General Purposes Local Law

The Mornington Peninsula Shire Council, at its meeting held on 24 September 2012, resolved to make the General Purposes Local Law.

Purpose of the Local Law

The purpose of the Local Law is to:

- provide for the peace, order and good government of the Municipal District of the Mornington Peninsula Shire Council;
- promote a physical and social environment in which residents and visitors to the Municipal District can enjoy a quality of life that meets the general expectations of the community;
- prevent and suppress nuisances which may adversely affect the enjoyment of life within the Municipal District or the health, safety and welfare of persons within the Municipal District;
- prohibit, regulate and control activities which may be dangerous or unsafe or detrimental to a person's health, amenity or the environment;
- provide for fair access and use of Council and community assets and prescribe measures to protect those assets; and
- prescribe requirements for the administration and enforcement of the Local Law.

General Purport of the Local Law

The Local Law will achieve its objectives by a number of measures including:

- identifying uses and activities that will require a permit, such as moveable advertising signs, displaying goods for sale and the location of street furniture on the footpath, planting trees and plantations that will interfere with views, placing shipping containers on residential land or land zoned Green Wedge under the Mornington Peninsula Planning Scheme, open air burning on small allotments and keeping animals in excess of the number and type permitted in certain circumstances;
- identifying uses and activities which must comply with conditions or requirements in the Local Law, such as the use of Council land, including libraries, swimming pools, parks and reserves, building sites, waste disposal, controls applying to animals in public places and keeping animals, selling and displaying aerosol spray paint, removal of asbestos up to a prescribed amount from buildings, open air burning on larger allotments, nuisance burning and incinerators and chimneys;
- identifying uses and activities that are prohibited in certain circumstances such as allowing land and buildings to be or become unsightly or dilapidated in comparison

to other land or buildings in the vicinity or allowing land to become dangerous, behaving on Council land or on a road in a way that could harm or injure another person or which interferes with another person's reasonable enjoyment of that land or which could damage Council and community assets;

- applying Council Policies to certain uses and activities such as moveable advertising signs, street furniture, display of goods for sale and maintenance of building sites and incorporating their requirements in the Local Law; and
- providing for the administration and enforcement of the Local Law through a permit system and creating offences for contravention of certain provisions in the Local Law.

A copy of the Local Law may be inspected at any of the Shire's Customer Service Offices during office hours or the Shire's website at www.mornpen.vic.gov.au

DR MICHAEL KENNEDY
Chief Executive Officer

Meetings Procedures and Common Seal
Local Law

The Mornington Peninsula Shire Council, at its meeting held on 24 September 2012, resolved to make the Meetings Procedures and Common Seal Local Law.

Purpose of the Local Law

The purpose of the Local Law is to:

- provide a mechanism to facilitate the good government of the Mornington Peninsula Shire Council through its formal meetings procedure to ensure effective and efficient Council decisions are made in a manner which promotes the effectiveness of Local Government in the Mornington Peninsula community and within the Australian system of Government;
- promote and encourage community leadership by the Mornington Peninsula Shire Council, consistent with the community's views and expectations;

- promote and encourage community participation in Local Government; and
- regulate and govern the:
 - use of Council’s Common Seal;
 - procedure for election of Mayor and any Deputy Mayor; and
 - way in which meetings of the Council, special committees and advisory committees of the Council are conducted.
- protect against behaviour which causes detriment to the amenity and environment of the Municipal District;
- protect the community interest;
- provide for the enforcement of this Local Law, including issue of infringement notices, noting that enforcement of this Local Law would usually be the role of members of the Victoria Police;
- provide generally for the administration of Council’s powers and functions;
- lead and educate the public as to what is, and what is not, appropriate behaviour; and
- provide generally for the peace, order and good government of the Municipal District.

General Purport of the Local Law

The general purport of the Local Law includes:

- prescribing the authorisations required for the use of the Council’s Common Seal, the way in which it can be affixed in a document and its keeping;
- requirements applying to recording Committee meetings and assemblies of Councillors;
- the enforcement and penalty provisions for contravention of the Local Law; and
- incorporating additional requirements relating to the election of the Mayor and Deputy Mayor and the conduct of meetings by applying the Council’s Procedure for the Election of Mayor and Deputy Mayor and the Meetings Procedure Protocol.

