Applicants should consider the consequences the **Native Title Act 1993** (NTA) may have on their exploration rights and any future production rights. Information on Native Title can be found at <http://new.dpi.vic.gov.au/earth-resources/about-erd/legislation/native-title>

Applicants should note that the application areas VIC/O-12(1) and VIC/O-12(2) contain Crown land, therefore the future act provisions under Part 2, Division 3 of the **Native Title Act 1993** (NTA) must be addressed before a petroleum exploration permit is granted over this area.

When offering the permit to the successful applicant, the Minister will require the applicant to choose one of the following options to address the future act provisions of the NTA:

1. Excise all Crown land except those areas where native title has been extinguished (such as Roads and Road Reserves); or
2. Retain all Crown land and complete the future act provisions of the NTA within 2 years; or
3. Withdraw the application.

If the successful applicant chooses option 2 the Department will carry out a 'future act assessment' in accordance with the NTA to determine what native title requirements need to be addressed prior to the grant of the permit and the successful applicant will be advised of the outcome of the future act assessment.

Key Objects

If a petroleum exploration permit is granted, applicants should be aware that:

Any exploration wells to be drilled and geophysical survey activities (i.e. 2D or 3D seismic or gravity) may be considered by the Minister to be key objects. Accordingly, if a petroleum exploration permit is granted, the exploration wells and geophysical survey activities (i.e. 2D or 3D seismic or gravity) may be declared to be the key objects of the work program. The key objects can only be varied in extraordinary circumstances and only if the proposed variation is considered to be equal or superior work.

Relevant Legislation

Before conducting any exploration activities they must make themselves familiar with (and refer to) the following legislation:

- **Aboriginal Heritage Act 2006** (Vic.)
- **Conservation, Forests and Lands Act 1987** (Vic.)
- **Catchment and Land Protection Act 1994** (Vic.)
- **Country Fire Authority Act 1958** (Vic.)
- **Dangerous Goods Act 1985** (Vic.)
- **Environment Effects Act 1978** (Vic.)
- **Environment Protection Act 1970** (Vic.)
- **Flora and Fauna Guarantee Act 1988** (Vic.)
- **Heritage Act 1995** (Vic.)
- **National Parks Act 1975** (Vic.)
- **Occupational Health and Safety Act 2004** (Vic.)
- **Petroleum Act 1998** (Vic.)
- **Planning and Environment Act 1987** (Vic.)
- **Water Act 1989** (Vic.)
- **Wildlife Act 1975** (Vic.)
- **Aboriginal and Torres Strait Islander Heritage Protection Act 1984** (Cth)
- **Environment Protection and Biodiversity Conservation Act 1999** (Cth)

Environmental considerations: The Department of Sustainability and Environment has advised that flora and fauna on both Crown and privately owned land are protected under a range of legislation (included in list above) and request adequate and timely consultation with DSE (and Parks Victoria if relevant), prior to any activities in order to assist in the protection of cultural, environmental and biodiversity values. Explorers need to be aware of their obligations under Victoria's Native Vegetation management – a Framework for Action with regard to any activities likely to impact on native vegetation.

Heritage: Successful applicant(s) should check the Heritage Register and Heritage Inventory for a list of significant remains or features prior to conducting exploration activities, as a permit and/or consent is required for activities that may affect places or items listed. Any new sites or wrecks encountered during exploration must be reported to Heritage Victoria.

The successful applicant(s) should also consult the Victorian Aboriginal Heritage Register to determine the location of known Aboriginal heritage places. A Cultural Heritage Management Plan may be required prior to obtaining acceptance of an Operations Plan.
