MONASH PLANNING SCHEME
 Notice of Preparation of Amendment
 Amendment C103
 Authorisation A02437

Monash City Council has prepared Amendment C103 to the Monash Planning Scheme, in accordance with the **Planning and Environment Act 1987**. The Ministerial Authorisation Number is A02437.

The Amendment affects land identified in the Parking Overlay 1 area of the Glen Waverley Principal Activity Centre. Amendment C103 proposes to:

- replace the Glen Waverley Principal Activity Centre Parking Precinct Plan dated May 2008 with the Glen Waverley Principal

Activity Centre Parking Plan dated June 2012. The updated Glen Waverley Principal Activity Centre Parking Plan focuses on the development of a 400 space car park in the area located to the west of Kingsway and to the south of Coleman Parade;

- introduce Schedule 1 to Clause 45.09 Parking Overlay to reflect the requirements of the Glen Waverley Principal Activity Centre Parking Plan dated June 2012 and nominate a cash-in-lieu contribution rate of \$20,000 per car space;
- replace the Schedule to Clause 52.06 to delete reference to the Glen Waverley Principal Activity Centre Parking Precinct Plan dated May 2008; and
- make minor consequential changes to the Monash Planning Scheme.

The Amendment and associated documentation can be inspected free of charge, during office hours, at the offices of the Monash City Council, 293 Springvale Road, Glen Waverley, or on the following websites: www.dpcd.vic.gov.au/planning/publicinspection; and www.monash.vic.gov.au/planning/amendments.htm

EXEMPTION

Application No. A230/2012

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 89 of the **Equal Opportunity Act 2010** (the Act) by Northern Centre Against Sexual Assault (the applicant). The application for exemption is to enable the applicant to advertise for and employ only a woman in the role of counsellor advocate (the exempt conduct).

Upon reading the material filed in support of this application, including the affidavit of Charmaine Farrell, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 16, 18, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- The applicant is located at Austin Health and is one of 15 similar centres funded by the Victorian Government Department of Human Services. Its primary role is to provide counselling, advocacy and support services to victims and survivors of sexual assault, and non-offending family members and friends, female and male.

- Over 90% of perpetrators are male. Clients are asked when they call the applicant whether they would prefer a female or male counsellor. When asked, around 80% of clients, female and male, express a preference for a female counsellor and in some cases refuse to see a male counsellor. In these circumstances, the applicant needs more female than male counsellors and advocates. It is important to be able to provide gender-appropriate assistance to the applicant's clients because they are in crisis situations, and it is crucial to establish trust if they are to be assisted appropriately. This can most easily be done by a counsellor advocate of a gender of the client's choice. It is noted that the applicant also employs a male counsellor who assists clients who have expressed a preference for a counsellor of that gender.

- No exception or current exemption already applies to the exempt conduct and in the absence of an exemption the exempt conduct would amount to prohibited discrimination.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equality and in particular the right to equal and effective protection against discrimination of men who would wish to be employed in the counsellor advocate role. I am satisfied that, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 16, 18, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 30 January 2018.

Occupational Health and Safety Act 2004

OCCUPATIONAL HEALTH AND SAFETY REGULATIONS 2007

Victorian WorkCover Authority

Exemption

Number: H12/03495

Purpose: This exemption from compliance with regulation 3.6.2, a provision of Part 3.6 (High Risk Work) of the Occupational Health and Safety Regulations 2007 (the Regulations), requiring that an employer must not allow an employee to do any high risk work unless the employee holds an appropriate high risk work licence in relation to that work, is granted by the Victorian WorkCover Authority (WorkSafe Victoria) under the provisions of regulation 7.2.2 of the Regulations to employer, Australian Grand Prix Corporation of Level 5, 616 St Kilda Road, Melbourne, Victoria (AGPC).

Background: AGPC is responsible for the safety of international freight handlers employed or engaged by Formula One Management (FOM) or F1 Racing Teams to handle rare and high value equipment, including F1 racing cars, for the annual Australian Formula One Grand Prix event held at the Albert Park Grand Prix circuit, Albert Park, Victoria (the event).

Given the specialist nature of the high risk work to be performed, a written application dated 12 November 2012 was made by AGPC seeking an exemption from the requirement under the Regulations that an employer must not use unlicensed employees to do high risk work for the event for international freight handlers undertaking high risk work in the operation of forklifts (industrial lift trucks) for the event.

