveness and demonstrate leadership. The applicant notes that Aboriginal and Torres Strait Islander people experience higher rates of unemployment and lower levels of labour force participation than the wider community. The 2006 Census showed that the unemployment rate for Aboriginal and Torres Strait Islander across Australia is more than three times the national rate. Only 7% of Aboriginal and Torres Strait Islander people have a university qualification as compared to about 23% of the wider community. For these reasons, the applicant wishes to use entry level positions to provide opportunities for employment for this disadvantaged group. Other positions within the applicant will be considered on a case-by-case basis taking into account whether there is direct contact with Aboriginal and Torres Strait Islander people and the qualification requirements.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equal and effective protection against discrimination of non-Aboriginal and Torres Strait Islander persons who would wish to be employed by the applicant. I am satisfied that the exemption is a measure taken for the purpose of assisting or advancing Aboriginal and Torres Strait people who are disadvantaged and so it does not amount to discrimination under the Charter. In any event, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 13, 14, 100 and 195 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 15 June 2014.

#### EXEMPTION

Application No. A135/2011

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 83 of the **Equal Opportunity Act 1995** (the Act) by Metro Trains Melbourne (the applicant). The application for exemption is to enable the applicant to target advertising and recruitment material for train drivers at women in order to attract more female applicants for those roles (the exempt conduct).

Upon reading the material filed in support of this application, including the affidavit of Peter Kellaway, the Tribunal is satisfied that it is appropriate to grant an exemption from section 195 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- The applicant says that currently women represent only 15.85% of the total workforce and only 3% of train drivers. As part of the applicant's overall effort to increase the number of women in its workforce to 50%, targeting the role of train drivers is seen as critical. Accordingly, it wishes to design its train driver advertising and recruitment methodology to provide a focus on women.
- The applicant has not sought an exemption to allow it to only employ women or otherwise give preference to women in relation to a specific number of train driver or other roles. Rather it seeks an exemption to allow it to target women in its advertising and recruitment so as to increase the number of women in the broader pool of job applicants. There is no suggestion that men will be excluded from the advertising

and recruitment material or be in any way limited as to their capacity to apply for train driver or other roles.

- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equal and effective protection against discrimination of men who may wish to receive information about train driver roles. I am satisfied that, given the limited nature of the exemption sought, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of section 195 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 15 June 2014.

#### EXEMPTION

Application No. A140/2011

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 83 of the **Equal Opportunity Act 1995** (the Act) by Women's Health and Wellbeing Barwon South West (the applicant). The application for exemption is to enable the applicant to:

- advertise for and employ only women in all roles within the applicant organisation;
- restrict membership of the applicant organisation to women and, where membership is sought by an organisation, to require that any representative of that organisation attending a meeting of the applicant be a woman; and
- provide services only for women. (together, the exempt conduct).

Upon reading the material filed in support of this application, including the affidavit of Kirsten Green, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 13, 42, 59, 60, 100 and 195 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- The applicant is funded by the Victorian Government to prevent illness, disease and injury of women in the Barwon South West region. The applicant's Statement of Purposes says that its role is to maintain a regional and rural women's health organisation that treats women with dignity and respect, is community-based and run by women for women. In addition its aims include: actively involving and consulting with women to ensure the development of approaches which reflect the needs, priorities and aspirations of women in the region; to work to improve women's health and well-being through participation, collaboration, capacity building and partnerships with women, the community, women's services and other organisations; to increase the health literacy of women; to advocate and support systemic change to improve women's health and wellbeing; and to lead, collaborate in and support research into matters affecting women's health.
- The applicant believes that, consistent with its funding, these purposes are best achieved if the applicant organisation is staffed only by women, has only women involved in its governance and offers services only to women.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equal and effective protection against discrimination of men who would wish to be employed or otherwise involved with the applicant or receive services from the applicant. I am satisfied that, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 13, 42, 59, 60, 100 and 195 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 15 June 2014.

#### EXEMPTION

Application No. A141/2011

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 83 of the **Equal Opportunity Act 1995** (the Act) by Women with Disabilities Victoria (the applicant). The application for exemption is to enable the applicant to:

- employ only women with disabilities to work for the applicant;
- restrict full membership of the applicant to women with disabilities only;
- restrict associate individual membership of the applicant to women only and to require associate corporate members to be represented at meetings of the applicant by women only; and
- advertise these matters (together, the exempt conduct).

Upon reading the material filed in support of this application, including the affidavit of Keran Howe, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 13, 42, 59, 60 100 and 195 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- The applicant was formerly known as the Victorian Women with Disabilities Network and was granted an exemption in 2008 to engage in the above exempt conduct (A182/2008). That exemption expires on 1 July 2011. Although the name of the applicant organisation has changed, its purposes and activities and its reasons for seeking this exemption remain the same except in one respect. That is, while previously the

applicant employed staff for its advocacy information service in conjunction with Women's Health Victoria, since 1 July 2009 it has had sole responsibility for employing workers for that service.

- The applicant is a charitable organisation run by women with disabilities to advance and benefit all Victorian women with disabilities. It seeks to empower women with disabilities through information, mentoring and also advocates for women with disabilities on a range of issues. Further, the applicant seeks to provide opportunities for leadership and skills development by women with disabilities to women with disabilities. This positive affirmation assists in addressing the exclusion and marginalisation of women with disabilities from the broader community. The applicant offers opportunities for women with disabilities to participate in public life.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equal and effective protection against discrimination of men who would wish to be employed by or otherwise involved with the applicant. I am satisfied that in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 13, 42, 59, 60 100 and 195 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to commence on 2 July 2011 and remain in force for three years, that is until 1 July 2014.

#### EXEMPTION

Application No. A143/2011

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 83 of the **Equal Opportunity Act 1995** (the Act) by Melbourne Health (the applicant). The application for exemption is to enable the applicant to advertise for and employ only an Aboriginal or Torres Strait Islander person in the role of Aboriginal Health and Development and Liaison Officer (the exempt conduct).

Upon reading the material filed in support of this application, including the affidavit of Julia Blackshaw, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 13, 100 and 195 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- A previous exemption was granted to the applicant for this position and that exemption expired on 1 March 2011 (A64/2008). The applicant seeks a further exemption to replace the incumbent while on maternity leave.
- The matters considered in the previous exemption application remain relevant. Importantly, the exemption is required in order to ensure health services are provided in a culturally sensitive manner to Aboriginal or Torres Strait Islander patients and their families when accessing the services of the applicant. The employment of an Aboriginal or Torres Strait Islander person in this role gives the role credibility amongst the Aboriginal and Torres Strait Islander community. They will have specific skills and knowledge to be more effective in the development of policy and delivery of services to Aboriginal or Torres Strait Islander people.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equal and effective protection against discrimination of non-Aboriginal and Torres Strait Islander persons who would wish to be employed in the Aboriginal Health and Development and Liaison Officer role. I am satisfied that the exemption is a measure taken for the purpose of assisting or advancing Aboriginal and Torres Strait Islander people who are disadvantaged and so it does not amount to discrimination under the Charter. In any event, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 13, 100 and 195 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 15 June 2014.

