EXEMPTION

Application No. H179/2016

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 89 of the **Equal Opportunity Act 2010** (the Act) by Aurora Support Services Inc (the applicant). The application for exemption is to enable the applicant to, from time to time, to enable it to advertise for and employ staff of a specified gender where that is desirable because of the nature of the duties which they are required to perform (the exempt conduct).

Upon reading the material filed in support of this application, including the affidavit of Sarah Russell, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 16, 18, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- The applicant is a community organisation which provides services and supports for people with disabilities aged from 6 to 76 years. Those services are provided via day time program activities designed for clients of particular ages, at particular stages of life and with particular interests.
- It is important and appropriate that the people with disabilities who attend the applicant's services have the opportunity to receive support from their own sex where that is necessary. This is particularly important in respect of –
 - Personal management and hygiene support (i.e. bathing, toileting, dressing, menstrual management, etc);
 - Feelings and friends programs;
 - Stress and anger management and behaviour intervention programs;
 - General role modelling between staff and clients; and
 - Friendship development.
- The disability service sector is generally a female dominated field and specific advertising methods are sometimes required to attract suitable male applicants in order to ensure the gender balance of the staff team so that the individual needs of clients can be met. The applicant believes that those services can be best provided by ensuring that staff of each gender are available to provide services and assist clients to fully participate in those services. From time to time, the applicant may need to employ male or female staff to ensure the required gender balance is met.
- On 9 November 2011, the Tribunal granted the applicant an exemption to the applicant (then known as the Whittlesea District Branch of the Helping Hand Association) allow it to engage in the exempt conduct. That exemption expires on 16 November 2016. I am not satisfied that the exempt conduct is a special measure under section 12 of the Act or that the exception contained in section 28 of the Act applies. Accordingly, after 16 November 2016, in the absence of an exemption the exempt conduct would amount to prohibited discrimination. I am satisfied that, having regard to the material set out above, it is appropriate that the applicant be able to employ staff of the gender which best meets the needs of its then client base.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equality and in particular the right to equal and effective protection against discrimination of male or female persons who would wish to be employed by the applicant when it is seeking staff not of their gender. I am satisfied that, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 16, 18, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 19 October 2021.

EXEMPTION

Application No. H184/2016

The Victorian Civil and Administrative Tribunal has considered an application pursuant to section 89 of the **Equal Opportunity Act 2010** (the Act) by Loddon Campaspe Centre Against Sexual Assault (the applicant). The application for exemption is to enable the applicant to, from time to time, advertise for and employ only men or women in counselling roles to work with male or female clients to ensure that client's preferences for receiving services from a male or female counsellor can be met (the exempt conduct).

Upon reading the material filed in support of this application, including the affidavit of Kate Wright, the Tribunal is satisfied that it is appropriate to grant an exemption from sections 16, 18, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption the Tribunal noted:

- The applicant provides services for people who have experienced sexual assault including counselling, advocacy and referrals to other support services. Those services are provided to adults, young people and children, both male and female. The applicant's data shows that 74% of its clients are female and that over 90% of the perpetrators of sexual assaults in relation to its clients are male.
- The applicant has funding for a limited number of counsellors. Those counsellors provide ongoing therapeutic counselling and advocacy services to victims and survivors and participate in an intake roster. The applicant's experience is that its clients usually express a preference for a counsellor of a particular gender and overwhelmingly the preference is for a female counsellor. From time to time the applicant has found it has insufficient counsellors to match the preferences of its clients. At times that has deterred clients from engaging in or completing counselling. The applicant wishes to employ counsellors of a particular gender from time to time to ensure that it can meet the preferences of its clients.
- No current exemption already applies to the exempt conduct and I am not satisfied that the exception contained in section 28 of the Act applies where the services offered are available to both males and females. In the absence of an exemption the exempt conduct would amount to prohibited discrimination.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equality and in particular the right to equal and effective protection against discrimination of male or female persons who would wish to be employed in a counsellor role when the applicant is seeking a counsellor not of their gender. I am satisfied that, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

The Tribunal hereby grants an exemption from the operation of sections 16, 18, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 19 October 2021.