A copy of the Local Law may be inspected at any of the Shire’s Customer Service Offices during office hours or the Shire’s website at www.mornpen.vic.gov.au

Consumption of Liquor Local Law

The Mornington Peninsula Shire Council, at its meeting held on 24 September 2012, resolved to make the Consumption of Liquor Local Law.

Purpose of the Local Law

The purpose of the Local Law is to:

- regulate and control the consumption of alcohol in designated areas, and prohibit the possession of alcohol in other areas, within the Municipal District;

Community Local Law

Notice is hereby given that Murrindindi Shire Council ('Council'), at its Ordinary Meeting on 24 September 2012, resolved to make Community Local Law 2012 pursuant to section 119 of the **Local Government Act 1989**.

The purpose of the Community Local Law is to regulate:

- peace, order and good government of the municipality;
- a safe and healthy environment so that the community can enjoy a quality of life that meets its expectations;
- the safe and fair use and enjoyment of public places;
- the protection and enhancement of the amenity and environment of the municipality;
- a fair and reasonable use and enjoyment of private land; and
- a uniform and fair administration of the Local Law.

Consistent with State Government Guidelines, Council has combined its existing local laws (excluding its Governance Local Law) into a new format Community Local Law. This is to make the laws easier to access and follow by the public, and more efficient to administer by the Council.

The general purport of the Community Local Law 2012 is:

- Part 1 – Preliminary matters
- Part 2 – Safety of people and property
- Part 3 – Streets and Roads
- Part 4 – Administration
- Part 5 – Enforcement

The Community Local Law 2012 comes into effect on 24 September 2012.

A copy of the Community Local Law 2012 can be inspected at Council's offices at: 28 Perkins Street, Alexandra; 19 Whittlesea-Kinglake Road, Kinglake; and The Semi Circle, Yea.

Alternatively you can view a copy online at www.murrindindi.vic.gov.au

All enquiries concerning this Community Local Law 2012 should be directed to Matt Parsons, Manager Development and Environmental Services, at the Alexandra Service Centre on (03) 5772 0366.

Proposed Roads and Council Land (Amendment) Local Law No. 4 of 2012

Notice is given that at a meeting of Yarra City Council (Council) held on 4 September 2012, Council proposed to make a local law titled 'Roads and Council Land (Amendment) Local Law No. 4 of 2012' (the Proposed Local Law).

The following information about the Proposed Local Law is provided in accordance with section 119(2) of the **Local Government Act 1989** (the Act):

Purpose of the Proposed Local Law

If made, the purposes of the Proposed Local Law will be to:

- amend the Roads and Council Land Local Law No. 2 of 2012;
- provide for the peace, order and good government of the municipal district of Council;
- promote a physical and social environment free from hazards to health, in which the residents of the municipal district can enjoy a quality of life that meets the general expectations of the community;
- prevent and suppress nuisances which may adversely affect the enjoyment of life within the municipal district or the health, safety and welfare of persons within the municipal district; and
- prohibit, regulate and control activities which may be dangerous or unsafe or detrimental to the quality of life and the environment of the municipal district.

General purport of the Proposed Local Law

If made, the Proposed Local Law will amend the Roads and Council Land Local Law No. 2 of 2012 and:

- create offences relating to:
 - the occupation of a road, footway or Council Land for certain filming purposes or the placement of filming equipment thereon in association with such filming;
 - the occupation of a road, footway or Council Land in connection with specified works-related activities; and
 - the carrying out of building work on any land without an Asset Protection Permit;
- provide for the administration and enforcement of the Local Law and empower Authorised Officers to issue Notices to Comply and impound things; and
- provide for specified penalties to appear on certain infringement notices.

Copies of the Proposed Local Law may be inspected at the Council office at 333 Bridge Road, Richmond, during office hours, and on Council's website at www.yarracity.vic.gov.au/local-laws

Any person may make a written submission relating to the Proposed Local Law. Submitters should note that all submissions are made available to the public in full (including any personal information). All submissions received by Council by Friday 9 November 2012 will be considered in accordance with section 223 of the Act. Any person making a submission is entitled to be heard in support of the submission before Council (either personally or by a person acting on his or her behalf).

Submissions should be marked 'Submission on Proposed Local Law No. 4' and sent to Yarra City Council, PO Box 168, Richmond, Victoria 3121, or emailed to info@yarracity.vic.gov.au

Council is expected to consider making a local law in the form of the Proposed Local Law at its Ordinary Meeting on 4 December 2012.

All submitters will be advised of the date, time and venue for that meeting once details are finalised.