# National Vendor Declaration (Cattle) and Waybill

**Edition: April 2011**

The signatory to an LPA National Vendor Declaration (NVD) acknowledges that the use of the NVD is subject to the LPA Program rules and standards and confirms that the use of the NVD and the livestock described there-in meet all requirements of those rules and standards. The rules and standards are contained in the LPA Program Manual. The information in the Manual, as updated from time to time, can be viewed at [www.mla.com.au/lpa](http://www.mla.com.au/lpa)

Parts A and B of this travel document meet the legal requirements for a waybill under Queensland Stock Act 1915, Section 22, and WA Stock (Identification and Movement) Act 1970, Section 46; transported stock statement as approved under NSW Rural Lands Protection Act 1998 Section 140J; and permit to travel stock under ACT Stock Act 1991, Section 33

## ALL PARTS OF THE NVD WAYBILL MUST BE COMPLETED

If you make a mistake, keep the copy and use a new NVD form.

The top sheet (white) goes with the livestock to the purchaser.

The middle sheet (green) goes with the carrier.

Keep the bottom sheet (pink) for auditing purposes.

For consignments that require more lines to describe the stock, use the Attachment to National Vendor Declaration and Waybill form - available from [www.mla.com.au/lpa](http://www.mla.com.au/lpa) and select the link: Attachment to the NVD/Waybill

**EXPLANATORY NOTES – NATIONAL VENDOR DECLARATION (CATTLE) AND WAYBILL**

**Background**  
The LPA, National Vendor Declaration (LPA, NVD) is part of the Cattle Industry's commitment to food safety and product integrity.

Waybills are required when Cattle (and other stock) are moved in the Australian Capital Territory (ACT), Northern Territory (NT), New South Wales (NSW), Queensland (QLD), Western Australia (WA), and Tasmania (TAS). Only this combined LPA NVD/Waybill need be completed in these States/Territories when Cattle are being moved. The completion of Part B of this combined LPA NVD/Waybill is optional in those States where waybills are not required. The Northern Territory (NT) only accepts an NT waybill as its mandatory movement document; it does not accept the LPA NVD/Waybill.

Standalone waybills will continue to be available from relevant regulatory authorities, and their use is preferable if only a waybill is required.

Producers must provide a copy of this document for all Cattle they move to another property or offer for sale or slaughter, and to request a correctly completed copy or post sale summary when buying Cattle.

**General**  
Answer all items accurately. Any false, misleading or unverified statements may result in prosecution and/or civil action. If you rely on the document to verify future claims about purchased stock, then the stock should be identifiable against their accompanying document.

The cost of any residue testing required or undertaken in response to information given on the document is a commercial matter between the vendor and buyer (except where industry funds such testing).

- **Top sheet:** (White) goes with the cattle to the purchaser.
- **Middle sheet:** (Green) goes to the carrier.
- **Bottom sheet:** (Pink) stays in the book and should be kept for auditing purposes.

**PART A**  
Part A is only to be completed by the owner of the Cattle or person responsible for the husbandry of the Cattle.

**Address and PIC (Property Identification Code) of property/Place where the journey commenced**

This LPA NVD can only be used when the cattle are being moved from the property to which the pre-printed PIC is assigned. If the stock are being moved from a different property (e.g. agistment), you should obtain an LPA NVD from the owner of the property.

If the cattle were walked to yards on another property exclusively for the purpose of loading at the commencement of this journey, do not record the PIC of the property on which the cattle were loaded.

A new LPA Cattle NVD/Waybill must be completed if the cattle have been purchased and/or moved to a new property, and then despatched to a salabard, abattoir or other destination.

**Description of Cattle**  
For consignments that require more lines to describe the stock, go to the website [www.mia.com.au/faq](http://www.mia.com.au/faq) and select the link Attachment to the NVD/Waybill.  
Ensure that the total number of Cattle being sold is put in the "Total" box.

**Consigned to / Destination (if different)**  
Include in "Consigned to" the name of the person and/or company the cattle are being consigned to, including full location address of person and/or company e.g. Mr Smith ABC Stock Agents, Town, and State.

Include in "Destination (if different)" the full location address of the destination of the cattle if they are not being sent to the location address of who the cattle are being consigned to e.g. ABC Salabards, Town, State.

**NLS devices**  
Where cattle carry National Livestock Identification System (NLS) approved Breeder or Post-breeder devices, record the number of identified animals and device type(s) in the spaces provided.

Under State/Territory law, NLS Breeder and Post-breeder devices must not be removed until cattle are processed in an abattoir or knacker. Cattle only need one NLS device. Never attach a second NLS device to the right (off-side) ear.

**Hormonal Growth Promotant (HGP) Status (Question 1)** (if you DON'T KNOW, you must tick YES)

Only declare cattle HGP free if: (a) they were bred on your property and you know they have never been treated with HGPs or; (b) you have evidence showing that these particular cattle have never in their lives been treated with HGPs. Acceptable evidence includes an agent's post-sale summary identifying the seller and endorsed with the words "HGP free" or a signed statement or LPA NVD from the previous owner declaring the cattle to be "HGP free". Otherwise, you must declare the cattle as HGP treated.

Use a separate document for the "HGP free" cattle.  
**Animal Fate (Question 2)** (if you DON'T KNOW, you must tick YES)

Whilst State law prohibits feeding of most animal materials to ruminants, products such as animal fats (examples include tallow) are not prohibited. However, some overseas customers for various reasons also require that beef and offal they receive be sourced from cattle that have never in their lives been fed animal fat such as tallow, which may be included in supplementary feed materials. If you answer NO to this question, ensure that you have all LPA NVDs for introduced cattle to substantiate this claim.

**Ownership (Question 3)** (if you DON'T KNOW, you must tick NO)  
When sending in stock in one lot that are both vendor bred and non vendor bred, you must either tick "No" and

answer the subsequent question on how long they have been owned for or use a separate document for the vendor bred stock and the non vendor bred stock.

**By-product stockfeed (Question 4)** (if you DON'T KNOW, you must tick YES)

Includes any plant material not produced primarily for livestock consumption, such as waste fruit, vegetables and fibre crops including peel, pulp, pressings, stem and leaf material. It does not include grain and grain by-products, cotton seed, oilseed meals, taller or molasses).