11. *We* will base the *Standard Feed-in Tariff Credit* on a reading of your *NEM-Compliant Meter* that records the supply of electricity from *Your Facility* to the *Energy Distribution System*, and in any event, *we* will use *our* best endeavours to ensure that the meter is read at least once in any 12 month period.
12. You will allow *us*, the *Responsible Person*, the *Responsible Person's* representative or *our* representative safe, convenient and unhindered access to *Your Premises* and to the meter that records the supply of electricity from the *Small Renewable Energy Generation Facility* to the *Distribution System*, for the purpose of reading the meter and for connection, disconnection, reconnection, maintenance and repair. *We*, the *Responsible Person*, the *Responsible Person's* representative or *our* representative will carry or wear official identification and, on request, will show that identification to you.
13. *We* will not be in breach of clause 11 of this *Contract* if *we* are unable to read a meter in any relevant period as a result of you breaching clause 12 or clause 31, or if some other event outside of *our* control prevents *us* from reading the meter.
14. If *we* are not able to reasonably or reliably base a *Standard Feed-in Tariff Credit* on a reading of the meter, *we* will not apply a credit unless:
 - (a) the *Distributor* estimates the generation in accordance with applicable regulatory instruments; or
 - (b) *we*, at *our* discretion, estimate accounts (including debits and credits) in accordance with the provisions of your *Electricity Supply Contract* or any applicable law where the meter is faulty or consumption and energy flows (including import and export) are not properly recorded.

Purchase of Small Renewable Energy Generation Electricity from You

15. *We* will only purchase electricity received and measured on the meter (or estimated in accordance with clause 14). *We* have no obligation to pay or compensate you for any electricity exported from *Your Facility* that is rejected by the *Energy Distribution System* for any reason. *We* will notify you as soon as practicable after *we* become aware of any inability of the *Energy Distribution System* to accept *Small Renewable Energy Generation Electricity* generated by *Your Facility*.

Rates We Will Pay You for Your Small Renewable Energy Generation Electricity

16. *We* will credit you for the *Small Renewable Energy Generation Electricity* supplied by you under this *Contract* at the *Standard Feed-in Tariff* by applying the *Standard Feed-in Tariff Credit* as a credit to your bills under your *Electricity Supply Contract*.

17. We will apply the *Standard Feed-in Tariff Credit* at the same frequency as you are billed by us for electricity supplied to *Your Premises* pursuant to your *Electricity Supply Contract*.
18. If a bill that we issue under your *Electricity Supply Contract* has a credit balance as a result of the application of the *Standard Feed-in Tariff Credit*, the credit balance will be applied towards your next bill under your *Electricity Supply Contract*.
19. Any excess credit amount accrued under this *Contract* will be extinguished, and your entitlement to the excess credit ceases, on the date that electricity supply ceases under your *Electricity Supply Contract*.

GST and ABN

20. If the supply of the *Small Renewable Energy Generation Electricity* to us under this *Contract* is a taxable supply under the *GST Act*, and you have provided to us your ABN, all evidence that we reasonably require to establish that the supply is a taxable supply, and a valid tax invoice, we will increase the *Standard Feed-in Tariff Credit* to cover any GST payable on the supply.
21. If you do not quote your ABN, you warrant that your generation of electricity is for private and domestic purposes and not related to any business enterprise carried on by you and for this reason you have not provided an ABN to us. If we ask you to do so, you must complete a No ABN Withholding Declaration (the form of which is available from us on request).
22. Terms used in clauses 20 and 21 that are used in the *GST Act* have the same meaning as in that Act.

Review of Credit

23. If you think that your *Standard Feed-in Tariff Credit* may be incorrect, you may ask us to review it. We will review your *Standard Feed-in Tariff Credit* if you request that we do so. Any such review will be conducted in accordance with clause 29 of the *Energy Retail Code* or the relevant clause in any amended version of the *Energy Retail Code*.

Over-crediting and Under-crediting

24. If we over-credit you for electricity supplied by you, we will recover the over-credit in accordance with clause 30 of the *Energy Retail Code* or the relevant clause in any amended version of the *Energy Retail Code*.
25. If we under-credit you for electricity supplied by you, we will credit the amount under-credited to the next bill issued to you after we become aware of the under-crediting.