CAMPASPE PLANNING SCHEME

Notice of Preparation of Amendment

Amendment C86

Authorisation A02215

The Campaspe Shire Council has prepared Amendment C86 to the Campaspe Planning Scheme.

In accordance with section 8A(3) of the **Planning and Environment Act 1987**, the Minister for Planning authorised the Campaspe Shire Council as planning authority to prepare the Amendment.

The Amendment applies to all land in the municipality and particularly to land within and adjoining the townships of Echuca, Kyabram and Rochester. Specifically, the Amendment applies to land in the 'Echuca West' area and land to the south-east of the Echuca township, known as the 'Echuca South East Industrial and Commercial Growth Corridor'. The Amendment also applies to land at the northern and western entrances to Kyabram and to the northern entrance to Rochester. The Amendment implements a number of recently adopted strategic reports.

The Amendment proposes to:

- make changes to Clause 21.02, key influences;
- make extensive changes to Clause 21.04, objectives, strategies and implementation;
- make changes to Clause 21.05, reference documents;
- amend Clause 21.04-4 with new Town Structure Plans to reflect the Echuca Housing Strategy 2011 and the Echuca South East Industrial and Commercial Growth Corridor Land Strategy 2011;
- add a new local policy at Clause 22.07;
- add the Environment Significance Overlay Schedule 2 (ESO2);
- add the Development Plan Overlay Schedule 9 (DPO9);
- amend the Design and Development Overlay Schedule 3 (DDO3);
- add the Design and Development Overlay Schedules 8, 9, 10 and 11 (DDO8, DDO9, DDO10, and DDO11);
- amend the schedule to Clause 52.01;

- amend the schedule to Clause 61.03; and
- amend the schedule to Clause 66.04.

You may inspect the Amendment, any documents that support the Amendment and the explanatory report about the Amendment, free of charge, at the following locations: during office hours, at the office of the planning authority, Shire of Campaspe offices, corner Heygarth and Hare Streets, Echuca; at the Rochester Service Centre, MacKay Street, Rochester; at the Kyabram Service Centre, Lake Road, Kyabram; and at the Department of Planning and Community Development website, www.dpcd.vic.gov.au/planning/publicinspection

Any person who may be affected by the Amendment may make a submission to the planning authority. The closing date for submissions is 5 November 2012. A submission must be sent to James McNulty, Strategic Land Use Planner, at the Shire of Campaspe, PO Box 35, Echuca 3564.

EXEMPTION

Application No. A143/2012

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 89 of the **Equal Opportunity Act 2010** (the Act) by SPI Electricity Pty Ltd (the applicant). The application for exemption is to enable the applicant to advertise for and employ only women to fill two traineeship positions offered by the applicant (the exempt conduct).

Upon reading the material filed in support of this application, including the affidavits of Norman Peter Drew, Kirsty Charlotte Dougall and Jade Paterson, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 16, 18, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- The applicant is an energy business which manages three Victorian energy networks which include electricity transmission, electricity distribution and gas distribution. As at 2 July 2012, the applicant employed approximately 428 employees in field positions, of which only seven are female. The applicant offers an Apprentice and Trainee Program (Program) to support the education and training of new employees. As at 2 July 2012, the applicant had 36 trainees in the Program, two of whom are female.
- The applicant has previously attempted to increase the participation of women including through: the facilitation of two Women's Development Programs; a presentation at the AIM Leadership, Learning and Development Forum on Women and Talent; the inclusion of women in corporate and recruitment brochures; the encouragement of female employees to attend career events and represent the applicant workforce; and the creation of internal diversity initiative groups to generate ideas on methods to attract and

retain talented women. In particular, the applicant has arranged for female apprentices or trainees to be involved in industry networking events and careers fairs.

- The applicant wishes to address the historical imbalance in the Program by encouraging higher participation by women. The applicant hopes also to promote a more diverse workforce and greater female participation in field related positions in the future. To that end, the applicant proposes to reserve two traineeship positions for women only. The applicant's intake in the Program in 2013 will total 11 positions.
- The Tribunal made orders requiring that notice of the application be placed on the applicant's website and be given to existing employees and the unions which represent those employees. One anonymous response to the application was received by the applicant from an existing employee. That response said that all positions ought to be filled on merit and with the best candidate. The response noted that the conduct was discriminatory in respect of males and may reduce the quality of the apprentices employed by the applicant. No other responses or submissions were received by the applicant or by the Tribunal. A copy of the application was sent to the Victorian Equal Opportunity and Human Rights Commission (Commission). The Commission did not seek to intervene in the application.
- No exception or current exemption already applies to the exempt conduct and, in the absence of an exemption, the exempt conduct would amount to prohibited discrimination.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equality and in particular the right to equal and effective protection against discrimination of males who would wish to be employed in the two traineeship positions. I am satisfied that, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 16, 18, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 3 October 2017.