In considering AGPC's application for an exemption, I am satisfied that the high risk work can be performed as safely by a person who does not hold a forklift licence as it can be performed by a person who holds such a licence, subject to the observation of conditions imposed in granting the exemption.

Exemption: Pursuant to regulation 7.2.2 of the Occupational Health and Safety Regulations 2007 (the Regulations), the Australian Grand Prix Corporation (AGPC) is exempted from complying with regulation 3.6.2(a) of the Regulations in relation to the specified high risk work of operating a forklift by persons who do not hold a high risk work licence subject to the observance of the imposed conditions set out herein.

Conditions: This exemption is subject to the following conditions:

1. This exemption shall apply only to those persons who are non-Victorian residents engaged or employed by AGPC, FOM or the F1 Racing Teams to operate forklifts (industrial lift trucks) for the event with a limit of two forklift operators per team.
2. This exemption starts and applies fourteen days before the event, applies during the event and applies and ends fourteen days after the event for each event held in the years 2013, 2014 and 2015 respectively unless earlier revoked by WorkSafe Victoria.
3. This exemption shall only apply to the workplace or undertaking represented by designated forklift operating areas at the Albert Park Grand Prix circuit, Albert Park, Victoria in accordance with those areas specified in drawing numbers APP0013-C-DWG-113 Rev A and APP0013-C-DWG-112 Rev A as provided in AGPC's exemption application.

4. The International Freight Logistics Operations Plan as provided in AGPC's exemption application must be implemented and AGPC must notify WorkSafe Victoria in writing no later than one calendar month prior to the event of any variations to the Plan in respect to the designated forklift operating areas or activities to be undertaken for the event.
5. Persons and classes of persons operating forklifts before, during and after the event must hold, and provide evidence of, a forklift licence or certificate of competency issued outside the State of Victoria and provide other evidence of identity which evidence must include a colour photograph of that person. AGPC must verify the identity of each person, provide to WorkSafe Victoria and retain for a period of five years post the conclusion of the event, copies of the forklift licence or certificate of competency and identification document.
6. AGPC must advise WorkSafe Victoria in writing no later than one calendar month prior to the commencement of the event of the name of the Registered Training Organisation (RTO) authorised by WorkSafe Victoria as a forklift licence assessor to be engaged by AGPC to undertake a performance assessment of each person who is to operate a forklift before, during and/or after the event.
7. Prior to the commencement of any forklift operating activities for the event, AGPC must ensure that the RTO authorised by WorkSafe Victoria as a forklift licence assessor undertakes an initial competency assessment for each person who intends to operate a forklift before, during and/or after the event in accordance with the Licensing Persons Performing High Risk Work; Mandated Assessment Instruments; Guide for Assessors and the Statement of Competency Review in the Assessment Instrument – Licence to operate a forklift truck, Revision 1 – Assessor Version: November 2012.
8. Each completed Statement of Competency Review must be signed by the person undertaking the assessment and the individual licence assessor on behalf of the RTO, retained by the AGPC for a period of five years, and provided to WorkSafe on request.
9. Prior to the commencement of any forklift operating activities for the event, each person who will operate a forklift must be provided with information and instructions by AGPC about the safety requirements for operation of a forklift for the event in a language and format that the person to whom the instructions and information provided can understand.
10. Prior to the commencement of any forklift operating activities for the event, each person who will operate a forklift must produce their accreditation for access to the designated forklift operating areas and read, acknowledge and sign a safety undertaking in a language that the person can understand prior to being provided with the keys to any forklift.
11. All forklifts to be operated for the event must comply with Australian Standards and undergo and satisfy a safety inspection conducted by a suitably competent person at the commencement of each day before use.
12. A physical boundary must be erected to restrict unauthorised access to, and traffic egress from, the designated operating areas for forklift activities. Security personnel must be provided to enforce the secured area.

13. All persons present within the designated forklift operating areas must wear appropriate personal protective equipment, including high visibility clothing and protective footwear.
14. An AGPC supervisor or project manager must be present at all times that forklift operating activities are taking place before, during and after the event.
15. A suitably competent safety officer/observer, independent of FOM and the F1 Racing Teams, must be present at all times that forklift operating activities are taking place before, during and after the event, and is responsible for the enforcement of any safety requirements and plans and the initiation of immediate corrective actions where non-compliance is identified.

