**GOVERNMENT AND OUTER BUDGET
SECTOR AGENCIES NOTICES**

**AMENDMENT TO THE OUTDOOR DINING AND STREET TRADING
CODE OF PRACTICE – MUNICIPAL PLACE LOCAL LAW NO. 5**

At its meeting of 4 December 2013, the Greater Bendigo City Council resolved to adopt the amended Outdoor Dining and Street Trading Code of Practice, which is incorporated by reference into the Municipal Places Local Law No. 5.

The Code has been reviewed and amended with the following objectives:

- To ensure that outdoor dining and street trading activities are well planned, safe and operating in a manner that does not compromise public access to public places.
- To ensure that outdoor dining and street trading is established, operated and maintained in an appropriate and equitable manner.
- To set out the City of Greater Bendigo's position and policy framework that guide application, assessment and management.
- To encourage appropriate commercial use of public space that creates active and vibrant street frontages.
- To encourage linkages between businesses and pedestrians to ensure active and safe streets.

The table below identifies the key changes included within the revised Code.

Change	Summary of Changes
Weather Treatments	That approved weather treatments that are temporary may be permitted on a case-by-case basis where the applicant can demonstrate that the proposal will increase activity in the street, is of high quality and will be property managed.
Barriers in the Mall	That removable barriers be allowed in the Hargreaves Mall on a case-by-case basis subject to a standard approval process. Cost and installation shall be at the applicants expense.
Barrier Height	That the standard barrier height be retained at 900 mm, however some flexibility has been included within the Code to allow this to increase to a height of 1200 mm where practical and reasonable.
Extending the use of traffic and amenity treatments	Where there are significant traffic and external treatment impacts that appropriate treatments such as glass screens be considered on a case-by-case basis in appropriate locations such as on main arterial roads.
Barrier design, material and constructions	Controlled flexibility in barrier design, construction, height and material has been included to allow for innovative design through an internal approval process.
Barrier Placement	Barrier presentation and finish must be directed to the streetscape, but can be replicated on the inward facing screen.
Good for Display	Controlled flexibility in display design, construction, height and material has been included to allow for innovative design through an internal approval process.

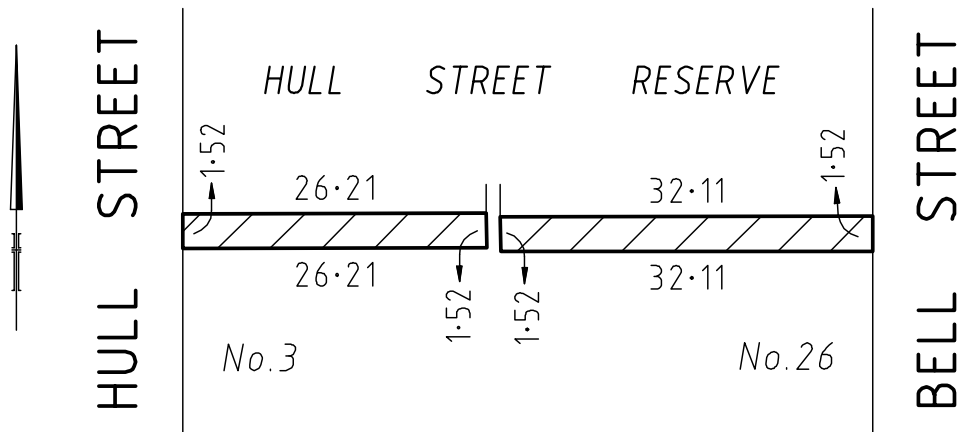

Change	Summary of Changes
Good for Display	To limit the number of goods on display to manage pedestrian and traffic issues.
Permit advertising on Umbrellas	Allow for third party advertising on umbrellas in a controlled manner that sets minimal sizing, logo and colour.
Busking	That the Code be amended to facilitate activation of public places through amending permit requirements surrounding busking.

A copy of the amended Code of Outdoor Dining and Street Trading Code of Practice may be inspected or obtained from the City of Greater Bendigo Council Offices at Lyttleton Terrace, Bendigo, and High Street, Heathcote, or online at www.bendigo.vic.gov.au

BOROONDARA CITY COUNCIL
Discontinuance of Roads

Pursuant to section 206 and schedule 10, clause 3 of the **Local Government Act 1989**, the Bororoondara City Council has formed the opinion that the two roads within the Hull Street Reserve and adjoining 26 Bell Street and 3 Hull Street, Hawthorn, shown by hatching on the plan below, are not reasonably required as roads for use by the public and resolved to discontinue the roads and take title to the land consistent with the use of the land as part of the Reserve.