EXEMPTION

Application No. A148/2012

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 89 of the **Equal Opportunity Act 2010** (the Act) by Multicultural Centre for Women's Health (the applicant). The application for exemption is to enable the applicant to:

- employ only women of non-English speaking backgrounds in the applicant organisation;
- provide services to women members of the applicant organisation only; and
- advertise these matters

(the exempt conduct).

Upon reading the material filed in support of this application, including the affidavits of Adele Murdolo, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 16, 44, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- The applicant is a women's health service that works primarily with immigrant and refugee women from non-English speaking backgrounds (NESB). In its work with women from many different cultural backgrounds, the applicant aims to match the client's cultural and linguistic background with the background of the worker. This enables communications about specific women's health issues, which may vary depending on cultural context to be effective, accurate and relevant. Research has shown that immigrant and refugee women have poorer health outcomes than Australian-born women. Those women are

less likely to use mainstream health and social/support services and so have lower levels of access to evidence based and culturally relevant information to enable them to make decisions about their health.

- The applicant also conducts advocacy on behalf of NESB immigrant and refugee women in relation to their health needs. In this work, it is important for staff to have a good understanding, based on experience, of some of the central issues such as migration, racism and discrimination in employment or the health care system.
- The majority of the applicant's funding comes from the Victorian Department of Health's Women's Health Program. That program was developed to provide services by women for women and the applicant is specifically funded to provide services to women from immigrant and refugee communities. Further funding comes from the Commonwealth Department of Health to improve the capacity of immigrant and refugee women and their families to make informed choices about family planning and reproductive health.
- The applicant currently has 32 staff, all of whom are women and all but one of whom is from a NESB. Of the total number of staff, 29 are employed in health promotion and/or education roles and they all have ongoing and regular direct contact with clients. The remaining staff have some direct contact with clients. The applicant believes that, given the nature of the services it provides, it is appropriate that all staff be women and, for the reasons set out above, those women are of a NESB. The applicant believes that staffing the organisation in this way will best meet the needs of its clients.
- The applicant requires representatives of its member organisations to be women only. No exemption is required in respect of that conduct, however, to the extent that the applicant provides services to individual members by way of information and participation in meetings and events, an exemption is required. Given the nature of the organisation, it is appropriate that such an exemption be granted so that those services are provided to women only.

- Exemptions in similar terms were granted in 1998, 2001, 2005 and 2009 (A121/2009), with the latter expiring on 17 June 2012. Between 18 June 2009 and 17 June 2012, 12 positions were advertised under the previous exemption. No complaints have been received by the applicant regarding the use of that exemption. No exception applies to the exempt conduct. In the absence of an exemption, the exempt conduct would amount to prohibited discrimination.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equality and in particular the right to equal and effective protection against discrimination of men or women of an English speaking background who would wish to be employed by the applicant or receive membership related services. I am satisfied that, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 16, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 3 October 2017.

- (g) the contact phone number for public inquiries;

Territory means the Australian Capital Territory or the Northern Territory;

transfer means the transport or movement, on-site or off-site, of substances to a mandatory reporting transfer destination or a voluntary reporting transfer destination. Transfer does not include the transport or movement of substances contained in overburden, waste rock, uncontaminated soil, uncontaminated sediment, rock removed in construction or road building, or soil used for the capping of landfills;

voluntary reporting transfer destination means a destination for reuse, recycling, reprocessing, purification, partial purification, immobilisation, remediation or energy recovery;

voluntary transfer data for a substance means an estimate of the amount of that substance transferred, to a voluntary reporting transfer destination, in a reporting period that identifies:

- (a) the type of destination; and
- (b) whether the transfer is on-site or off-site; and
- (c) the estimation technique used;

waste rock means the sub-grade rock displaced during underground or surface mining operations.

- (2) A business entity that controls a facility has **operational control** of the facility if the entity, or one of its subsidiaries, has full authority to introduce and implement its operating policies at the facility.

