Proposed Road Management Plan

Council has prepared a draft Road Management Plan under the **Road Management Act 2004** (Act).

The purpose of the proposed Road Management Plan (referred to further as the Plan) is to establish procedures and systems for the management of public roads. The Council is a road authority under the Act. As such, it is responsible for carrying out the management functions on local roads, i.e. all roads within the municipal area of the City of Greater Dandenong, other than EastLink and main roads such as VicRoads arterials and freeways.

In terms of the Act, a road authority shall carry out its road management functions based on policy and operational objectives. The Act requires Council to set appropriate standards for the discharge of its road management duties based on available resources. It also requires Council to monitor its performance in delivering the functions.

The draft Plan sets out these policies; objectives and relevant standards in relation to the discharge of the City of Greater Dandenong's road management duties. The draft Plan also includes details of the management system that Council intends to implement to inspect, maintain and repair public roads and ancillary areas for which it is the coordinating road authority or the responsible road authority. The draft Plan also specifies priorities adopted by Council after due consideration of available resources. It also includes any matters that a relevant Code of Practice specifies should be included in a road management plan.

The draft Plan may be viewed on our website at www.greaterdandenong.com or a copy may be collected between 9am and 5pm Monday to Friday from the Greater Dandenong Council Service Centres, at any one of the following locations: 39 Clow Street, Dandenong; Shop A7, Parkmore Shopping Centre, Keysborough; 397–405 Springvale Road, Springvale; The Paddy O'Donoghue Centre, 18–32 Buckley Street, Noble Park.

7. Background

Product stewardship imposes an obligation on all those who benefit from production to assume a share of responsibility for a product over its lifecycle. The Covenant covers consumer packaging.
- (2) All signatories to the Covenant have made a commitment to:
 - (a) work together to achieve the overarching targets established under the Covenant;
 - (b) produce and report on public action plans with measurable actions that will deliver improved environmental outcomes appropriate to their production, usage, sale, recovery and/or reprocessing of consumer packaging;
 - (c) work co-operatively to develop good practice collection systems and markets, and education and promotion programs; and
 - (d) provide data to assess the performance of the Covenant and progress towards the goals of the Measure.
- (3) Packaging chain signatories to the Covenant have made commitments to practice product stewardship throughout the lifecycle of consumer packaging, including to:
 - (a) design packaging to minimise use of materials and eliminate excessive packaging;
 - (b) adopt and implement the Sustainable Packaging Guidelines;
 - (c) support materials recovery systems and infrastructure for reprocessing used packaging materials in collaboration with State and local governments; and
 - (d) report and demonstrate continuous improvement against the key performance indicators and targets specified in the Covenant.
- (4) Local government signatories to the Covenant have made commitments in relation to good practice in the delivery of kerbside recycling collection systems.

- (5) The Commonwealth, State and Territory governments have made commitments in relation to:
 - (a) facilitating product stewardship through their legislation by developing the Measure;
 - (b) facilitating market development initiatives;
 - (c) applying product stewardship to their own operations; and
 - (d) supporting kerbside and other recycling collection services.
- (6) As the Covenant includes a voluntary system of industry self regulation, the intent of Council is to ensure that industry signatories do not suffer any competitive disadvantage as a result of fulfilling their commitments under the Covenant.

8. Goals

- (1) The goals of the Measure are to:
 - (a) reduce environmental degradation arising from the disposal of used packaging; and
 - (b) conserve virgin materials through encouraging waste avoidance and the re-use and recycling of used packaging materialsby supporting and complementing the voluntary strategies in the Covenant and by assisting the assessment of the performance of the Covenant.
- (2) The goal of this Policy is to implement the Measure within the State of Victoria.

- (1) materials used for packaging retail products consumed in industrial, commercial and domestic premises and public places;
- (2) materials used for packaging food and beverages intended for consumption in public places or in commercial provision of food services to individuals in hotels and restaurants; and
- (3) distribution packaging that contains multiples of products intended for consumer use.

10. Principles

In applying this Policy, regard must be had to the principles of environment protection set out in sections 1B to 1L of the **Environment Protection Act 1970**.

PART 3 – ATTAINMENT PROGRAM

11. Statutory Obligations and Rights

- (1) This Policy establishes a statutory basis for ensuring that signatories to the Covenant are not competitively disadvantaged in the market place by fulfilling their commitments under the Covenant.
- (2) A brand owner must:
 - (a) undertake or assure the systematic recovery of consumer packaging in which the brand owner's products are sold; and
 - (b) undertake or assure the re-use, recycling or energy recovery of consumer packaging in which the brand owner's products are sold; and
 - (c) demonstrate that all materials that have been recovered by them or on their behalf have been utilised through (in order of preference):
 - (i) re-use in the packaging of the brand owner's own products (if applicable); or
 - (ii) use within Australia as a secondary resource; or
 - (iii) export as a secondary resource; and
 - (d) demonstrate that reasonable steps have been taken to ensure that consumers are adequately advised as to how the packaging is to be recovered.

- (3) For the purpose of sub-clause (2), a brand owner must ensure an overall recovery rate of 70% for the following consumer packaging materials:
- (a) paper and cardboard;
 - (b) glass;
 - (c) steel;
 - (d) aluminium;
 - (e) PET plastics (Code 1);
 - (f) HDPE plastics (Code 2); and
 - (g) plastics (Codes 3–7).
- (4) A brand owner can discharge the obligations under sub-clause 2(a), 2(b) and 2(c) if the brand owner undertakes or assures the recovery and utilisation of used packaging materials which are of a size and type substantially the same as the packaging in which the brand owner's products are sold.

