INTERIM EXEMPTION

Application No. H91/2017

The Victorian Civil and Administrative Tribunal (the Tribunal) has received an application, pursuant to section 89 of the **Equal Opportunity Act 2010**, by BAE Systems Australia Limited (the Applicant). The application is for an exemption in the same terms as an exemption previously granted to the Applicant, which expired on 2 May 2017 (A305/2011).

Pending the hearing and determination of the current application for an exemption, the Applicant has sought an interim exemption on the same terms as that granted in 2012.

The application for exemption is to enable the Applicant to discriminate on the grounds of nationality against any member of its Victorian workforce or person wishing to join its Victorian workforce in relation to controlling access to specified technology or technical data for defence-related projects undertaken or to be undertaken by it, to the extent required to enable it to comply with its other statutory obligations and its contractual obligations. Details of the conduct in respect of which the exemption is sought are set out in the application filed with the Tribunal.

In this exemption –

‘Commission’ means the Victorian Equal Opportunity and Human Rights Commission.

‘Controlled information’ means information (including classified or sensitive information and technical data) to which the security requirements apply.

‘Controlled material’ means material (including equipment, technology, articles and services) to which the security requirements apply.

‘Discriminate’, ‘employee’ and ‘contract worker’ each have the meaning given in the EO Act.

‘EO Act’ means the **Equal Opportunity Act 2010** (Vic.).

‘Security requirements’ means any of the following –

- (a) requirements made by the Australian government, that government’s Department of Defence or any other department of that government under the Customs (Prohibited Exports) Regulations 1958 (Cth), the Defence Services Manual, or a term or condition of a licence or approval granted under those Regulations or under the **Customs Act 1901** (Cth), including requirements for personal security clearances;
- (b) the requirements of laws of the United States of America, including but not limited to, the International Trafficking in Arms Regulations and the Export Administration Regulations including requirements of any permit, licence or approval granted, or agreement made, under those laws;
- (c) Contractual requirements applying to the Applicant and relating to any of the requirements mentioned in paragraph (a) or (b).

‘Specified conduct’ means to discriminate on the ground of the nationality against any member of the Applicant’s Victorian workforce or anyone who wishes to join that workforce, in relation to defence-related projects undertaken or to be undertaken by the Applicant, and only to the extent required to enable the Applicant to comply with the security requirements, and includes but is not limited to the following conduct to the extent that it is required to enable the Applicant to comply with the security requirements –

- (a) requiring members or potential members of the Applicant’s Victorian workforce to provide details of their nationality and country of origin to enable the Applicant to determine whether they are permitted under the security requirements to work on certain defence-related projects or to have access to controlled material or controlled information;
- (b) identifying (by means of a badge, maintenance of a list or otherwise) those in its Victorian workforce permitted by virtue of their nationality to work on certain defence-related projects or have access to related controlled material or controlled information so as to distinguish them from those not so permitted;
- (c) preventing the release of controlled material or controlled information to members of that workforce on the basis of their nationality;
- (d) requiring members of that workforce to execute formal security agreements based on nationality;
- (e) restricting access to controlled material and controlled information connected with certain defence-related projects to particular members of that workforce based on their nationality;
- (f) restricting access to areas of its facilities connected with certain defence-related projects to particular members of its Victorian workforce based on their nationality;
- (g) rejecting applications to join its Victorian workforce in positions relating to certain defence-related projects based on the Applicant’s nationality, and taking into account a person’s nationality in determining who should be offered employment or contract work requiring access to controlled material or controlled information;
- (h) transferring members of its Victorian workforce from certain defence-related projects on the basis that, due to their nationality, the Applicant may not permit them to work on those projects, whether that transfer takes into account existing or changed nationality;
- (i) disclosing information about the nationality of members of its Victorian workforce to –
 - (i) the US Department of State;
 - (ii) the US Department of Commerce;
 - (iii) the US Federal Aviation Authority;
 - (iv) the Australian Department of Defence;
 - (v) any other organisation for which or on whose behalf or at whose request the Applicant undertakes work in respect of which the Applicant has (directly or indirectly) an obligation not to transfer defence-related information to non-Australian citizens.

‘US’ means United States of America.

‘Workforce’ of the Applicant means the Applicant’s employees and contract workers.

No exception or current exemption already applies to the exempt conduct and in the absence of an exemption the exempt conduct would amount to prohibited discrimination.

When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (Charter). Arguably, this exemption limits the right to equality and in particular the right to equal and effective protection against discrimination of certain members of the Applicant’s Workforce. I am satisfied that for the purposes of this interim exemption, the limit imposed by this exemption is reasonable and justified under the Charter.

Upon reading the Orders made on 12 March 2012 and the Reasons given for those Orders and material submitted in support of the current application, including the affidavit of Peter James Quinlivian, the Tribunal is satisfied that it is appropriate to grant an exemption on the same terms as the 2012 exemption for a limited period of four months to allow the current application to be heard and determined.

The Tribunal hereby grants an exemption to the Applicant from the operation of sections 16, 18, 21, 107 and 182 of the EO Act to enable the Applicant to engage in the specified conduct.

The exemption is to remain in force for a period of four months from the day on which notice of the exemption is published in the Government Gazette.

Essential Services Commission Act 2001PROPOSED AMENDMENTS TO THE ENERGY RETAIL CODE:
CUSTOMER PAYMENT DIFFICULTY

The Essential Services Commission (the Commission) proposes to amend the Energy Retail Code, issued under Part 2 of the **Essential Services Commission Act 2001** that applies to, and must be complied with by, all energy retailers in accordance with their retail licences, granted by the Commission.

In February 2015, the Victorian Government requested the Commission undertake an inquiry into best-practice financial hardship programs of Victorian energy retailers, following record high customer disconnection rates in 2013–14. The Commission published its final report regarding the inquiry, titled 'Supporting Customers, Avoiding Labels – Energy Hardship Inquiry Final Report', in March 2016.

The final report found that energy company hardship programs are not preventing customers from building up large debts or being disconnected, customers are not getting the assistance they need and many of the current rules cannot be enforced. As a result, many Victorians are falling deeper into debt and disconnection may not be occurring as a last resort.

Following consultation with industry and stakeholders, the Commission proposes to amend the Energy Retail Code Version 11 (the Code), to set out the minimum standards of assistance to which residential customers facing payment difficulty are entitled, so that disconnection of a residential customer is a measure of last resort.

In accordance with section 8A(1)(e) of the **Essential Services Commission Act 2001**, the Commission has had regard to, among other things, the benefits and costs for: consumers and users of products or services (including low income and vulnerable consumers); and regulated entities.

Clear and stricter minimum standards will ensure that assistance is predictable, meaningful, and is provided equitably to all customers. The assessment found that the costs and benefits of the proposed amendments are both tangible and intangible. Overall, the proposed amendments are expected to result in reduced costs to obtain and deliver assistance that helps customers to avoid and manage arrears and reduce the cost of their energy use.

The Commission's preliminary judgement is that the proposed amendments to the Code represent a practical and cost effective way to address the problem that customers facing payment difficulty are not getting equitable access to meaningful assistance.

The proposed amendments to the Code are set out in the Commission's draft decision published on 9 May 2017, which can be viewed at www.esc.vic.gov.au/paymentdifficulties. The draft decision is accompanied by two independent reports on the costs and benefits of the proposed amendments which are also available at www.esc.vic.gov.au/paymentdifficulties

The Commission has decided to hold a public forum on the draft decision on Thursday 1 June. Details will be published on the Commission's website in due course.

Submissions on the Commission's analysis and draft decision are invited by 16 June.
