- 6.3.2 if you wish to increase the renewable energy generating capacity of your generator (including where the generating capacity will exceed 100 kilowatts).

7. YOUR RIGHTS WITH RESPECT TO THIS AGREEMENT

7.1 You may ask us to:

- 7.1.1 review your bill;
- 7.1.2 provide you with historical data relating to this agreement for a period of up to two (2) years; or
- 7.1.3 provide you with information on any feed-in tariff offers that we may from time to time make.

We will process these requests in accordance with the Code and provide the information to you within 10 business days.

7.2 You must pay our reasonable costs of providing any information that you have sought from us under this clause unless your request is the first request that you have made within a 12 month period and the information sought relates to account or metering information that is less than two (2) years old, in which case the information will be provided free of charge.

8. CHANGE OF TARIFF

- 8.1 If under your supply agreement you currently purchase electricity from us at a tariff that is an excluded tariff, you will be required to change the tariff under which you are supplied electricity to an alternative tariff.
- 8.2 If clause 8.1 applies, you may select any supply tariff that is otherwise available to you and is not an excluded tariff.

9. FEED-IN CREDITS

9.1 We will credit your feed-in credits for the relevant period against charges payable by you under your supply agreement for the relevant billing cycle.

- 9.2 The feed-in credits created by your generator for any billing cycle will be calculated in accordance with the following formula:

feed-in credit = feed-in rate × renewable electricity supplied

Where:

feed-in rate means the cents per kilowatt-hour rate set by the Essential Services Commission from time to time.

renewable electricity supplied means the actual amount (measured in kilowatt hours) of renewable electricity supplied to the distribution system by you in the relevant billing cycle, as recorded by the meter or as may be determined under clause 9.3.

- 9.3 If we have been unable to calculate your renewable electricity supplied for a relevant billing cycle based on a reading of your meter, the renewable electricity supplied for that period will be zero unless your distributor estimates the generation in accordance with the applicable regulations.
- 9.4 If the amount you owe us for a billing cycle is less than the amount of your feed-in credits the balance of the feed-in credits will remain as a credit on your next bill. No interest may be charged by you in relation to any feed-in credits that you may have accumulated from time to time under this agreement.
- 9.5 If, at the time this agreement ends or is terminated under clause 4.3, your feed-in credits accumulated under this agreement exceed any amount owing to us under your supply agreement, we will pay to you the amount of the excess feed-in credits.

10. METERS

- 10.1 You must allow safe and unhindered access to your premises for the purposes of reading and maintaining your meter (where relevant).
- 10.2 It is your obligation to ensure that any data produced by the meter complies with the applicable regulations.
- 10.3 We will use our best endeavours to ensure that your meter is read at least once every 12 months. We will not be in breach of this requirement if we have been unable to comply because you have failed to provide us or our representative with safe, convenient and unhindered access to the supply address and to the meter for the purpose of reading the meter and for connection, disconnection, reconnection, maintenance and repair.
- 10.4 You acknowledge that failure to provide access to your meter for a period of 12 months or more can result in a suspension of the operation of this agreement until such time as a reliable reading of your meter can be obtained.

11. BILLING

- 11.1 You will not receive a separate bill or statement as a result of entering into this agreement. Any feed-in credits accumulated by you under this agreement will be set off against the bill that you receive pursuant to your supply agreement.
- 11.2 Your bill will clearly itemise:
- the amount of renewable electricity supplied by you to us during the relevant period;
 - the amount of feed-in credits accumulated by you;
 - the amount (if any) of excess feed-in credits remaining on your account; and
 - any charges that we have applied to your account or other adjustments that we have made.

12. ADDITIONAL COSTS

- 12.1 You acknowledge that you may be required to pay the following costs to us as a result of entering into this agreement:
- costs associated with the installation, maintenance of equipment necessary to connect your generator and allow the electricity it provides or other technical support required by us or by your distributor under this agreement; and

- (b) any charges imposed on us by the distributor as a result of the metering services supplied by the distributor.

12.2 If work needs to be undertaken that may lead to costs of the type described in clause 12.1 being incurred, you may ask us to specify what those costs are before the work is undertaken.

13. UNDERCREDITING AND OVERCREDITING

13.1 If we have applied fewer feed-in credits to your account than we should have done under the terms of this agreement, we will credit those amounts to your account to your next bill in accordance with clause 31 of the Code.

13.2 If we have applied more feed-in credits to your account than we were obliged to do under the terms of this agreement, we may recover the over-credited amount from you. If we recover an undercharged amount from you, we will follow the procedures set out in clause 30 of the Code.