**Extended Residue Program (ERP) status and grazing restrictions (Question 5)** (if you DON'T KNOW, you must tick YES)

Answer "yes" if, in the past 6 months:  
■ The cattle have been on a property that currently has a "T" status, other than "T5, allocated by a state/territory authority under the NORM program. (Note: Properties with a C (clear), R, M or T5 classification do not have an ERP status for the purposes of this question); OR

■ The cattle have been under restrictions, such as quarantine or detention, by a state/territory authority due to chemical residues that exceeded the maximum residue limit (MRL) for agent chemicals or the maximum level (ML) for contaminants such as lead or cadmium.

Attach any relevant analysts report or letter of clearance from state authority to the original and all copies of the declaration.

**Veterinary drugs and chemicals (Question 6)** (if you DON'T KNOW, you must tick YES)

Veterinary drugs include chemicals administered orally, by injection or to the skin such as antibiotics, vaccines, worm and externally applied insecticides but exclude vitamin and mineral treatments.  
Export Slaughter Intervals (ESIs) and Withholding Periods (WHPs) for commonly used vet chemicals that are registered for use in Cattle are listed in the table in this booklet. ESIs are the period following treatment when Cattle are unsuitable for export processing. ESIs are industry standards to ensure export requirements are met. WHPs are the period following treatment when Cattle are unsuitable for processing for consumption in Australia.

Updated ESI information is available at [www.dahms.gov.au/ESI](http://www.dahms.gov.au/ESI)  
**Agri-cultural chemicals (Question 7)** (if you DON'T KNOW, you must tick YES)

This question is important to ensure that cattle do not have unacceptable residues after consuming conventional stockfeeds, such as pasture, crop, stubble, grain or a prepared stockfeed, previously treated with agricultural chemicals. If the answer is "Yes" record all requested details in the space provided. If the cattle have consumed purchased feeds within 60 days prior to sale the vendor should answer "Yes" to this question unless they hold SAFEMATE endorsed vendor declarations for that feed and those declarations confirm that all required WHPs have been met and/or that the feed complies with all requirements relating to chemical residues through a QA testing program. If any of the cattle

consumed pasture, stubbles or failed crops previously treated with a chemical that had no grazing/ fodder (WHP on the label the question should be answered "yes" and details provided.

**Spray Drift (Question 8)** (if you DON'T KNOW, you must tick YES)

A spray drift risk area can exist for up to 30 weeks after any application. For endosulfan it includes all grazing land and all fodder and forage crops that at the time of application were within 750m downwind of a site treated by aerial application and 200m downwind of a site treated by ground rig. Answer yes to this question if livestock have grazed in that area following endosulfan application or for other pesticides in any downwind mandatory no-spray zone for protection of international trade specific on the pesticide product label.

**Additional Information (Question 9)**  
List any required attached documents, and attach copies of the documents to the original and all copies of the declaration. Examples of documents that could be attached include a list of by-product stockfeeds and date when last fed, analysts' reports of residue tests done on by-product stockfeeds (Question 3), or biopsy testing of cattle (Questions 4, 5, 6, and 7), letters from State authorities detailing the residue status of the cattle, details of treatments within the withholding period or Export Slaughter Interval (Question 5).

Use this section to provide other information on chemical use, animal health status, or commercial matters that are not covered specifically on the form including specific market eligibility.

**Declaration**  
Signing this declaration has legal significance. Regulatory authorities may take legal action, and purchasers may seek damages if any information in part A is incorrect. Before signing you must be absolutely satisfied you understand all elements of the document, and those explanatory notes.

**Restricted Animal Material** includes any tissue, blood or other material taken from an animal and any meals derived from animals. Examples are meat and bone meals, blood meal, fish meal, feather meal etc. It does not include tallow, gelatine or milk products. Contact your State Agriculture or Primary Industries Department for more details on these feeding restrictions.

**PART B**  
The carrier (or driver where applicable) must complete this part and sign it. When more than one truck is carrying the cattle all vehicle registration numbers are to be recorded. If there is insufficient space to record all the vehicle registration numbers an additional document must be attached to the original and all copies. Some state regulatory authorities will require a copy of the LPA NVD/Waybill to travel with each individual vehicle. If any information is incorrect regulatory authorities may take legal action. Completion of this part is optional within South Australia and Victoria. This NVD/Waybill is valid for one journey only, e.g. from vendor's property to salabard. A separate waybill must be completed for any subsequent journey, e.g. from salabard to buyer's property.

# European Union Vendor Declaration (Cattle) and Waybill

**Edition: April 2011**

The signatory to an LPA National Vendor Declaration (NVD) acknowledges that the use of the NVD is subject to the LPA Program rules and standards and confirms that the use of the NVD and the livestock described there-in meet all requirements of those rules and standards. The rules and standards are contained in the LPA Program Manual. The information in the Manual, as updated from time to time, can be viewed at

EXPLANATORY NOTES – EUROPEAN UNION VENDOR DECLARATION (CATTLE) AND WAYBILL

Background

The European Union Cattle Accreditation Scheme (EUCCAS) operates under the Export Control Act 1982. The LPA, European Union Vendor Declaration (Cattle) and Waybill replaces the third edition of the European Union Vendor Declaration. Waybills are required when cattle (and other stock) are moved in the Australian Capital Territory (ACT), Northern Territory (NT), New South Wales (NSW), Queensland (QLD), Western Australia (WA) and Tasmania (TAS). Only the LPA, NVD/Waybill need be completed in these States/Territories when cattle are being moved. The completion of Part B of this combined LPA, NVD/Waybill is optional in those States where waybills are not required. The Northern Territory (NT) only accepts an NT waybill as its mandatory movement document; it does not accept the LPA, NVD/Waybill.

A copy of this form must be used for all cattle consigned from one EU accredited facility to another EU accredited facility. EU accredited facility means farms, feedlots, saleyards and abattoirs that are accredited or licensed under the Export Control Act 1982 to handle EU eligible cattle. Where cattle are sent from an EU accredited facility to a non-EU accredited facility, the LPA, NVD/Waybill must be used. Cattle must be individually identified with an AQIS approved NUS endorsed Breeder or Post-breeder device (ear tag with a microchip, or human bolus with a microchip and linked ear tag). This form does not list all the rules of the European Union Cattle Accreditation Scheme. The rules are on [www.ahis.gov.au](http://www.ahis.gov.au)

**General**  
Answer all items accurately. Any false, misleading or unverified statements may result in prosecution and/or civil action. If you rely on the document to verify future claims about purchased stock, then the stock should be identifiable against their accompanying document.