**ADOPTION OF
ROAD MANAGEMENT PLAN**

In accordance with the **Road Management Act 2004** and Road Management Regulations 2005, Glenelg Shire Council has conducted a review of its Road Management Plan and has made a number of amendments as a result of that review.

The amended Road Management Plan (2013) was adopted by Council at the ordinary meeting of Council on 26 November 2013.

The purpose of the plan is to identify Council's road management priorities and standards that Council will apply to the inspection and maintenance of the roads to which Council's Road Management Plan applies having regard to the available resources.

A copy of the Road Management Plan (2013) may be obtained or inspected at Council's Customer Service Centres at Portland, Heywood, and Casterton, during normal business hours or alternatively may be found on Council's website – www.glenelg.vic.gov.au

Planning and Environment Act 1987
WANGARATTA PLANNING SCHEME
Notice of Preparation of Amendment
Amendment C53

The Rural City of Wangaratta Council has prepared Amendment C53 to the Wangaratta Planning Scheme.

The land affected by the Amendment is all land currently in the Residential 1 Zone in the Rural City of Wangaratta and the following land parcels affected by the Public Park and Recreation Zone:

1. Lot 1 PS 408232F (2–4 Bruck Court, Wangaratta)
2. Lot 2 PS 544641 and Lot CM1 PS 534810K (10 Harrison Street, Wangaratta)

3. Lot 1 PS 544641 (39–41 White Street, Wangaratta).

The Amendment proposes to implement the three new residential zones into the Wangaratta Planning Scheme. Specifically, it replaces the existing Residential 1 Zone with the Residential Growth Zone, General Residential Zone and Neighbourhood Residential Zone, and amends the Local Planning Policy Framework at Clause 21.06 – Urban Development and Central Activities Area. The Amendment removes the Residential 1 Zone and the Schedule to the zone. The Amendment also corrects three planning scheme map anomalies relating directly to residential land where the land is partially affected by the Public Park and Recreation Zone and requires rezoning to the underlying residential zone.

You may inspect the Amendment, any documents that support the Amendment and the explanatory report about the Amendment, free of charge, at the following locations: during office hours, at the office of the planning authority, Rural City of Wangaratta Council, Wangaratta Government Centre, 62–68 Ovens Street, Wangaratta, Victoria 3677; and at the Department of Transport, Planning and Local Infrastructure website, www.dpcd.vic.gov.au/planning/publicinspection

Plant Biosecurity Act 2010**ORDER DECLARING A RESTRICTED AREA IN VICTORIA, NEAR DARETON (NSW),
FOR THE CONTROL OF QUEENSLAND FRUIT FLY**

I, Peter Walsh, Minister for Agriculture and Food Security, under section 32 of the **Plant Biosecurity Act 2010**, make the following Order declaring a restricted area for the control of Queensland Fruit Fly and specifying the prohibitions, restrictions and requirements which are to operate in the restricted area.

Dated 28 January 2014

PETER WALSH MLA
Minister for Agriculture and Food Security

1. Objective

The objective of this Order is to declare a restricted area for the control of Queensland Fruit Fly in Victoria, near Dareton (NSW), and to specify the prohibitions, restrictions and requirements which are to operate in the restricted area.

2. Authorising provisions

This Order is made under section 32 of the **Plant Biosecurity Act 2010**.

3. Definition

In this Order –

‘**accreditation program**’ means any program under which a person is permitted to issue an assurance certificate, including any procedures available under the Interstate Certification Assurance (ICA) Scheme;

‘**Act**’ means the **Plant Biosecurity Act 2010**;

‘**authorised person**’ means a person authorised by the Department of Environment and Primary Industries;

‘**inspector**’ means a person authorised as an inspector under the Act;

‘**Queensland Fruit Fly**’ means the exotic pest *Bactrocera tryoni* (Froggatt); and

‘**Queensland Fruit Fly host material**’ means any fruit or vegetable listed in Schedule 1.