PART 2 – POLICY OBJECTIVE

5. Purpose and goals

- (1) The purpose of this Policy is to implement the National Environment Protection (National Pollutant Inventory) Measure within the State of Victoria.
- (2) The desired environmental outcomes of the National Environment Protection (National Pollutant Inventory) Measure and Policy are:
 - (a) the maintenance and improvement of:
 - (i) ambient air quality; and
 - (ii) ambient marine, estuarine and fresh water quality; and
 - (b) the minimisation of environmental impacts associated with hazardous wastes; and
 - (c) an improvement in the sustainable use of resources.
- (3) The national environment protection goals established by the National Environment Protection (National Pollutant Inventory) Measure are to:
 - (a) collect a broad base of information on emission and transfer of substances; and
 - (b) disseminate the information collected to all sectors of the community in a useful, accessible and understandable form.
- (4) This Policy furthers the national environment protection goals in subclause (3) by providing a basis for:

- (a) collecting and developing a broad base of information on emission and transfer of substances within Victoria; and
- (b) supplying that information to the Commonwealth for collation and dissemination.

6. Principles

In applying this Policy, regard must be had to the principles of environment protection set out in sections 1B to 1L of the **Environment Protection Act 1970**.

PART 3 – ATTAINMENT PROGRAM

7. Reporting obligation – commencement

- (1) An occupier of a reporting facility is not required to furnish any information otherwise required under clause 8, unless or until the ANZSIC code for one or more activities undertaken at the facility:
 - (a) has been agreed between participating jurisdictions as an industry type required to report under the National Environment Protection (National Pollutant Inventory) Measure; and
 - (b) has been included by the Commonwealth on a published list as an industry type required to report under the National Environment Protection (National Pollutant Inventory) Measure; and
 - (c) has industry reporting materials published by the Commonwealth.
- (2) An occupier of a reporting facility is not required to furnish mandatory transfer data, otherwise required under clause 8, unless or until industry reporting materials for transfers have been published by the Commonwealth.

8. Reporting obligation – reportable information

- (1) The occupier of each facility is required to provide the following information if a reporting threshold for a substance is exceeded in a reporting period:
 - (a) supporting data for the facility; and
 - (b) substance identity information and emission data for each substance for which the reporting threshold is exceeded in the reporting period; and
 - (c) the type and mass of fuel or waste burned in the reporting period; and
 - (d) any information that may be required to assess the integrity of the emission data; and
 - (e) substance identity information and mandatory transfer data for each substance for which a category 1, category 1b or category 3 reporting threshold is exceeded in the reporting period; and
 - (f) any information that may be required to assess the integrity of the mandatory transfer data; and
 - (g) a statement, signed by the occupier or a person authorised by the occupier for that purpose, that the occupier has exercised due diligence in gathering and providing the information mentioned in paragraphs (a) to (f).
- (2) The occupier of each reporting facility may voluntarily report substance identity information and voluntary transfer data.
- (3) Information reported under subclause (2) must be accompanied by a statement, signed by the occupier or a person authorised by the occupier for that purpose, that the occupier has exercised due diligence in gathering and providing that information.
- (4) Information under subclauses (1), (2) and (3) is to be provided to the Authority within three months after the end of the reporting period to which it relates.
- (5) The requirements under subclauses (1), (3) and (4) are to be imposed, to the extent possible, by the Authority or, to the extent this is not possible, by the Commonwealth.

- (6) The Authority is not to release any information provided to it under subclauses (1)(c), (d) or (f) unless:
 - (a) the occupier consents to its release; or
 - (b) the Authority is legally compelled to release it; or
 - (c) it is specifically required by another State, Territory or Commonwealth data gathering program.
- (7) If subclause (6)(c) applies, this information can only be supplied to the State, Territory or Commonwealth program that requires it.
- (8) In this clause **facility** does not include:
 - (a) a mobile emission source (for example, an aircraft in flight or a ship at sea) operating outside the boundaries of a fixed facility; or
 - (b) a petroleum retailing facility engaging in the retail sale of fuel; or
 - (c) a dry-cleaning facility employing less than 20 persons; or
 - (d) a scrap metal handling facility trading in metal, which is not engaged in the reprocessing of batteries or the smelting of metal; or
 - (e) a facility, or part of a facility, engaging solely in agricultural production, including the growing of trees, aquaculture, horticulture or live-stock raising unless it is engaged in:
 - (i) processing of agricultural produce; or
 - (ii) intensive live-stock production (for example, a piggery, cattle feedlot or poultry farm).