The cost of any residue testing required or undertaken in response to information given on the document is a commercial matter between the vendor and buyer (except where industry funds such testing).

The document is in triplicate.

- **Top sheet:** (White) goes with the cattle to the purchaser.
- **Middle sheet:** (Green) goes to the carrier.
- **Bottom sheet:** (Pink) stays in the book and should be kept for auditing purposes.

**PART A**

Part A is only to be completed by the accredited manager/owner of the property of the cattle. The "accredited manager" as defined under the EUCCAS rules can also include a person who is responsible for the husbandry of cattle and is authorised by the accredited manager to sign the LPA, EU NVD

**Address and PIC (Property Identification Code) of property/place where the journey commenced**

This LPA, NVD can only be used when the stock are being moved from the property to which the pre-printed PIC is assigned. If the cattle are being moved from a different property (e.g. agistment), you should obtain an LPA, NVD from the owner of the property. If the cattle were walked to another property exclusively for the purpose of loading at the commencement

of this journey, do not record the PIC of the property on which the cattle were loaded.

**A new LPA, EU NVD/Waybill must be completed if the cattle have been purchased and/or moved to a new property, and then despatched to a saleyard, abattoir or other destination.**

**Description of Cattle**

For consignments that require more lines to describe the stock, go to the website [www.mia.com.au/lpa](http://www.mia.com.au/lpa) and select the link Attachment to the NVD/Waybill

Ensure that the total number of EU Cattle being sold is put in the "Total" box.

**Consigned to / Destination (if different)**

company, the cattle are being consigned to including full location address of person and/or company e.g. Mr Smith ABC Stock Agents, Town, and State.

Includes in "Destination (if different)" the full location address of the destination of the cattle if they are not being sent to the location address of who the cattle are being consigned to e.g. ABC Saleyards, Town, State.

**NUS devices**

Where cattle carry National Livestock Identification System (NUS) approved Breeder or Post-breeder devices, record the number of identified animals and device type(s) in the spaces provided.

Under State/Territory law, NUS Breeder and Post-breeder devices must not be used on cattle until they are properly attached a second NUS device if a NUS device is already present.

**Details of other statutory documents**

Other documents relating to this movement e.g. permit, animal health certificate, animal health statement, including additional sheets of descriptions of cattle. The words "Attachment to NVD/Waybill serial number..." must be on every additional document with the serial number recorded. Additional document (s) must be attached to the original and both copies.

**Animal Fats (Question 3)**

If you don't know you must tick YES. Whilst State law prohibits feeding of most animal materials to ruminants, products such as animal fats (examples include tallow) are not prohibited. However, some overseas customers for various reasons also require that boar and/or pig fat be sourced from cattle that have never been included in primary feed materials. If you answer NO to this question, ensure that you have all LPA, NVDs for introduced cattle to substantiate this claim.

**Ownership (Question 2)**

If you DON'T KNOW you must tick NO. When sending in stock in one lot that are both vendor bred and non vendor bred, you must either tick "No" and answer the subsequent question on how long they have been owned for or use a separate document for the vendor bred stock and the non vendor bred stock.

**By-product stockfeed (Question 3)**

If you DON'T KNOW, you must tick YES. Includes any plant material not produced primarily for livestock consumption, such as waste fruit, vegetables and

fibres crops including peel, pulp, presings, stem and leaf material. It does not include grain and grain by-products, cotton seed, sliced meals, tallow or molasses).

**(ERP) status and grazing restrictions (Question 4)** If you DON'T KNOW, you must tick YES

**Answer "Yes" if, in the past, 6 months:**

- The cattle have been on a property that currently has a "T" status, other than "T5", allocated by a state/territory authority under the NRM program. (Note: Properties with a "C" (Cattle), "R" (R) or "B" (B) status do not have an ERP status.)
- The cattle have been placed under restrictions, such as quarantine or isolation, by a state/territory authority due to chemical residues that exceeded the maximum residue limit (MRL) for agent chemicals or the maximum level (ML) for contaminants such as lead or cadmium.

Attach any relevant analysis report or letter of clearance from state authority to the original and all copies of the declaration.

**Veterinary drugs and chemicals (Question 5)**

If you DON'T KNOW, you must tick YES. Veterinary drugs include chemicals administered orally, by injection or to the skin such as antibiotics, vaccines, worm and externally applied insecticides but exclude vitamin and mineral treatments.

Export Slaughter Intervals (ESI) and Withholding Periods (WHPs) for commonly used vat chemicals that are registered for use in Cattle are listed in the table in this booklet. ESIs are the period following treatment when Cattle are unsuitable for export processing. ESIs are industry standards to ensure export requirements are met. WHPs are the period following treatment when Cattle are unsuitable for processing for consumption in Australia.

**Updated ESI information is available at:**

[www.dahia.com.au/ESI](http://www.dahia.com.au/ESI)

**Agricultural chemicals (Question 6)**

If you DON'T KNOW, you must tick YES. This question is important to ensure that cattle do not have unacceptable residues after consuming conventional premixes, such as pasture, crop, stubble, grain, cultural chemicals. If the answer is "yes" record all requested details in the space provided.

If the cattle have consumed purchased feeds within 60 days prior to sale the vendor should answer "yes" to this question unless they hold SAFEFEED endorsed vendor declarations for that feed and those declarations confirm that all required WHPs have been met and/or that the feed complies with all requirements relating to chemical residues through a QA testing program.

If any of the cattle consumed pasture, stubbles or filled crops previously treated with a chemical that had no grazing/ fodder WHP on the label the question should be answered "yes" and details provided.

**Spray drift (Question 7)**

If you DON'T KNOW, you must tick YES. A spray drift risk area can exist for up to 30 weeks after any application. For endosulfan it includes all grazing land and all fodder and forage crops that at the time of application were within 750m downwind of a site treated by aerial application and 200m downwind of a site treated by ground

application. If livestock have grazed in that area following endosulfan application or for other pesticides in any downwind mandatory no-spray zone for protection of international trade specified on the pesticide product label.

**Additional information (Question 8)**

List any required attachment documents, and attach copies of the documents to the original and all copies of the declaration. Examples of documents that could be attached include a list of by-product, stockfeeds and date when last fed, analysis reports of residue tests done on by-product, stockfeeds (Question 3), or biopsy/testing of cattle (Questions 4, 5, 6 and 7) taken from State authorities obtaining the residue status of the cattle, or Slaughter Intervals (Question 5). Use this section to provide other information on chemical use, animal health status, or commercial matters that are not covered specifically on the form including specific market eligibility.