12. Recovery Data

- (1) For the purposes of clause 11(2)(c), a brand owner must record the following information for each packaging material used during a financial year:
- (a) total weight of material used by material type;
 - (b) number of units of packaging by unit and material type;
 - (c) total weight of material recovered by material type;
 - (d) total weight of recovered material re-used and recycled in Australia by material type;
 - (e) total weight of recovered material re-used and recycled by material type through export;
 - (f) total kilojoules of embedded energy recovered;
 - (g) total weight of recovered material disposed of to landfill; and
 - (h) how consumers have been advised as to how packaging is to be recovered.
- (2) The above information must be used to calculate and record a recovery rate for the brand owner's used packaging materials in accordance with the following formula:
- $$\text{Recovery rate} = \frac{\text{weight of material recovered from the post-consumer waste stream}}{\text{weight of material sold as packaging within Australia}} \times 100$$
- (3) A brand owner must:
- (a) keep records of the information in sub-clause (1) and (2) for five years; and
 - (b) make records available for inspection on request by the Authority.
- (4) The Authority will make arrangements to audit the records kept by brand owners under this clause.
- (5) The Authority will maintain the confidentiality of commercially sensitive information given to it by a brand owner and will not publicly release any information unless:
- (a) the brand owner consents to the release of the information; or
 - (b) the Authority is legally compelled to release it; or
 - (c) the information is aggregated with other information so as to conceal its source; or
 - (d) it is in the public interest to release it.
- (6) For the purpose of this clause, 'material' means the principal component or components of the container and does not include incidental components such as labels and closures.

13. Enforcement of Obligations

Brand owners will not be penalised for failure to discharge their obligations under clauses 11 and 12 unless brand owners have first been notified of the need to comply with these obligations and the options for exemption from those obligations, and they have failed to comply with that notice.

14. Methods of Collecting Information and Reporting

To enable annual reporting to the Council on whether the goals in clause 8 are being met, the Authority will collect the information set out in clauses 12, 15 and 16 from brand owners and local governments.

15. Collection and Participation Data

- (1) The Authority will require each local government of a municipal district (or each grouping of local governments of municipal districts where waste management groups exist) in which a kerbside recycling collection service or other municipal materials recovery system is provided, to provide the following information in relation to the municipal district or group of municipal districts, for a financial year:
 - (a) what percentage of households is covered by any such service;
 - (b) participation rate in any such service;
 - (c) number of tenements covered by the service and whether the tenements are residential tenements or other kinds of tenement;
 - (d) per tenement fee charged for recycling collection services;
 - (e) total weight of recyclable material collected at kerbside or by other municipal materials recovery systems by material type;
 - (f) if the material collected is sorted:
 - (i) the total weight of each material type sold and/or sent for secondary use, including energy recovery;
 - (ii) the total weight of the residual fraction disposed of to landfill by material type if practicable.
- (2) Each local government or grouping of local governments must ensure that any new or novated contract with a recycling collection service requires such contractors to provide any information to the local government that the local government needs to supply the information mentioned in sub-clause (1).
- (3) Where a local government is subject to current contract conditions which prevent it complying with sub-clause (1), the Authority will take any steps that are necessary to ensure that kerbside recycling collection services supply the information mentioned in that sub-clause to the Authority.
- (4) The Authority will maintain the confidentiality of any commercially sensitive information provided under this clause unless:
 - (a) the parties identified in sub-clause (1) and (3) consent to the release of the information; or
 - (b) the Authority is legally compelled to release it; or
 - (c) the information is aggregated with other information so as to conceal its source; or
 - (d) it is in the public interest to release it.
- (5) Each local government, or grouping of local governments, must report the information mentioned in sub-clause (1) for a financial year to the Authority within three months after the end of the financial year to which the information relates.
- (6) The Authority will report on participation in complementary collection systems for recyclables.

16. Supporting Data

At least once every year, the Authority will ensure that surveys of packaged products sold by retailers and/or surveys of brand owners represented in materials recovery systems are conducted to ascertain the effectiveness of this Policy in preventing free riding.

17. Commencement of Reporting

- (1) An audit shall not be carried out under clause 12(4) unless an audit methodology:
 - (a) has been agreed between jurisdictions participating in the Council; and
 - (b) has been published by the Commonwealth or jurisdictions participating in the Council.
- (2) The Authority will not require a local government or grouping of local governments to give any information otherwise required under clause 15 unless a national reporting form:
 - (a) has been agreed between jurisdictions participating in the Council in consultation with the relevant State/Territory Local Government Associations; and
 - (b) has been published by the Commonwealth or jurisdictions participating in the Council.
- (3) The Authority will not require a local government or grouping of local governments to give any information otherwise required under clause 15(1)(b) unless a national standard participation rate survey methodology:
 - (a) has been agreed between jurisdictions participating in the Council in consultation with the relevant State/Territory Local Government Associations; and
 - (b) has been published by the Commonwealth or jurisdictions participating in the Council.
- (4) The Authority will not require a local government or grouping of local governments to provide information collected under clause 15 to any other jurisdiction participating in the Council unless a standard reporting format has been agreed between jurisdictions in consultation with the relevant State/Territory Local Government Associations.
- (5) The Authority will not require surveys to be conducted under clause 16 unless a standard survey methodology has been agreed between jurisdictions participating in the Council.

18. Information Supplied to Council

For Council to be able to publish a statement of overall national performance, on or before 31 December each year, the Authority will provide to Council the following information in a standard reporting format:

- (a) information gathered from brand owners whose records under clause 12 have been audited;
 - (b) aggregated information received from local governments under clause 15;
 - (c) information gathered through the conduct of surveys under clause 16;
 - (d) information relating to complaints received, investigations undertaken and prosecutions mounted pursuant to this Policy; and
 - (e) a statement of interpretation of the information.