Variation to Standard Feed-in Tariff

26. To the extent permitted by law, we may vary the structure or amount of our *Standard Feed-in Tariff* after the commencement of this *Contract* (including, but not limited to, where this is required due to changes to the *Scheme*). If, after the commencement of this *Contract*, our *Standard Feed-in Tariff* is varied in a way that affects this *Contract*, we will give you notice of the variation as soon as practicable and in any event that notice will be given no later than the date that your next bill and/or credit is issued after the variation occurs.

Force Majeure

27. If a *Force Majeure Event* occurs and either you or we breach this *Contract* due to this event only, the breach is to be dealt with on the basis specified in clause 20 of the *Energy Retail Code* or the relevant clause in any amended version of the *Energy Retail Code*.

Provision of Information

28. On request, we will provide you with reasonable information on any of our other feed-in tariff offers for which you are eligible. The information will be given within 10 business days of your request, and if you request, in writing.
29. We will retain your historical *Standard Feed-in Tariff Credit* data for a minimum of two years, whether or not this *Contract* and your *Electricity Supply Contract* may have terminated.

30. If you request historical data relating to this *Contract* we will process that request in the same manner as a request for historical data relating to a supply of electricity to you pursuant to clause 28 of the *Energy Retail Code* or the relevant clause in any amended version of the *Energy Retail Code*.

Your Obligations

31. You must:
- (a) obtain and maintain all necessary licences, permits and/or approvals from all relevant authorities (including building and planning approvals) required for you to generate *Small Renewable Energy Generation Electricity*;
 - (b) maintain *Your Facility* (and all associated equipment) in good working and reliable order; and
 - (c) obtain prior written consent of the *Distributor* and *us* prior to making any changes to *Your Facility* (including operational, structural and functional changes), including any changes in *Your Facility's* generation capacity or export capacity.

Complaints Procedure

32. Should you wish to make a complaint in relation to this *Contract* we will address your complaint in accordance with *our* complaints handling procedures and in accordance with the *Energy Retail Code*. If you are not satisfied with the resolution you have the right to escalate the matter to a higher level within Momentum Energy or to the Energy and Water Ombudsman of Victoria.

Termination of Contract

33. This *Contract* will continue until the earlier of the following:
- (a) you terminate this *Contract* (which you may do at any time);
 - (b) we are no longer your electricity retailer at *Your Premises*;
 - (c) you no longer occupy *Your Premises*;
 - (d) if you and *we* enter a new feed-in contract at *Your Premises*, the expiry of any cooling-off period in respect of the new feed-in contract;
 - (e) if this *Contract* is terminated because you want to enter a feed-in contract with another retailer at *Your Premises*, the date when the other retailer becomes responsible for the feed-in contract;
 - (f) if an *Electricity Supply Contract* is terminated with regard to supply to *Your Premises* having been disconnected, the date when you no longer have a right under *the Energy Retail Code* to be reconnected;
 - (g) you are no longer eligible for the *Scheme* (whether due to a change in circumstances in relation to *Your Facility* or *Your Premises* or because of a change in the *Scheme*) or the *Scheme* is repealed; or
 - (h) *Your Facility* is decommissioned or removed.
34. If this *Contract* ends or is terminated, and you have not entered into a new feed-in contract with *us* or with another retailer, you must ensure that no *Small Renewable Energy Generation Electricity* is exported to the *Energy Distribution System* from *Your Facility* or *Your Premises*. We may take appropriate action (including arranging for the disconnection of the meter) to ensure that no *Small Renewable Energy Generation Electricity* is exported from *Your Facility*.

Liabilities

35. You are responsible for *Your Facility* and its use. You agree that *we* will not be liable for any loss, damage or injury that may be caused by *Your Facility* or its use.
36. You must install adequate protection devices to protect *Your Facility* from faults (including without limitation, power surges) on the *Energy Distribution System*. We will not accept liability for any loss or damage to *Your Facility* or for any injury.

37. We are not responsible for any act, omission, default or negligence of any third party including the *Distributor*.
38. To the extent permitted by law, you agree to:
- (a) release *us* from any and all liability to you, including where that liability arises from a claim brought by you against the *Distributor*, in respect of losses, costs and damages suffered by you, including without limitation, a failure resulting from the negligence of a *Distributor*; and
 - (b) indemnify *us* in respect of any liability that *we* have to any *Distributor* or a third party for liabilities, losses, costs and damages suffered or incurred by that *Distributor* or third party as a result of the *Small Renewable Energy Generation Electricity* supplied by you under this *Contract*.