9. Reporting obligation – emission and transfer estimation techniques

In estimating emission data and mandatory transfer data for the purposes of furnishing information under clause 8, the occupier of a reporting facility:

- (a) if an estimation technique is set out in the relevant industry reporting materials for that type of reporting facility, applies either:
 - (i) that estimation technique; or
 - (ii) any other estimation technique that the Authority has agreed is likely to provide more representative emission or transfer data than the technique set out in the relevant industry reporting materials; and
- (b) if no estimation technique is set out in the relevant industry reporting materials that relates to a specific process carried out at the reporting facility or means of emission or transfer of waste from the reporting facility, applies any estimation technique that the Authority has agreed is likely to provide emission or transfer data for that process or means of emission or transfer; and
- (c) documents any technique applied under subparagraph (a) (ii) or paragraph (b); and
- (d) retains any data that may be required by the Authority to verify the emission or transfer data for the time period required by the Authority from the date on which a report was provided to the Authority; and
- (e) provides data retained under subclause (d) to the Authority as required.

10. Reporting threshold – category 1, category 1a and category 1b substances

- (1) The reporting threshold for a category 1 substance is exceeded in a reporting period if the activities of the facility involve the use of 10 tonnes or more of the substance in that period.
- (2) The reporting threshold for a category 1a substance is exceeded in a reporting period if the activities of the facility involve the use of 25 tonnes or more of the substance in that period.

- (3) The reporting threshold for a category 1b substance is exceeded in a reporting period if the activities of the facility involve the use of 5 kilograms or more of the substance in that period.
- (4) In this clause, **use** of a substance means the handling, manufacture, import, processing, coincidental production or other use of the substance.
- (5) In this clause, a substance is taken not to be used if:
 - (a) it is incorporated in an article in a way that does not lead to emission of the substance to the environment; or
 - (b) it is an article for sale or use that is handled in a way that does not lead to emission of the substance to the environment.
- (6) In working out the amount of a substance used for the purposes of subclauses (1), (2) and (3), the occupier is not required to include any amount of the substance that is in a proprietary mixture or any other material unless:
 - (a) for a proprietary mixture – the substance is specified in a Material Safety Data Sheet describing the properties and use of the substance, or the manufacturer’s advice; and
 - (b) for any other material – the occupier could reasonably be expected to know that the substance is in the material.

11. Reporting threshold – category 2a substances and category 2b substances

- (1) The reporting threshold for a category 2a substance is taken to be exceeded in a reporting period if the activities of the facility involve the burning of:
 - (a) 400 tonnes or more of fuel or waste in that period; or
 - (b) 1 tonne or more of fuel or waste in any hour in that period.
- (2) The reporting threshold for a category 2b substance is taken to be exceeded in a reporting period if:
 - (a) the activities of the facility involve:
 - (i) the burning of 2,000 tonnes or more of fuel or waste in that period; or
 - (ii) the consumption of 60,000 megawatt hours or more of electrical energy in that period for other than lighting or motive purposes; or
 - (b) the maximum potential power consumption of the facility at any time in that period is rated at 20 megawatts or more for other than lighting or motive purposes.

12. Reporting threshold – category 3 substances

- (1) The reporting threshold for category 3 substances is exceeded in a reporting period if the activities of the facility involve a total of 15 tonnes or more of total nitrogen or a total of 3 tonnes or more of total phosphorus in that period being:
 - (a) emitted to water (excluding groundwater); or
 - (b) transferred to a mandatory reporting transfer destination; or
 - (c) both emitted to water and transferred to a mandatory reporting transfer destination.
- (2) Both total nitrogen and total phosphorus must be reported if the category 3 threshold is exceeded, even if the threshold is exceeded only on the basis of one of these substances.

13. Supply of information to the Commonwealth by the Authority – information on reporting facilities

On or before 31 December each year, the Authority shall provide to the Commonwealth the following information in an agreed format for each reporting facility:

- (a) supporting data provided under clause 8; and
- (b) emission data, mandatory transfer data and voluntary transfer data provided under clause 8; and
- (c) the relevant ANZSIC code for the facility based on the main activity of the facility; and
- (d) the latitude and longitude of the facility to the nearest second or the equivalent map grid reference.