**Declaration**

Signing the declaration has legal significance. Regulatory authorities may take legal action, and purchasers may seek damages if any information in part A is incorrect. Before signing you must be absolutely satisfied you understand all elements of the document, and these explanatory notes.

**Restricted Animal Material**

Restricted Animal Material includes any tissue, blood or other material taken from an animal and any meals derived from animals. Examples are meat and bone meals, blood meal, fish meal, feather meal etc. It does not include tallow, gelatine or milk products. Contact your State Agriculture or Primary Industries Department for more details on these feeding restrictions.

**PART B**

The carrier (or driver where applicable) must complete this part and sign it. When more than one truck is carrying the cattle all vehicle registration numbers are to be recorded. If there is insufficient space to record all the vehicle registration numbers an additional document must be attached to the original and all copies. Some state regulatory authorities will require a copy of the LPA, NVD/Waybill to travel with each individual vehicle. If any information is incorrect regulatory authorities may take legal action. Completion of this part is optional within South Australia and Victoria. This LPA, NVD/Waybill is valid for one

journey only, e.g. from vendor's property to saleyard. A separate waybill must be completed for any subsequent journey, e.g. from saleyard to buyer's property.

**PART C**

Cattle moving to accredited properties & EU abattoirs must be accompanied by a photocopy of the original LPA, EU NVD to prove the number of cattle travelling in the consignment and signed by the selling agent.

- (a) the original LPA, EU NVD must be kept on file by the agent;
- (b) it is not acceptable to fax LPA, EU NVD to the recipient of the Scheme consignment. The copy of the LPA, EU NVD must travel with the consignment; and
- (c) agents may attach a post-sale summary or stock agents invoice and a list of the RFID/NUS number of the cattle purchased.

# National Vendor Declaration (Sheep and Lambs) and Waybill

Edition: April 2011

The signatory to an LPA National Vendor Declaration (NVD) acknowledges that the use of the NVD is subject to the LPA Program rules and standards and confirms that the use of the NVD and the livestock described therein meet all requirements of those rules and standards. The rules and standards are contained in the LPA Program Manual. The information in the Manual, as updated from time to time, can be viewed at [www.mla.com.au/lpa](http://www.mla.com.au/lpa)

Parts A and B of this travel document meet the legal requirements for a waybill under Queensland Stock Act 1915, Section 22; and WA Stock (Identification and Movement) Act 1970, Section 46; transported stock statement as approved under NSW Rural Lands Protection Act 1998 Section 140J; and permit to travel stock under ACT Stock Act 1991, Section 33

## ALL PARTS OF THE NVD WAYBILL MUST BE COMPLETED

If you make a mistake keep the copy and use a new NVD form.

The top sheet (white) goes with the livestock to the purchaser.

The middle sheet (green) goes with the carrier.

Keep the bottom sheet (pink) for auditing purposes.

For consignments that require more lines to describe the stock, use the Attachment to National Vendor Declaration and Waybill form - available from [www.mla.com.au/lpa](http://www.mla.com.au/lpa) and select the link: Attachment to the NVD/Waybill

**EXPLANATORY NOTES – NATIONAL VENDOR DECLARATION (SHEEP AND LAMBS) AND WAYBILL**

**Background**

The LPA National Vendor Declaration (LPA NVD) is part of the Sheep Industry's commitment to food safety and product integrity.

Waybills are required when Sheep or Lambs (and other stock) are moved in the Australian Capital Territory (ACT), Northern Territory (NT), New South Wales (NSW), Queensland (QLD), Western Australia (WA) and Tasmania (TAS). Only this combined LPA NVD/waybill need be completed in these States/Territories when Sheep or Lambs are being moved. The completion of Part B of this combined LPA NVD/waybill is optional in those States where waybills are not required.

The Northern Territory (NT) only accepts an NT waybill as its mandatory movement document. It does not accept the LPA NVD/Waybill.

Standalone waybills will continue to be available from relevant regulatory authorities, and their use is preferable if only a waybill is required.

Producers must provide a copy of this document for all Sheep or Lambs they move to another property or offer for sale or slaughter, and to request a correctly completed copy or post sale summary when buying Sheep or Lambs.

**General**

Answer all items accurately. Any false, misleading or unverified statements may result in prosecution and/or civil action. If you rely on the document to verify future claims about purchased stock, then the stock should be identifiable against their accompanying document.

The cost of any residue testing required or undertaken in response to information given on the document is a commercial matter between the vendor and buyer (except where industry funds such testing).

The document is in triplicate.

- **Top sheet:** (White) goes with the Sheep or Lambs to the purchaser.
- **Middle sheet:** (Green) goes to the carrier.
- **Bottom sheet:** (Pink) stays in the book and should be kept for auditing purposes.

**PART A**

Part A is only to be completed by the owner of the Sheep or Lambs or person responsible for the husbandry of the Sheep or Lambs.

**Address and PIC (Property Identification Code) of property/ place where the journey commenced**

This LPA NVD can only be used when the stock are being moved from the property to which the pre-printed PIC is assigned. If the stock are being moved from a different

property (e.g. agistment), you should obtain an NVD from the owner of the property or an emergency NVD from a stock agent (if available).

If the Sheep or Lambs were walked to yards on another property exclusively for the purpose of loading at the commencement of this journey, do not record the PIC of the property on which the Sheep or Lambs were loaded.

**A new LPA NVD/waybill must be completed if the Sheep or Lambs have been purchased and/or moved to a new property, and then despatched to a saleyard, abattoir or other destination.**

**Description of Sheep or Lambs**

The identification of Sheep or Lambs creates a clear linkage between the livestock and the information provided on this form. All PICs on tags attached to the sheep/lambs must be listed, especially if the sheep/lambs are not vendor bred, are a mixed mob, or are being moved from a property other than their property of birth. Alternatively, a pink post-breeder tag may be attached to every animal. Ear notching, tattooing or distinctive nose or head radicles may be used for other identification purposes. The application of brands to the body of Sheep or Lambs immediately prior to dispatch is not recommended as such brands may not be completely scorable from sheepskins. For consignments that require

**more lines to describe the stock, go to the website [www.mia.com.au/lpa](http://www.mia.com.au/lpa) and select the link Attachment to the NVD/Waybill.**

**Consigned to / Destination (if different)** Include in "Consigned to" the name of the person and/or company the Sheep or Lambs are being consigned to including full location address of person and/or company e.g. Mr Smith ABC Stock Agents, Town, State.

Include in "Destination (if different)" the full location address of the destination of the Sheep or Lambs if they are not being sent to the location address of who the Sheep or Lambs are being consigned to e.g. ABC Saleyards, Town, State.