Water Act 1989**BULK ENTITLEMENT (WESTERNPORT) CONVERSION
AMENDMENT ORDER 2013**

I, Peter Walsh, as Minister administering the **Water Act 1989**, make the following Order –

TITLE

1. This Order is called the Bulk Entitlement (Westernport) Conversion Amendment Order 2013.

PRELIMINARY

2. The Bulk Entitlement (Westernport) Conversion Order 1997 (the ‘Bulk Entitlement Order’) was made by the Minister on 8 July 1997 to convert Westernport Water’s existing rights to water from Tennent Creek to a defined bulk water entitlement.

PURPOSE

3. The purpose of this Order is to amend the Bulk Entitlement Order to account for an enlargement of the capacity of Candowie Reservoir from 2,263 ML to 4,463 ML. The amendment allows for environmental water releases to be made to mitigate the impact of raising Candowie Reservoir, and to restore a more natural flow regime to Tennent Creek.

AUTHORISING PROVISIONS

4. This Order is made in accordance with section 44 of the **Water Act 1989**.

COMMENCEMENT

5. This Order comes into effect on 1 July 2013.

INSERTION OF CLAUSE 9A

6. After clause 9 of the Bulk Entitlement Order **insert** –

‘9A. ENVIRONMENTAL RELEASES

9A.1 The Authority is required to make the following environmental flow releases from Candowie Reservoir –

- (a) during the period from May to November inclusive each year, the lesser of –
 - i) 5 ML/day; and
 - ii) the inflow to Candowie Reservoir from Tennent Creek; and
- (b) during the period from December to April inclusive each year, the lesser of –
 - i) 0.1 ML/day; and
 - ii) the inflow to Candowie Reservoir from Tennent Creek; and
- (c) during the period from May to November inclusive, 8 winter freshes of 7.5 ML/day for at least 1 day, with at least 7 days between each winter fresh, within operational tolerances to be agreed by the Authority and the waterway manager.

9A.2 Spills from Candowie Reservoir are counted as environmental flow releases for the purposes of sub-clause 9A.1.

9A.3 When the volume in storage in Candowie Reservoir falls below 850 ML, the Authority may discontinue environmental flow releases under paragraph 9A.1(a).

9A.4 If the Authority discontinues releases in accordance with sub-clause 9A.3, then the Authority is required to make an environmental flow release from Candowie Reservoir, during the period from May to November inclusive each year, of the lesser of –

- i) 1 ML/day; and
- ii) the inflow to Candowie Reservoir from Tennent Creek.

- 9A.5 The Authority must resume releases in accordance with paragraph 9A.1(a) when the volume in storage in Candowie Reservoir reaches 2,000 ML.
- 9A.6 Before restricting the releases in accordance with paragraph 9A.3, the Authority must advise the waterway manager.
- 9A.7 Within 12 months of the commencement of this Order, the Authority and waterway manager must agree arrangements for the monitoring and management of water quality in the waterway, downstream of Candowie Reservoir, during periods of restriction under sub-clause 9A.3, including provisions for emergency water releases to maintain water quality.
- 9A.8 The Authority and waterway manager may by agreement vary the arrangements under sub-clause 9A.7 from time to time.
- 9A.9 Any water released for environmental flows pursuant to this clause does not count as water taken from the waterway under sub-clause 6.1.'

SUBSTITUTION OF CLAUSE 10

7. For clause 10 of the Bulk Entitlement Order, **substitute** –

'10. SHARE OF CAPACITY

The Authority is entitled to –

- (a) all water at any time stored in the Candowie Reservoir; and
- (b) the full capacity of the Candowie Reservoir, up to 4,463 ML at full supply level of 62.35 metres Australian Height Datum –

but may not use or transfer from Tennent Creek any more than its annual entitlement in any year.'

AMENDMENT TO CLAUSE 13

8. In sub-clause 13.4 of the Bulk Entitlement Order, after paragraph (c) **insert** –
'(d) update the metering program to take account of any relevant amendments to this Order.'

AMENDMENT TO CLAUSE 14

9. In sub-clause 14.1 of the Bulk Entitlement Order after paragraph (a), **insert** –
'(ab) the daily amount of water released from Candowie Reservoir for environmental flows in accordance with clause 9A.'
10. In sub-clause 14.1 of the Bulk Entitlement Order after paragraph (c), **insert** –
'(ca) the annual amount of water released from Candowie Reservoir for environmental flows in accordance with clause 9A.'
11. In sub-clause 14.3 of the Bulk Entitlement Order for paragraph (a) **substitute** –
'(a) paragraphs (a), (ab) and (b) of sub-clause 14.1; and'.