14. Supply of information to the Commonwealth by the Authority – information on sources other than reporting facilities

- (1) The Authority shall develop, or cause to be developed, aggregated emission and transfer data for particular substances in specific regions within Victoria at particular times, as agreed between participating jurisdictions.
- (2) The data developed under subclause (1) shall be submitted in an agreed format to the Commonwealth on or before the date agreed between participating jurisdictions.

15. Supply of information to the Commonwealth by the Authority – additional information

- (1) The Authority may accept any emission or transfer data estimated in accordance with clause 9, or other data relating to the emission or transfer of substances from an occupier of a facility, whether or not that facility is a reporting facility, and submit that data to the Commonwealth for inclusion in the NPI.
- (2) The Authority may submit other data to the Commonwealth for inclusion in the NPI (e.g. ambient concentrations of specified substances for a particular region within Victoria).
- (3) Data under subclause (1) or (2) is to be submitted to the Commonwealth in a format as agreed with the Commonwealth.

16. Assessment of integrity of information

- (1) Before providing data to the Commonwealth under clauses 13 and 15, the Authority shall, for each reporting facility, undertake any reasonable action that it considers necessary, for that particular reporting facility, to confirm the accuracy of the information furnished by the occupier.
- (2) The Authority shall conduct assessments of integrity of reported emission and transfer data from reporting facilities in accordance with preferred outcomes and procedures as agreed between participating jurisdictions.

17. Confidentiality – national security

A claim by an occupier of a reporting facility that information should be treated as confidential on the grounds of national security will be assessed by the Commonwealth in accordance with the National Environment Protection (National Pollutant Inventory) Measure.

18. Confidentiality – commercial confidentiality

- (1) A claim by an occupier of a reporting facility that particular information should be treated as confidential on the grounds of commercial confidentiality will, unless the existing law of Victoria provides otherwise, be dealt with in accordance with subclauses (3), (4), (5) and (6).
- (2) If the existing law of the Victoria does provide otherwise, the information must be dealt with under that law.
- (3) If subclause (2) does not apply, the claim should be:
 - (a) assessed by the Authority using the procedures agreed between participating jurisdictions and taking account of the principles in subclause (4); and
 - (b) after that assessment, granted or refused by the Authority.

- (4) The principles are:
 - (a) the occupier is to justify the claim for confidentiality to the Authority; and
 - (b) the Authority is to weigh the interest of the occupier against the public interest in disclosure of the information.
- (5) If subclause (2) does not apply and the claim has been granted, the information for which the claim was granted should not be included in the NPI unless it is included in a way (such as by aggregation with other information) that preserves the confidentiality of the information.
- (6) If subclause (2) does not apply and the claim has not been assessed, the information provided by the occupier under clause 8 will not be made publicly available on the NPI.

19. Security of information

- (1) The Authority should ensure that information provided by an occupier, or aggregated emission or transfer data collected, is not released to the public prematurely, unless the Authority is legally compelled to release it, and that information provided is not able to be altered, unless as provided for by this Policy.
- (2) Secure storage of information shall be provided by the Authority where:
 - (a) confidentiality claims have been granted or have been sought and are being assessed; or
 - (b) information is supplied in confidence for the purposes of developing aggregated emission or transfer data; or
 - (c) information is supplied for the purposes of verifying emission data, mandatory transfer data or voluntary transfer data in accordance with clauses 8, 9 and 16(2).

20. Legal status of information

Information provided by an occupier solely for the purposes of the NPI under this Policy will not be used by a participating jurisdiction as evidence in any court proceedings for non-compliance by the occupier with another obligation imposed by the jurisdiction.

Schedule A**Alphabetically-ordered reporting list of substances for the National Pollutant Inventory
(determined by consideration of health and environmental risks in Australia)**