**Details of other statutory documents** Other documents relating to this movement e.g. permit, animal health certificate, animal health statement, including additional sheets of descriptions of Sheep or Lambs. The words "Attachment to LPA NVD/Waybill serial number..." must be on every additional document with the serial number recorded. Additional document(s) must be attached to the original and both copies.

**Quality Assurance (QA) program (Question 1)** Include here any independently audited QA program for example Floorcare. Please note LPA level 1 is not a QA program.

**Scabby Mouth Vaccination (Question 2) (if your DONT KNOW, you must tick NO)** Scabby Mouth is a viral disease of Sheep or Lambs causing a short term effect to livestock which generally recover fully in approximately 3 weeks. Life-long immunity to the virus is generally achieved post recovery.

To meet the requirements of some live export sheep and lamb markets immunity to the virus is required. A Scabby Mouth Vaccination at least 14 days prior to presentation for sale is a requirement to qualify.

**Overship (Question 3) (if your DONT KNOW, you must tick NO)** When sending in stock in one lot that are both vendor bred and non vendor bred, you must either tick "No" and answer the subsequent question on how long they have been owned for or use a separate document for the vendor bred stock and the non vendor bred stock.

**Veterinary drugs and chemicals (Question 4) (if your DONT KNOW, you must tick YES)** Veterinary drugs include chemicals administered orally, by injection or to the skin such as antibiotics, vaccines, worm and externally applied insecticides but exclude Vitamin and mineral treatments. Export Slaughter Intervals (ESIs) and Withholding Periods (WHPs) for commonly used vet chemicals that are registered for use in Sheep or Lambs are listed in the table in this booklet. ESIs are the period following treatment when Sheep or Lambs are unsuitable for export processing. ESIs are industry standards to ensure export requirements are met. WHPs are the period following treatment when Sheep or Lambs are unsuitable for processing for consumption in Australia.

Updated ESI information is available at: [www.darwin.gov.au/ESI](http://www.darwin.gov.au/ESI).

**Agricultural chemicals (Question 5) (if your DONT KNOW, you must tick YES)** This question is important to ensure that Sheep or Lambs do not have unacceptable residues after consuming conventional stockfeeds, such as pasture, crop, stubble, grain or a prepared stockfeed, previously treated with agricultural chemicals. If the answer is "Yes" record all requested details in the space provided. If the Sheep or Lambs have consumed purchased feeds within 60 days prior to sale the vendor should answer "Yes" to this question unless they hold SAFEMET endorsed vendor declarations for that feed and those declarations confirm that all required WHPs have been met and/or that the feed complies with all requirements relating to chemical residues through a QA testing program.

If any of the Sheep or Lambs consumed pasture, stubbles or

failed crops previously treated with a chemical that had no grazing/ fodder WHP on the label the question should be answered "Yes" and details provided.

**Additional Information (Question 7)** List any required attached documents, and attach copies of the documents to the original and all copies of the declaration.

**Declaration** Signing this declaration has legal significance. Regulatory authorities may take legal action, and purchasers may seek damages if any information in part A is incorrect. Before signing you must be absolutely satisfied you understand all elements of the document, and these explanatory notes.

**Restricted Animal Material** includes any tissue, blood or other material taken from an animal and any meals derived from animals. Examples are meat and bone meals, blood meal, fish meal, feather meal etc. It does not include tallow, gelatine or milk products. Contact your State Agriculture or Primary Industries Department for more details on these feeding restrictions.

**PART B** The carrier (or driver where applicable) must complete this part and sign it. When more than one truck is carrying the Sheep or Lambs all vehicle registration numbers are to be recorded, if there is insufficient space to record all the vehicle registration numbers an additional document must be attached to the original and all copies. Some state regulatory authorities will require a copy of the LPA NVD/waybill to travel with each individual vehicle. If any information is incorrect regulatory authorities may take legal action. Completion of this part is optional within South Australia and Victoria. This LPA NVD/Waybill is valid for one journey only, e.g. from vendor's property to saleyard. A separate waybill must be completed for any subsequent journey.

e.g. from saleyard to buyer's property

# National Vendor Declaration (Goats) and Waybill

**Edition: April 2011**

The signatory to an LPA National Vendor Declaration (NVD) acknowledges that the use of the NVD is subject to the LPA Program rules and standards and confirms that the use of the NVD and the livestock described there-in meet all requirements of those rules and standards. The rules and standards are contained in the LPA Program Manual. The information in the Manual, as updated from time to time, can be viewed at [www.mla.com.au/lpa](http://www.mla.com.au/lpa)

Parts A and B of this travel document meet the legal requirements for a waybill under Queensland Stock Act 1915, Section 22; and WA Stock (Identification and Movement) Act 1970, Section 46; transported stock statement as approved under NSW Rural Lands Protection Act 1988 Section 140J; and permit to travel stock under ACT Stock Act 1991, Section 33

**EXPLANATORY NOTES – NATIONAL VENDOR DECLARATION (GOATS) AND WAYBILL**

**Background**

The LPA National Vendor Declaration (LPA NVD) is part of the Goat industry's commitment to food safety and product integrity.

Waybills are required when Goats (and other stock) are moved in the Australian Capital Territory (ACT), Northern Territory (NT), New South Wales (NSW), Queensland (QLD), Western Australia (WA) and Tasmania (TAS). Only this combined LPA NVD/waybill need be completed in these States/Territories when Goats are being moved. The completion of Part B of this combined LPA NVD/waybill is optional in those States where waybills are not required. The Northern Territory (NT) only accepts an NT waybill as its mandatory movement document: it does not accept the LPA NVD/Waybill.

Standalone waybills will continue to be available from relevant regulatory authorities, and their use is preferable if only a waybill is required.

Producers must provide a copy of this document for all Goats they move to another property or offer for sale or slaughter, and to request a correctly completed copy or post sale summary when buying Goats.

**General**

Answer all items accurately. Any false, misleading or unverifiable statements may result in prosecution and/or civil action. If you rely on the document to verify future claims about purchased stock, then the stock should be identifiable against their accompanying document.

The cost of any residue testing required or undertaken in response to information given on the document is a commercial matter between the vendor and buyer (except where industry funds such testing).

The document is in triplicate.

- **Top sheet** (White) goes with the Goats to the purchaser.
- **Middle sheet** (Green) goes to the carrier.
- **Bottom sheet** (Pink) stays in the book and should be kept for auditing purposes.

**PART A**

Part A is only to be completed by the owner of the goats or person responsible for the husbandry of the goats. Address and PIC (Property Identification Code) of property/place where the journey commenced

This LPA NVD can only be used when the stock are being moved from the property to which the pre-printed PIC is assigned. If the stock are being moved from a different property (e.g. agistment), you should obtain an NVD from the owner of the property or an emergency NVD from a stock agent. (If available)

A new LPA NVD/waybill must be completed if the Goats have been purchased and/or moved to a new property, and then despatched to a saleyard, abattoir or other destination.

