EXEMPTION

Application No. A59/2012

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 89 of the **Equal Opportunity Act 2010** (the Act) by Women's Circus Ltd (the applicant). The application for exemption is to enable the applicant to:

- Employ only women as staff members and engage only women as contractors;
- Confine participation in programs, workshops and other activities offered by the applicant to only women; and
- Advertise these matters (together, the exempt conduct).

Upon reading the material filed in support of this application, including the affidavit of Dawna Wright, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 16, 44, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- The predecessor to the applicant began operating in 1991, seeking to create a safe environment and healing space for women who were sexual assault victims. In 2003, the applicant entity was incorporated. It currently has seven part time staff members. The applicant receives funding and support from Arts Victoria, the Maribyrnong Council and other supporters and philanthropic organisations.
- The applicant aims to, through training programs and performance, allow women to reaffirm control over their bodies, build self esteem, set personal goals for development and create artistic works in a safe and non-competitive environment. Membership is open to all women and the applicant particularly encourages victims of sexual assault and abuse to join. Each year approximately 150 women train with the applicant. To meet these aims it is preferable for staff and contractors to be women and for the activities offered to be open to women only.

- The Women's Circus has previously been granted exemptions (A317/2007, A426/2002, A427/2002, A39/2000 and A48/1996) with the most recent having expired in November 2010. No exception or current exemption already applies to the exempt conduct and in the absence of an exemption the exempt conduct would amount to prohibited discrimination.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equality and in particular the right to equal and effective protection against discrimination of men who would wish to be employed or engaged by the applicant or who would wish to participate in its activities. I am satisfied that, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 16, 44, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 30 May 2017.

Flora and Fauna Guarantee Act 1988

The **Flora and Fauna Guarantee Act 1988** is the main biodiversity legislation in Victoria. The Act enables members of the public to nominate species, ecological communities and potentially threatening processes for listing. Nominations under the Act are considered by an independent Scientific Advisory Committee, which makes recommendations to the Minister for Environment and Climate Change and the Minister for Agriculture and Food Security.

The Committee has made the following final recommendations. Recommendation Reports have been prepared for each recommendation. Copies of the reports can be obtained from the Head Office and major country offices of the Department of Sustainability and Environment (DSE). The **Flora and Fauna Guarantee Act 1988** (the Act) and the Flora and Fauna Guarantee Regulations 2011 can be viewed at these offices or on the internet (<http://www.dse.vic.gov.au>).

Notes on Tables 1 and 2:

- Seasonal determinations may be made in intervals of 1% by interpolation between the values shown or extrapolation below 10% (or above 100% for the losses), not just in the 10% intervals shown.
- Murray Valley and Torrumbarry have fixed losses of 79,253 GL and 76,775 GL (including 0,352 GL for Tresco) respectively, plus two variable loss components as follows:
 - for high-reliability rights, variable loss varies from zero at zero allocation, increasing linearly to 13,078 GL for Murray Valley and to 24,592 GL for Torrumbarry at an allocation of 100%;
 - for low-reliability rights, variable loss varies from zero at zero low allocation, increasing linearly to 43,160 GL for Murray Valley and to 60,632 GL for Torrumbarry at an allocation of 100% to low-reliability entitlements; and these losses may be allocated as required to deliver water carried over in these irrigation areas based on the equivalent maximum allocation in each area (calculated as the seasonal determination + carryover)
- Allocations against the 22.1 GL of high-reliability entitlement added to Table 1 in November 2009 for Snowy EWR commenced when the Lake Boga-Lake Kangaroo-Lake Charm component of the Victorian Mid-Murray Storages was first deemed by the Resource Manager to have been operated in accordance with clause 8A (which occurred on 1 April 2010).
- Broken Creek entitlements, including town supplies for Numurkah and Nathalia and relevant environmental entitlements, are not included in Tables 1 and 2, but receive Murray allocation regardless of whether they are supplied from the Murray or Goulburn Systems.
- The allocation to the Murray Valley and Torrumbarry losses shown may be increased up to the maximum accumulated unused loss volume available for each in order to allow for delivery of allocation carried over in these districts from the previous year.

11 Amendment of Schedule 4 – Off-take points and return points

(1) In the Table of Return Points, after the words ‘Lake Boga outfall channel’, insert the words ‘(if Fish Point Weir is open)’.

‘4. Procedure for estimating, accounting, reserving and allocating gross modernisation savings as a result of NVIRP

Each year until the completion of NVIRP and all resulting gross modernisation savings have been converted to new entitlements, Goulburn-Murray Water must:

1. On 30 June, carryover all of the unused volume in the Modernisation Savings Account into the next year.
2. Estimate the total volume of gross modernisation savings to be achieved from NVIRP Stage 1 and NVIRP Stage 2 during the year in accordance with the Protocol.
3. On 1 July and every fortnight or month afterwards as required, adjust the procedure specified in clause 12 of this Order so that the estimate from step 2, as varied under step 4, of this clause is reserved in the Modernisation Savings Account before making any seasonal determination.
4. Adjust the volume in the Modernisation Savings Account during the year as necessary based on revised estimates of gross modernisation savings to be achieved in the current year.
5. If mitigation water is available in any year in accordance with the approved Mitigation Water Operating Arrangements, the mitigation water must be allocated from the Modernisation Savings Account to the Environmental Entitlement (River Murray – Environmental Water Reserve) 2010 in addition to any allocation under step 6b) below.
6. Once the Audit is published, make any final adjustment to the volume in the Modernisation Savings Account required and then deduct from the volume in the Modernisation Savings Account the total volume of audited savings from the previous year and allocate it as follows:
 - a) a one-third share of the total audited phase 3 water savings attributed to NVIRP Stage 1 to the Melbourne bulk entitlements collectively;
 - b) a one-third share of the total audited phase 3 water savings attributed to NVIRP Stage 1 to the Environmental Entitlement (River Murray – NVIRP Stage 1) 2012; and
 - c) the remainder to the Murray Offset Account.
7. Deduct from the Murray Offset Account, as required during the year whenever a seasonal determination is made, the equivalent volume of water that was allocated in the current year to any water shares issued to the CEWH from NVIRP Stage 2 that are supplied from the River Murray.
8. Deduct any surplus volume from the Murray Offset Account, where the volume of water in the Murray Offset Account is more than is required to prevent an impact to the reliability of primary entitlements in the current year and in subsequent years.
9. On 30 June, carryover any unused water in the Murray Offset Account, minus 5% for evaporative losses unless, as a result of step 7, the balance in the account is negative.
10. Report to the Executive Director, Water Resources of the Department of Sustainability and Environment, the accounting method and volumes of water reserved and allocated under clause 4 of this Schedule by 1 April each year, or within 14 days of a request by the Executive Director.’
