TERMS AND CONDITIONS FOR STANDARD RETAIL CONTRACTS

This contract is about the sale of energy to you as a small customer at your premises. It is a standard retail contract that starts without you having to sign a document agreeing to these terms and conditions.

In addition to this contract, the energy laws and other consumer laws also contain rules about the sale of energy and we will comply with these rules in our dealings with you. For example, the National Energy Retail Law and the National Energy Retail Rules ('the Rules') set out specific rights and obligations about energy marketing, payment methods and arrangements for customers experiencing payment difficulties.

Note for Victorian customers: For Victorian customers, until the National Energy Retail Law and the National Energy Retail Rules are adopted in Victoria (referred to as 'NECF implementation in Victoria'), the energy laws applicable in Victoria are the **Electricity Industry Act 2000**, the **Gas Industry Act 2001** and the Energy Retail Code made by the Essential Services Commission. For customers in Victoria, prior to NECF implementation in Victoria all references to the National Energy Retail Law and Rules in this contract should be read as references to the Energy Retail Code unless stated otherwise.

You also have a separate contract with your distributor, called a customer connection contract. The customer connection contract deals with the supply of energy to your premises and can be found on your distributor's website.

Note for Victorian customers: There are no gas customer connection contracts in Victoria.

More information about this contract and other matters is on our website [agl.com.au] [powerdirect.com.au].

1. THE PARTIES

This contract is between:

[AGL] [Powerdirect] who sells energy to you at your premises (in this contract referred to as 'we', 'our' or 'us'); and

You, the customer to whom this contract applies (in this contract referred to as 'you' or 'your').

2. DEFINITIONS AND INTERPRETATION

(a) Terms used in this contract have the same meanings as they have in the National Energy Retail Law and the Rules. However for ease of reference, a simplified explanation of some terms is given at the end of this contract.

(b) Where the simplified explanations given at the end of this contract differ from the definitions in the National Energy Retail Law and the Rules, the definitions in the National Energy Retail Law and the Rules prevail.

3. DO THESE TERMS AND CONDITIONS APPLY TO YOU?

3.1 These are our terms and conditions

This contract sets out the terms and conditions for a standard retail contract for a small customer under the National Energy Retail Law and the Rules.

3.2 Application of these terms and conditions

These terms and conditions apply to you if:

- (a) you are a residential customer; or
- (b) you are a business customer who is a small customer; and
- (c) you request us to sell energy to you at your premises; and
- (d) you are not being sold energy for the premises under a market retail contract.

3.3 Electricity or gas

Standard retail contracts apply to electricity and gas, but some terms may be expressed to apply only to one or the other. If we are your retailer for both electricity and gas, you have a separate contract with us for each of them.

4. WHAT IS THE TERM OF THIS CONTRACT?

4.1 When does this contract start?

This contract starts on the date you satisfy any pre-conditions set out in the National Energy Retail Law and the Rules, including giving us acceptable identification and your contact details for billing purposes.

4.2 When does this contract end?

- (a) This contract ends:
 - (i) if you give us a notice stating you wish to end the contract – subject to paragraph (b), on a date advised by us of which we will give you at least 5 but no more than 20 business days notice; or

- (ii) if you are no longer a small customer –
 - (A) subject to paragraph (b), on a date specified by us, of which we will give you at least 5 but no more than 20 business days notice; or
 - (B) if you have not told us of a change in the use of your energy – from the time of the change in use; or
 - (iii) if we both agree to a date to end the contract – on the date that is agreed; or
 - (iv) if you start to buy energy for the premises from us or a different retailer under a customer retail contract – on the date the customer retail contract starts; or
 - (v) if a different customer starts to buy energy for the premises – on the date that customer’s contract starts; or
 - (vi) if the premises are disconnected and you have not met the requirements in the Rules for reconnection – 10 business days from the date of disconnection.
- (b) If you do not give us safe and unhindered access to the premises to conduct a final meter reading (where relevant), this contract will not end under paragraph (a)(i) or (ii) until we have issued you a final bill and you have paid any outstanding amount for the sale of energy.
 - (c) Rights and obligations accrued before the end of this contract continue despite the end of the contract, including any obligations to pay amounts to us.

4.3 Vacating your premises

- (a) If you are vacating your premises, you must provide your forwarding address to us for your final bill in addition to a notice under clause 4.2(a)(i) of this contract.
- (b) When we receive the notice, we must use our best endeavours to arrange for the reading of the meter on the date specified in your notice (or as soon as possible after that date if you do not provide access to your meter on that date) and send a final bill to you at the forwarding address stated in your notice.
- (c) You will continue to be responsible for charges for the premises until your contract ends in accordance with clause 4.2 of this contract.