**Description of Goats**

The identification of goats creates a clear linkage between the livestock and the information provided on this form. All PICs on tags attached to the goats must be listed, especially if the goats are not vendor bred, are a mixed mob, or are being moved from a property other than their property of birth. Alternatively, a pink post-breeder tag may be attached to every animal. Ear notching, tattooing or distinctive nose or head needles may be used for other identification purposes. The application of brands to the body of goats immediately prior to dispatch is not recommended as such brands may not be completely scorable. For consignments that require more lines to describe the stock, go to the website [www.mha.com.au/lpa](http://www.mha.com.au/lpa) and select the link Attachment to the NVD/Waybill.

**Consigned to / Destination (if different)**

Include in "Consigned to" the name of the person and/or company the Goats are being consigned to including full location address of person and/or company e.g. Mr Smith ABC Stock Agents, Town, and State.

Include in "Destination (if different)" the full location address of the destination of the Goats if they are not being sent to the location address of who the Goats are being consigned to e.g. ABC Saleyards, Town, State.

**Details of other statutory documents**

Other documents relating to this movement e.g. permit, animal health certificate, animal health statement, including additional sheets of descriptions of Goats. The words "Attachment to LPA NVD/Waybill serial number..." must be on every additional document with the serial number recorded. Additional document (s) must be attached to the original and both copies.

**Ownership (Question 1)** (If you DON'T KNOW, you must tick NO) When sending in stock in one lot that are both vendor bred and non vendor bred, you must either tick "No

and answer the subsequent question on how long they have been owned for or use a separate document for the vendor bred stock and the non vendor bred stock.

**Rangeland conditions (Question 2)** (If you DON'T KNOW, you must tick NO) Rangeland refers to goats which are harvested and have never been confined to a feedlot or subjected to any chemical treatment.

**Veterinary drugs and chemicals (Question 3)** (If you DON'T KNOW, you must tick YES)

Veterinary drugs include chemicals administered orally, by injection or to the skin such as antibiotics, vaccines, worm and externally applied insecticides but exclude vitamin and mineral treatments.

**Do not use products that are not specifically registered for use in goats except in accordance with an APVMA permit or written veterinary directions that include withholding requirements for domestic and export slaughtering.**

Export Slaughter intervals (ESIs) and Withholding Periods (WHIPs) for commonly used vet chemicals that are registered for use in Goats are listed in the table in this booklet. ESIs are the period following treatment when Goats are unsuitable for export processing. ESIs are industry standards to ensure export requirements are met. WHIPs are the period following treatment when Goats are unsuitable for processing for consumption in Australia.

Updated ESI information is available at [www.apvma.gov.au/ESI](http://www.apvma.gov.au/ESI)

**Agricultural chemicals (Question 4)** (If you DON'T KNOW, you must tick YES)

This question is important to ensure that Goats do not have unacceptable residues after consuming conventional stockfeeds, such as pasture, crop, stubble, grain or a prepared stockfeed, previously treated with agricultural chemicals. If the answer is "yes" record all requested details in the space provided. If the Goats have consumed purchased feeds within 60 days prior to sale the vendor should answer "yes" to this question unless they hold SAFEHEAT endorsed vendor declarations for that feed and those declarations confirm that all required WHIPs have been met and/or that the feed complies with all requirements relating to chemical residues through a QA testing program. If any of the Goats consumed pasture, stubbles or failed crops previously treated with a chemical that had no grazing/fooder WHIP on the label the question should be answered "yes" and details provided.

**Animal Fats (Question 5)** (If you DON'T KNOW, you must tick YES) Whilst State law prohibits feeding of most animal materials to ruminants, products such as animal fats (examples include tallow) are not prohibited. However, some overseas customers for various reasons also require that goat meat and offal they receive be sourced from goats that have never in their lives been fed animal fat such as tallow, which may be included in supplementary feed materials. If you answer NO to this question, ensure that you have all LPA NVDs for introduced goats to substantiate this claim.

**Additional Information (Question 6)**

List any required attached documents, and attach copies of the documents to the original and all copies of the declaration.

**Declaration**

Signing this declaration has legal significance. Regulatory authorities may take legal action, and purchasers may seek damages if any information in part A is incorrect. Before signing you must be absolutely satisfied you understand all elements of the document, and these explanatory notes.

**Restricted Animal Material** includes any tissue, blood or other material taken from an animal and any meals derived from animals. Examples are meat and bone meals, blood meal, fish meal, feather meal etc. It does not include tallow, gelatine or milk products. Contact your State Agriculture or Primary Industries Department for more details on these feeding restrictions.

**PART B**

The carrier (or drover where applicable) must complete this part and sign it. When more than one truck is carrying the Goats all vehicle registration numbers are to be recorded. If there is insufficient space to record all the vehicle registration numbers an additional document must be attached to the original and all copies. Some state regulatory authorities will require a copy of the LPA NVD/waybill to travel with each individual vehicle. If any information is incorrect regulatory authorities may take legal action. Completion of this part is optional within South Australia and Victoria. This LPA NVD/Waybill is valid for one journey only, e.g. from vendor's property to saleyard. A separate waybill must be completed for any subsequent journey, e.g. from saleyard to buyer's property

# National Vendor Declaration (Bobby Calves) and Waybill

**Edition: April 2011**

**LIVESTOCK  
PRODUCTION  
ASSURANCE**

The signatory to an LPA National Vendor Declaration (NVD) acknowledges that the use of the NVD is subject to the LPA Program rules and standards and confirms that the use of the NVD and the livestock described there-in meet all requirements of those rules and standards. The rules and standards are contained in the LPA Program Manual. The information in The Manual, as updated from time to time, can be viewed at [www.mla.com.au/lpa](http://www.mla.com.au/lpa)

Parts A and B of this travel document meet the legal requirements for a waybill under Queensland Stock Act 1915, Section 22; and WA Stock (Identification and Movement) Act 1970, Section 46; transported stock statement as approved under NSW Rural Lands Protection Act 1998 Section 140J; and permit to travel stock under ACT Stock Act 1991, Section 33

## **ALL PARTS OF THE NVD WAYBILL MUST BE COMPLETED**

**If you make a mistake keep the copy and use a new NVD form.**

**The top sheet (white) goes with the livestock to the purchaser.**

**The middle sheet (green) goes with the carrier.**

**Keep the bottom sheet (pink) for auditing purposes.**

**For consignments that require more lines to describe the stock, use the Attachment to National Vendor Declaration and Waybill form - available from [www.mla.com.au/lpa](http://www.mla.com.au/lpa) and select the link: Attachment to the NVD/Waybill**

**EXPLANATORY NOTES – BOBBY CALVES – FOR CALVES BETWEEN 5 AND 30 DAYS OF AGE NOT ACCOMPANIED BY THEIR DAM**

**Background**

The LPA National Vendor Declaration (LPA NVD) is part of the cattle industry's commitment to food safety and product integrity.