4. Restricted area for the control of Queensland Fruit Fly

The restricted area for the control of Queensland Fruit Fly is declared to be the area described in Schedule 2.

5. Prohibitions, restrictions and requirements

(1) The removal from the restricted area into any part of Victoria of any Queensland Fruit Fly host material is prohibited.

(2) Subclause (1) does not apply if the Queensland Fruit Fly host material is –

(a) packed, labelled and certified in accordance with any conditions prescribed by an accreditation program administered by the Department of Environment and Primary Industries; or

(b) accompanied by a plant health declaration issued by an authorised person declaring that the host material has been treated in a manner approved by the Chief Biosecurity Director or the Chief Plant Health Officer; or

(c) accompanied by a plant health certificate issued by an inspector certifying that the host material has been treated in a manner approved by the Chief Biosecurity Director or the Chief Plant Health Officer.

(3) The owners and occupiers of land described in Schedule 3 must give an inspector access to such land for the purposes of inspection, deployment of any lures or traps, application of any treatment or performance of any other actions which are necessary for the eradication or prevention of spread of the pest.

(4) The owners or occupiers of land described in Schedule 3 must, on instruction from an inspector, strip Queensland Fruit Fly host materials from plants, collect and dispose of waste material, or treat the material in a manner approved by the Chief Biosecurity Director or the Chief Plant Health Officer.

6. Verification of Consignments

Any Queensland Fruit Fly host material removed from the restricted area in accordance with clause 5(2), and the accompanying certificate or declaration, must be:

- (1) presented to an inspector for inspection; or
- (2) verified by a person accredited to do so by the Department of Environment and Primary Industries.

Plant Biosecurity Act 2010**ORDER PROHIBITING OR RESTRICTING THE ENTRY OR IMPORTATION OF
LITTLE CHERRY VIRUS HOST MATERIAL INTO VICTORIA**

I, Gabrielle Vivian-Smith, as delegate of the Minister for Agriculture, make the following Order:
Dated 31 January 2014

GABRIELLE VIVIAN-SMITH
Chief Plant Health Officer

1. Objective

The objective of this Order is to prevent the entry or importation or entry of the little cherry virus into Victoria.

2. Authorising provision

This Order is made under section 36 of the **Plant Biosecurity Act 2010**.

3. Definitions

In this Order –

‘accreditation program’ means any program under which a person is permitted to issue an assurance certificate, including any procedures available under the Interstate Certification Assurance (ICA) Scheme;

‘authorised inspector’ means a person authorised as an inspector under the Act;

‘little cherry virus host material’ means any plant or plant product, excepting fruit or wood for furniture production, of sweet or ornamental cherry, including from the species *Prunus avium*, *P. cerasus* and *P. serrulata*.

4. Controls applying to little cherry virus host materials

- (1) The entry or importation into Victoria of any little cherry virus host material is prohibited.
- (2) Sub-clause (1) does not apply if the little cherry virus host material:
 - (a) was grown, sourced or last used on a property that is located in a State or Territory, or part of a State or Territory, for which an area freedom certificate issued by an officer responsible for agriculture in the State or Territory where the little cherry virus material host material was grown, sourced or last used, is currently in force certifying that the State or Territory or that part of the State or Territory is known to be free of the little cherry virus; or
 - (b) is packed, labelled and certified in accordance with any conditions prescribed by an accreditation program, administered by the department responsible for agriculture in the affected State or Territory; or
 - (c) is accompanied by a plant health declaration issued by an authorised person declaring that it has been treated in a manner approved by the Chief Plant Health Officer; or
 - (d) is accompanied by a plant health certificate issued by an officer of the department responsible for agriculture in the affected State or Territory certifying that it has been treated in a manner approved by the Chief Plant Health Officer.

Note: Section 38 of the **Plant Biosecurity Act 2010** provides that a person is guilty of an offence and a penalty not exceeding 60 penalty units for a natural person, or 300 penalty units for a body corporate, for knowingly breaching an importation order.

Port Management Act 1995

NOTICE OF INQUIRY

Review of Prescribed Port Services 2014

The **Port Management Act 1995** (Vic.) (PMA) establishes the economic regulatory framework for Victoria's commercial ports.