14. GST

14.1 Any consideration or amount payable under this agreement including any non-monetary consideration, is inclusive of GST unless stated otherwise.

14.2 Subject to clause 14.3, if we become liable to pay GST in connection with this agreement you agree to:

- (a) pay to us in addition to any other amounts that may be due to us under this agreement or under the supply agreement, an additional amount equal to the amount of that GST;
- (b) you must pay such an amount to us within 14 days of being provided with a valid tax invoice by us;

14.3 If any GST payable in relation to a supply made under this agreement varies from the additional amount that is paid by you under clause 14.2 so that a further amount of GST is payable in relation to the supply or a refund credit of GST is obtained in relation to the supply, then we will provide a corresponding refund or credit to, or will be entitled to receive a corresponding amount from, you.

14.4 Subject to the foregoing provisions of this clause, you are solely liable for payment of all taxes which may be incurred as a result of this agreement and you will reimburse us on demand for any such liabilities that we may incur.

14.5 If you are a business customer you must supply us with a valid ABN in respect of this agreement.

14.6 Unless you supply us with a valid ABN under clause 14.5 you warrant to us that your generation of electricity by your generator is for private and domestic purposes and is not related in any way to any business purposes carried on by you or any other person. You undertake to indemnify us for all loss, damage, cost and expense that may arise from any breach of the foregoing warranty.

15. INTERRUPTION, REDUCTION OR DISCONNECTION

15.1 All of the terms under the supply agreement that relate to the interruption, disruption, reduction or disconnection of the supply of electricity to you also apply to this agreement.

15.2 You agree that the connection of your generator, and your ability to supply us with renewable electricity may be interrupted, discontinued or restricted for the same reasons set out in your supply agreement.

16. FORCE MAJEURE

16.1 If either party is in breach of this agreement and that breach is caused by a force majeure event, the obligations of the defaulting party under this agreement are suspended to the extent to which they are affected by the force majeure event as long as that event continues.

16.2 A party that seeks to rely upon clause 16.1 must try to remove, overcome or minimise the effects of the force majeure event as quickly as possible.

16.3 Nothing in this clause 16 varies or excludes the operation of section 117 of the **Electricity Industry Act 2000** (Vic.) or section 78 of the National Electricity Law.

17. GENERAL

17.1 Liability

We do not accept any responsibility for any risks or liabilities associated with the operation of your generator including its control, use, maintenance or connection to the distributor's distribution system.

17.2 Assignment

- (a) You must not novate this agreement or assign, transfer or deal with the rights created under this agreement without our written consent.
- (b) We may only assign our rights and obligations under this agreement without your consent if the assignment forms part of the transfer to a third party of all or substantially all of our retail business.

17.3 Notices

A notice, consent, document or other communication given must be in writing and given by hand, by fax, by mail or by email unless this agreement provides to the contrary.

17.5 Waiver

Any failure by us to exercise any of our rights or powers under this agreement is not a waiver of those rights or powers unless we agree otherwise in writing.

17.6 Variations

Subject to anything to the contrary in this agreement:

- (a) we may vary this agreement by publishing new terms and conditions (which may or may not include a new tariff) in accordance with section 40G of the **Electricity Industry Act 2000** (Vic.) (where we vary your tariff, we will notify you as soon as practicable and in any event no later than your next bill); or
- (b) the parties may vary this agreement by agreement in writing.

17.7 Severance

If the whole or any part of a provision of this agreement is void, unenforceable or illegal that provision shall, so far as is possible, be severable. The remainder of this agreement shall continue to operate with full force and effect and the validity and enforceability of the remainder shall be unaffected.

17.8 Entire agreement

- (a) This agreement sets out the entirety of the agreement between us for the supply of renewable electricity by you to us and you acknowledge that you have not relied on any representation, inducement, warranty or promise which is not contained in this document.
- (b) You acknowledge that the supply agreement deals exclusively with the sale of electricity by us to you and that the supply agreement is separate from this agreement.
- (c) If and to the extent that any matter is required as a matter of law to form part of this agreement that is not included expressly in these terms and conditions the relevant provisions shall be implied into this agreement as if they were expressly incorporated.

17.9 Changes in the laws

It is acknowledged that there may be changes in the laws that govern the sale and supply of electricity (including renewable electricity) which may affect the operation of this agreement. It is agreed that if in our reasonable view the changes to the laws materially alter the rights that subsist under this agreement we may amend this agreement to take those changes into account.