Miscellaneous

39. Subject to clause 26, the terms and conditions of this *Contract* may only be varied by agreement in writing between *us* and you, unless a variation to the terms and conditions is required by law, or is reasonably necessary due to a change in the *Scheme* (in which case any replacement General Renewable Energy Feed-in Terms and Conditions published by *us* under the *Act* will apply under the *Contract* in place of these Terms and Conditions, with effect from when the replacement terms and conditions take effect, provided *we* notify you of the variation).
40. A notice, consent, document or other communication given by *us* under this *Contract* will be given in a manner specified in clause 3F of the *Energy Retail Code* or the relevant clause in any amended version of the *Energy Retail Code*.
41. You must not assign your rights and obligations pursuant to this *Contract* without obtaining *our* prior written consent. If *we* wish to assign *our* rights and obligations pursuant to this *Contract* with you, *we* will first obtain your consent, unless the assignment forms part of the sale or transfer of all or substantially all of *our* retail business.
42. You must notify *us* immediately if the generating capacity of your *Small Renewable Energy Generation Facility* changes. You acknowledge that you will no longer be eligible under the *Scheme* if the capacity of the facility becomes equal to or more than 100 kilowatts.
43. You acknowledge that in order to be eligible under the *Scheme*, you must be a ‘relevant generator’ as defined in section 40F of the *Act* (being, in general terms, a licensed generator or a person who is exempt from being licensed). You must notify *us* immediately if you are no longer a relevant generator.
44. You must inform *us* as soon as possible of any changes to your contact details.

Subordinate Legislation Act 1994

NOTICE OF PREPARATION OF REGULATORY IMPACT STATEMENT

Environment Protection (Scheduled Premises) Regulations

In accordance with section 11 of the **Subordinate Legislation Act 1994**, I, Lily D'Ambrosio, Minister for Energy, Environment and Climate Change, and Minister responsible for administering the **Environment Protection Act 1970**, give notice of the preparation of a regulatory impact statement in relation to the Environment Protection (Scheduled Premises) Regulations (proposed Regulations).

The reason for the proposed Regulations is to minimise risks to the environment and human health from industrial premises by prescribing premises which pose a significant risk as scheduled premises for the purposes of the **Environment Protection Act 1970**.

The objectives of the proposed Regulations are to:

- (a) specify the scheduled premises required to obtain a works approval and/or licence
- (b) specify the scheduled premises required to provide a financial assurance
- (c) specify the scheduled premises required to pay the landfill levy and/or environment protection levy
- (d) make consequential amendments to the Environment Protection (Fees) Regulations 2012.

Through consultation, industry sector research, and cost-benefit and break-even analysis, the regulatory impact statement finds the preferred option is to re-make the current Regulations, with amendments to:

- (a) require large reprocessors of electronic waste and glass to obtain a works approval and/or licence
- (b) limit works approval and licence exemptions for new sources of emissions to air of fine particles (PM_{2.5})
- (c) limit works approval exemptions for small municipal landfills to those in use prior to the commencement of the proposed Regulations
- (d) remove works approval and licensing requirements for premises that temporarily store asbestos and lower hazard liquid wastes under strict conditions
- (e) exempt potable water treatment plants and some modification works at sewage treatment plants from works approval requirements
- (f) clarify the descriptions and/or thresholds relating to organic waste processing (previously composting), intensive animal industries and beverage manufacturing
- (g) make minor and administrative changes in relation to the emergency storage of biomedical waste, energy from waste facilities, livestock saleyards and holding pens, fish farms, rendering facilities, contaminated soil facilities, seafood processing premises and printing facilities.

Public comment or submissions are invited on the regulatory impact statement and the proposed Regulations. Please submit comments or submissions by no later than 5 pm on Friday 16 December 2016 to: scheduled.premises@epa.vic.gov.au or to:

Scheduled Premises Regulatory Impact Statement,
care of Policy and Regulation Unit,
Environment Protection Authority,
GPO Box 4395,
Melbourne, Victoria 3001.

All submissions will be treated as public documents and published on EPA's website unless the submission clearly indicates the submission is confidential.