Purpose of Inquiry

Under the PMA, every five years, the Essential Services Commission (ESC) must conduct an inquiry (a review) and make a recommendation to the Minister administering the **Essential Services Commission Act 2001** (ESC Act) whether certain prescribed services (defined below) should continue to be subject to price regulation and if so, the form of that price regulation. The current form of price regulation applied to prescribed services is price monitoring. This is given effect through the ESC's Price Monitoring Determination (PMD) available at <http://www.esc.vic.gov.au> (go to: implementation of the ports price monitoring regime).

Scope of the Inquiry and Prescribed Services

The prescribed services subject to review are defined in section 49(c) of the PMA. As the Port of Melbourne Corporation (PoMC) is the only provider of prescribed services, the scope of the review is confined to the Port of Melbourne.

The prescribed services currently price monitored are:

- shipping channels in the port of Melbourne, including the shared channels used by ships bound either for the port of Melbourne or the port of Geelong;
- berths, buoys or dolphins for the berthing of vessels carrying container or motor vehicle cargoes in the port of Melbourne; and
- short-term storage or cargo marshalling facilities for the loading or unloading of vessels carrying container or motor vehicle cargoes in the port of Melbourne.

Matters the review will cover

Section 53 of the **Port Management Act 1995** (PMA) requires that the review address the following matters:

- whether or not prescribed services should be subject to price regulation and the form of that regulation
- any transitional matters if the ESC recommends changes to the form of regulation.

Timing and request for submissions

The review will start in February 2014 and must be completed by 30 June 2014.

Stakeholders are invited to provide their written submissions in relation to whether the prescribed services should be price regulated and if so, the form of the regulation. Submissions should be sent to portsreview2014@esc.vic.gov.au. Submissions should be made on or before 14 March 2014. Submissions will be published on the ESC's website.

The ESC will publish a draft report by 30 April 2014 and seek stakeholder comments on its draft findings. Stakeholders will be provided four weeks to make a submission to the ESC in response to the draft report. The ESC will also hold a public hearing where interested parties may present their views on relevant matters. Details of the public hearing will be advertised in the press and on the ESC's website. A final report with the ESC's recommendations will then be provided to the Minister for Finance by 30 June 2014.

Further information is available from Dominic L'Huillier, A/Director – Transport on (03) 9032 1365.

 - (iii) that any required information on the nature of activities on or near a waterway be submitted to the relevant waterway manager for review.

* Recreational prospecting is searching for minerals or gemstones under a miner's right or a tourist fossicking authority as defined in the Minerals Resources (Sustainable Development) Act 1990.

The Government supports this recommendation in principle.

Recreational prospecting will be permitted, once the necessary amendments to the **National Parks Act 1975** are made, in the eight areas recommended by VEAC in R1(a). This activity will be subject to a review of the environmental and cultural heritage impacts in the new areas after the first twelve months of it being permitted. The review will involve collecting data on the nature and distribution of and participation in recreational prospecting in the eight new areas. It will build upon VEAC's investigation through further research. The review will include consultation with the relevant traditional owner groups. The outcome of this review will determine whether or not these additional areas will continue to be available for prospecting. The Department of Environment and Primary Industries will work with the Department of State Development, Business and Innovation and Parks Victoria to refine the details of this review.

The Government has taken this approach to acknowledge the work of VEAC's investigation and notes the view that while recreational prospecting can be low impact, it is clear that it can also result in damage to natural and cultural heritage values in waterways, and also in other vulnerable environments.

The recently released Victorian Waterway Management Strategy will direct investment into maintaining and improving the condition of river channels. The review recognises VEAC's findings that recreational prospecting has the potential to undermine this investment, with erosion and sedimentation causing damage in river channels and instream habitat.

CLARIFYING LEGISLATION

Recommendation 2

That the status of legislative provisions relating to activities associated with recreational prospecting be assessed, clarified and updated as follows:

- (a) that rules be clearly specified around the use of motorised equipment in processing gravel and other material for minerals excavated with hand tools
- (b) that rules be clearly specified for permissible volumes of material, and timeframes for repair of damage
- (c) that the status of excavation of gravels and soil and interference with vegetation associated with recreational prospecting in waterways be clearly specified in the by-laws or regulations arising from the Water Act related to activities and works on waterways
- (d) that the areas of restricted and unrestricted Crown land where recreational prospecting is permitted be clarified and appropriately gazetted and regulated

- (e) **that consideration be given to provisions to improve enforcement such as definitions of recreational prospecting and recreational prospecting equipment, prohibiting carriage of prospecting equipment in certain areas, and scaling of penalties relating to failure to ‘repair’ according to the severity of damage.**

The Government supports this recommendation in principle.