1. In this schedule:
 - (a) the threshold for category 1 acids refers to the amount of the acid compound used (for example, in the case of 'hydrochloric acid', the threshold refers to the amount of hydrogen chloride used). This amount can be calculated as a factor of volume and concentration; and
 - (b) the thresholds for 'total nitrogen' and 'total phosphorus' refer only to the amounts of those nitrogen and phosphorus compounds that give rise to nitrate/nitrite and phosphate ions, respectively. For transfers, the thresholds for 'total nitrogen' and 'total phosphorus' refer only to the amounts of soluble compounds of nitrogen and phosphorus that are in materials that readily permit the dissolution of these substances; and
 - (c) the threshold for 'ammonia (total)' refers to the total amount of both ammonia (NH_3) and the ammonium ion (NH_4^+) in solution; and
 - (d) the threshold for 'chlorine & compounds' includes the amount of chlorine compounds used, which may produce emission of chlorine gas (Cl_2), free residual chlorine, hypochlorite ion (OCl^-), hypochlorous acid (HOCl) or chloramines; and
 - (e) the threshold for category 1 or category 1b substances that are listed as '(a metal) & compounds' refers to the total amount of the metal and its compounds used. For example, the amount of 'lead & compounds' used refers to the total amount of lead and all compounds that incorporate lead.
2. For the purposes of estimating emission and mandatory transfer data under clause 8:
 - (a) the amount of a category 1 acid emitted or transferred refers to the amount of the actual acid compound emitted or transferred. For example, in the case of 'hydrochloric acid', the amount emitted or transferred refers to the amount of hydrogen chloride emitted or transferred. It does not include any amounts of the acid that have been neutralised before release as the acid no longer exists; and
 - (b) the amounts of 'total nitrogen' and 'total phosphorus' emitted or transferred refer to the amounts of those nitrogen and phosphorus compounds emitted or transferred that give rise to nitrate/nitrite and phosphate ions respectively. For transfers, the amounts of 'total nitrogen' and 'total phosphorus' transferred refer only to the amounts of soluble compounds of nitrogen and phosphorus that are in materials that readily permit the dissolution of these substances; and
 - (c) the amount of 'ammonia (total)' emitted or transferred refers to the total amount of both ammonia (NH_3) and the ammonium ion (NH_4^+) emitted or transferred in solution; and
 - (d) the amount of 'chlorine & compounds' emitted or transferred refers to the total amount of chlorine gas (Cl_2), free residual chlorine, hypochlorite ion (OCl^-), hypochlorous acid (HOCl) and chloramines emitted or transferred, expressed as the equivalent weight of chlorine (Cl); and
 - (e) the amount emitted or transferred in relation to a substance listed as '(a metal) & compounds' refers to the amount of the metal emitted or transferred. For example, the amount of 'lead & compounds' emitted refers only to the amount of lead emitted; and
 - (f) the amount of 'polychlorinated dioxins and furans (TEQ)' emitted refers to the sum of the toxic equivalent amounts of the individual congeners emitted. Toxic equivalent amounts are obtained by multiplying the mass of the congener by the toxicity equivalency factor published in industry reporting materials; and

-
- (g) the amount of 'polycyclic aromatic hydrocarbons (Benzo[a]pyrene equivalent) (PAHs B[a]P_{eq})' emitted refers to the sum of the toxic equivalent amounts of the individual congeners emitted. Toxic equivalent amounts are obtained by multiplying the mass of the congener by the toxicity equivalency factor published in industry reporting materials; and
 - (h) the amount of 'oxides of nitrogen' emitted refers to the mass of nitrogen oxide and nitrogen dioxide expressed as the equivalent mass of nitrogen dioxide according to the industry reporting materials; and
 - (i) the amount of 'particulate matter $\leq 2.5 \mu\text{m}$ (PM_{2.5})' emitted refers only to the amount emitted from the burning of fuel or waste.

Project Development and Construction Management Act 1994

NOMINATION ORDER

Order in Council

The Governor in Council under section 6 of the **Project Development and Construction Management Act 1994** ('the Act') declares the following development to be a project to which the Act applies:

- the Shrine: Galleries of Remembrance project ('Nominated Project')

AND in accordance with section 7 of the Act, specifies that:

- (a) the Minister for Major Projects is the Minister who is to be responsible for the Nominated Project; and
- (b) the Secretary to the Department of Business and Innovation, being a body corporate established under section 41A of the Act, is to be the facilitating agency for the Nominated Project.

APPLICATION ORDER

Order in Council

The Governor in Council under section 8 of the **Project Development and Construction Management Act 1994** ('the Act') declares in respect of the Shrine: Galleries of Remembrance project, a nominated project under section 6 of the Act ('Nominated Project'), that:

- (a) The following provisions of Part 3 of the Act apply in relation to the Nominated Project: sections 14, 15, 16, 19, 20, 22, 23, 24, and 25.
- (b) The following provisions of Part 3 of the Act apply in relation to the Secretary of the Department of Business and Innovation, being a body corporate established under section 41A of the Act, which is the facilitating agency for the Nominated Project: sections 14, 15, 16, 19, 20, 22, 23, 24, and 25.