Waybills are required when Bobby Calves (and other stocks) are moved in the Australian Capital Territory (ACT), Northern Territory (NT), New South Wales (NSW), Queensland (QLD), Western Australia (WA) and Tasmania (TAS). Only this combined LPA NVD/waybill need be completed in these States/Territories when Bobby Calves are being moved. The completion of Part B of this combined LPA NVD/waybill is optional in those States where waybills are not required. The Northern Territory (NT) only accepts an NT waybill as its mandatory movement document; it does not accept the LPA NVD/waybill.

Standalone waybills will continue to be available from relevant regulatory authorities.

Producers must provide a copy of this document for all Bobby Calves they move to another property or offer for sale or slaughter, and to request a correctly completed copy or post sale summary when buying Bobby Calves.

**General**

Answer all items accurately. Any false, misleading or unverified statements may result in prosecution and/or civil action. If you rely on the document to verify future claims about purchased stock, then the stock should be identifiable against their accompanying document.

The cost of any residue testing required or undertaken in response to information given on the document is a commercial matter between the vendor and buyer (except where industry funds such testing).

The document is in triplicate.

- **Top sheet:** (White) goes with the calves to the purchaser.
- **Middle sheet:** (Green) goes to the carrier.
- **Bottom sheet:** (Pink) stays in the book and should be kept for auditing purposes.

**PART A**

Part A is only to be completed by the owner of the Bobby Calves or person responsible for the husbandry of the Bobby Calves

**Address and PIC (Property Identification Code) of property/ place where the journey commenced**

This LPA NVD can only be used when the Bobby calves are being moved from the property to which the printed PIC is assigned. If the stock are being moved from a different property (e.g. adjustment), you should obtain an LPA NVD from the owner of the property or an emergency LPA NVD if available from your stock agent.

If the Bobby Calves were walked to yards on another property exclusively for the purpose of loading at the commencement of this journey, do not record the PIC of the property on which the Bobby Calves were loaded.

A new LPA NVD/waybill must be completed if the Bobby Calves have been purchased and/or moved to a new property, and then despatched to a saleyard, abattoir or other destination.

**Description of Bobby Calves**

For consignments that require more lines to describe the stock, go to the website [www.nvd.com.au/ipa](http://www.nvd.com.au/ipa) and select the link Attachment to the NVD/waybill. Ensure that the total number of Bobby calves being sold is put in the "Total" box.

**Consigned to / Destination (if different)**

Include in "Consigned to" the name of the person and/or company the Bobby Calves are being consigned to including full location address of person and/or company e.g. Mr Smith ABC Stock Agents, Town, and State.

Include in "Destination (if different)" the full location address of the destination of the Bobby Calves if they are not being sent to the location address of who the Bobby Calves are being consigned to e.g. ABC Saleyards, Town, State.

**Details of other statutory documents**

Other documents relating to this movement e.g. permit, animal health certificate, animal health statement, including additional sheets of descriptions of Bobby Calves. The words "Attachment to LPA NVD/waybill serial number..." must be on every additional document with the serial number recorded. Additional document (s) must be attached to the original and both copies.

**Ownership (Question 2) (If you DON'T KNOW, you must tick NO)**

When sending in stock in one lot that are both vendor bred and non vendor bred, you must either tick "No" and answer the subsequent question on how long they have been owned for or use a separate document for the vendor bred stock and the non vendor bred stock

**Stockfeed (Question 3) (If you DON'T KNOW, you must tick YES)**

This question is important to ensure that calves do not have unacceptable residues after consuming conventional stockfeeds, such as pasture, crop stubble, grain or a prepared stockfeed, previously treated with agricultural chemicals. If the answer is "Yes" record all requested details in the space provided.

**Veterinary drugs and chemicals (Question 4) (If you DON'T KNOW, you must tick YES)**

Veterinary drugs include chemicals administered orally, by injection or to the skin such as antibiotics, vaccines, worm and externally applied insecticides but exclude vitamin and mineral treatments. Export Slaughtering Intervals (ESIs) and Withholding Periods (WHPs) for commonly used vet chemicals that are registered for use in Bobby Calves are listed in this booklet. ESIs are the period following treatment when Bobby Calves are unsuitable for export processing. ESIs are industry standards to ensure export requirements are met. WHPs are the period following treatment when Bobby Calves are unsuitable for processing for consumption in Australia.

Updated ESI information is available at [www.donut.com.au/ESI](http://www.donut.com.au/ESI)

**MIK Consumption (Questions 5) (If you DON'T KNOW, you must tick YES)**

Included exposure through access to milk from cows treated or exposed to drugs or chemicals that may be excreted in the milk. Always read the label and observe the withholding period.

**Additional information (Question 6)**

Use this section to provide other information on chemical use, animal health status, or commercial matters that are not covered specifically on the form including specific market eligibility. To declare "Saudi eligible" Bobby Calves must have never in their lives been fed animal protein, or animal fat/salvow, or animal remains, other than those naturally present in milk.

By signing the declaration you are declaring that the calves in a consignment meet standard animal welfare requirements\*. People in possession of, and handling, bobby calves have a responsibility to care for the welfare of bobby calves under their control.

**Restricted Animal Material** includes any tissue, blood or other material taken from an animal and any meals derived from animals. Examples are meat and bone meals, blood meal, fish meal, feather meal etc. It does not include tallow, gelatine or milk products. Contact your State Agriculture or Primary Industries Department for more details on these feeding restrictions.

**PART B**

**PRODUCERS SHOULD ENSURE THAT THE SECTION "DATE AND TIME MOVEMENT COMMENCED" IS COMPLETED**

The carrier (or drover where applicable) must complete this part and sign it. When more than one truck is carrying the Bobby Calves all vehicle registration numbers are to be recorded. If there is insufficient space to record all the vehicle registration numbers an additional document must be attached to the original and all copies. Some state regulatory authorities will require a copy of the LPA NVD/waybill to travel with each individual vehicle. If any information is incorrect regulatory authorities may take legal action. This NVD/waybill is valid for one journey only, e.g. from vendor's property to saleyard. A separate waybill must be completed for any subsequent journey, e.g. from saleyard to buyer's property.