The use of mechanical devices for processing excavated material for recreational prospecting will be banned in parks reserved under the Victorian **National Parks Act 1975**, including the eight new areas proposed by VEAC. This ban does not include the use of metal detectors. Metal detectors can still be used in areas where recreational prospecting is permitted.

The Government will establish a working group led by the Department of Environment and Primary Industries to recommend the most appropriate way to ensure an effective compliance regime is established and that any necessary legislative amendments are made, including the ban on the use of mechanical devices as detailed. The working group will also consider the government response to recommendation 13 of the Economic Development and Infrastructure Committee’s inquiry into greenfields mineral exploration. The working group will be informed by the outcome of the review in response to recommendation one and will report to the Minister for Environment and Climate Change. The working group will also consist of the Department of State Development, Business and Innovation, Parks Victoria, Heritage Victoria, the Victorian Aboriginal Heritage Council and the Office of Aboriginal Affairs Victoria.

AUTHORISATIONS FOR PARKS VICTORIA EMPLOYEES

Recommendation 3

That relevant Parks Victoria staff are trained and authorised under section 91(b)(ii) of the Minerals Resources (Sustainable Development) Act 1990 to enforce provisions of that Act relating to the miner’s right.

The Government supports this recommendation in principle.

Implementation of this recommendation will depend on any relevant legislative amendments proposed by the working group (see recommendation 2). Parks Victoria will lead this with support from the Department of Environment and Primary Industries, the Department of State Development, Business and Innovation and Heritage Victoria.

RESOURCING

Recommendation 4

That sufficient resources be provided to enable implementation of these recommendations, if accepted, including enforcement, adequate on-ground supervision of recreational prospecting in the additional areas, improved information and communication, and research and monitoring.

The Government supports this recommendation in principle.

Should significant additional enforcement above current levels be proposed by the working group, it will be shared by the relevant departments and agencies. Parks Victoria will lead this with support from the Department of Environment and Primary Industries, the Department of State Development, Business and Innovation and Heritage Victoria.

RESEARCH INTO THE IMPACTS OF RECREATIONAL PROSPECTING

Recommendation 5

That further research into the potential effects of recreational prospecting in national and state parks should be undertaken and supported, with a priority on impacts on waterways in parks, impacts on ground flora, and impacts on Aboriginal and non-Aboriginal cultural heritage.

The Government supports this recommendation in principle.

Longer term research will be guided by the outcome of the twelve-month review of the new areas. The working group will be guided by the direction of any longer term research to be conducted. Further research will need to be targeted and cost effective, and commensurate with assessed risks.

The Department of Environment and Primary Industries will lead this with support from Parks Victoria, the Department of State Development, Business and Innovation, the Victorian Aboriginal Heritage Council, the Office of Aboriginal Affairs Victoria and Heritage Victoria.

INFORMATION AND COMMUNICATION

Recommendation 6

That improved community information is developed as follows:

- (a) **statewide and regional maps providing up-to-date information about public land where prospecting is permitted**
 - (b) **information clearly outlining heritage responsibilities for both Aboriginal and non-Aboriginal cultural heritage**
 - (c) **appropriate safety information;**
- and**
- (d) **in addition to printed material, that the information is also available through improved websites which also link to local information such as seasonal road closures and other road conditions, and other temporary access restrictions due to wildfires or planned burns, or to avoid disturbance to sensitive flora and fauna.**

The Government supports this recommendation in principle.

The working group will review and advise on need for each component of this recommendation. Communication material will need to be targeted, cost effective and commensurate with assessed risks. The Department of State Development, Business and Innovation will lead this with support from the Department of Environment and Primary Industries, Parks Victoria, the Victorian Aboriginal Heritage Council, the Office of Aboriginal Affairs Victoria and Heritage Victoria.

Water Act 1989

AUCTION OF WATER SHARES

The Gippsland and Southern Rural Water Corporation (trading as Southern Rural Water) is to auction water shares at 11.00 am, Wednesday 26 February 2014 at the Maffra Recreational Reserve, McLean Street, Maffra.

A total of 559.9 megalitres (ML) of high reliability water shares and 720.5 ML of low reliability water shares will be auctioned and will be sold to the highest bidder, subject to meeting the reserve price and subject to the conditions specified in this notice and those contained in the registration form.

The shares will be sold in 50 ML lots; however the successful bidder need not take the entire 50 ML. For example, the successful bidder may only want 20 ML of water. The remaining 30 ML from that lot will then be re-allocated to make up additional 50 ML lots.

Successful bidders will be required to sign a contract of sale and pay a 10% deposit at the auction. The final balance will be due by Friday 28 March 2014.

All water shares purchased at this auction will be assigned to the Thomson / Macalister system and will be subject to any seasonal allocations, supply and/or delivery conditions that may apply across the Macalister Irrigation Area. The current season's water allocation will be available for all water shares purchased. Normal trading rules will apply to these shares.

Those wishing to bid at the auction must register their intention with Southern Rural Water by the close of business on Tuesday 25 February 2014. Registration forms are available from Southern Rural Water at 88 Johnson Street, Maffra, or can be downloaded from www.srw.com.au. Registration is free of charge. Late registrations will not be accepted.

ORDER REVOKING AND DECLARING CONTROL AREAS IN VICTORIA FOR THE
PURPOSE OF PREVENTING THE SPREAD OF THE PEST GRAPE PHYLLOXERA

Order in Council

The Governor in Council makes the following Order.

Dated 4 February 2014

Responsible Minister:

PETER WALSH MLA

Minister for Agriculture and Food Security

YVETTE CARISBROOKE
Clerk of the Executive Council

1 Objective

The objective of this Order is to declare control areas in Victoria for the purpose of preventing the spread of the pest Grape Phylloxera into other parts of Victoria.

2 Authorising Provision

This Order is made under section 19 of the **Plant Biosecurity Act 2010**.

3 Commencement

This Order comes into operation on the day of its publication in the Government Gazette and expires 12 months from that date.

4 Revocation

The Order made under section 9 of the **Plant Health and Plant Products Act 1995** by Governor in Council on 20 April 2010 declaring areas in Victoria to be control areas for the purpose of preventing the spread of the pest Phylloxera as published in Government Gazette G16 on 22 April 2010 is **revoked**.

5 Definitions

grape phylloxera means the pest *Daktulosphaira vitifoliae* (Filch);

host material means any plant, plant part or plant product of the genus *Vitis*, including potted vines, cuttings, rootlings, grapes, grape marc, grape must, juice, germplasm and plant and soil samples for diagnostic purposes;

juice means fresh, unclarified or unfiltered juice, but not juice filtered or otherwise processed so as to achieve a maximum particle size of 50 microns.

6 Control area for preventing the entry of Phylloxera

For the purpose of preventing the spread of the pest Grape Phylloxera –

- (1) the area described in Schedule 1, known as the North East Phylloxera Infested Zone, is declared to be a control area;
- (2) the area described in Schedule 2, known as the Nagambie Phylloxera Infested Zone, is declared to be a control area;
- (3) the area described in Schedule 3, known as the Upton Phylloxera Infested Zone, is declared to be a control area;
- (4) the area described in Schedule 4, known as the Mooroopna Phylloxera Infested Zone, is declared to be a control area;
- (5) the area described in Schedule 5, known as the Maroondah Phylloxera Infested Zone, is declared to be a control area;
- (6) the area described in Schedule 6, known as the Whitebridge Phylloxera Infested Zone, is declared to be a control area.

7 Prohibitions

- (1) The removal from a control area of –
 - (a) any host material; or
 - (b) any agricultural equipment that has been used for the cultivation, harvesting, handling, transport or processing of plants, plant parts or plant products of the genus *Vitis*; or
 - (c) any package which has contained any plant, plant part or plant product of the genus *Vitis*; or
 - (d) soil originating from a property involved in the cultivation or handling of plants, plant parts or plant products of the genus *Vitis* –
is **prohibited**.
- (2) Subclause (1) does not apply in the case of any table grapes treated in a manner approved by the Director, Plant Biosecurity and Product Integrity or the Chief Plant Health Officer.