5. SCOPE OF THIS CONTRACT

5.1 What is covered by this contract?

- (a) Under this contract we agree to sell you energy at your premises. We also agree to meet other obligations set out in this contract and to comply with the energy laws, including, where we sell you electricity, the provision, installation and maintenance of your meter.
- (b) In return, you agree:
 - (i) to be responsible for charges for energy supplied to the premises until this contract ends under clause 4.2 even if you vacate the premises earlier; and
 - (ii) to pay the amounts billed by us under this contract; and
 - (iii) to meet your obligations under this contract and the energy laws.

5.2 What is not covered by this contract?

This contract does not cover the physical connection of your premises to the distribution system, including metering equipment and the maintenance of that connection and the supply of energy to your premises. This is the role of your distributor under a separate contract called a customer connection contract.

Note for Victorian customers: There are no gas customer connection contracts in Victoria.
--

6. YOUR GENERAL OBLIGATIONS

6.1 Full information

You must give us any information we reasonably require for the purposes of this contract. The information must be correct, and you must not mislead or deceive us in relation to any information provided to us.

6.2 Updating information

You must tell us promptly if information you have provided to us changes, including if your billing address changes or if your use of energy changes (for example, if you start running a business at the premises).

6.3 Life support equipment

- (a) If a person living at your premises requires life support equipment, you must register the premises with us or your distributor. To register, you will need to give written confirmation from a registered medical practitioner of the requirement for life support equipment at the premises.
- (b) You must tell us or your distributor if the life support equipment is no longer required at the premises.

6.4 Obligations if you are not an owner

If you cannot meet an obligation relating to your premises under this contract because you are not the owner you will not be in breach of the obligation if you take all reasonable steps to ensure that the owner or other person responsible for the premises fulfils the obligation.

7. OUR LIABILITY

- (a) The quality and reliability of your electricity supply and the quality, pressure and continuity of your gas supply is subject to a variety of factors that are beyond our control as your retailer, including accidents, emergencies, weather conditions, vandalism, system demand, the technical limitations of the distribution system and the acts of other persons (such as your distributor), including at the direction of a relevant authority.
- (b) To the extent permitted by law, we give no condition, warranty or undertaking, and we make no representation to you, about the condition or suitability of energy, its quality, fitness for purpose or safety, other than those set out in this contract.
- (c) Unless we have acted in bad faith or negligently, the National Energy Retail Law excludes our liability for any loss or damage you suffer as a result of the total or partial failure to supply energy to your premises, which includes any loss or damage you suffer as a result of the defective supply of energy.

Note for Victorian customers: Prior to NECF implementation in Victoria, the reference to the NERL in clause 7(c) is a reference to, in the case of electricity, section 120 of the National Electricity Law as set out in the Schedule to the **National Electricity (South Australia) Act 1996** or, in the case of gas, to section 232 of the Gas Industry Act or section 33 of the **Gas Safety Act 1997**.

8. PRICE FOR ENERGY AND OTHER SERVICES

8.1 What are our tariffs and charges?

- (a) Our tariffs and charges for the sale of energy to you under this contract are our standing offer prices. These are published on our website and include your distributor's charges.
- (b) Different tariffs and charges may apply to you depending on your circumstances. The conditions for each tariff and charge are set out in our standing offer prices.

Note: We do not impose any charges for the termination of this contract.

8.2 Changes to tariffs and charges

- (a) If we vary our standing offer prices, we will publish the variation in a newspaper and on our website at least 10 business days before it starts. We will also include details with your next bill if the variation affects you.
- (b) Our standing offer prices will not be varied more often than once every 6 months.

8.3 Variation of tariff due to change of use

If a change in your use of energy means you are no longer eligible for the particular tariff you are on, we may transfer you to a new tariff under our standing offer prices:

- (a) if you notify us there has been a change of use – from the date of notification; or
- (b) if you have not notified us of the change of use – retrospectively from the date the change of use occurred.

8.4 Variation of tariff or type of tariff on request

- (a) If you think you satisfy the conditions applying to another tariff or type of tariff under our standing offer prices, you can ask us to review your current circumstances to see whether that tariff or type of tariff can apply to you.
- (b) If you meet the requirements for another tariff or type of tariff and request us to do so, we must:
 - (i) transfer you to that other tariff within 10 business days; or
 - (ii) transfer you to that other type of tariff from the date the meter is read or the type of meter is changed (if needed).

8.5 Changes to tariffs or type of tariff during a billing cycle

If a tariff applying to you changes during a billing cycle, we will calculate your next bill on a proportionate basis.

8.6 GST

- (a) Amounts specified in the standing offer prices from time to time and other amounts payable under this contract may be stated to be exclusive or inclusive of GST. Paragraph (b) applies unless an amount is stated to include GST.
- (b) Where an amount paid by you under this contract is payment for a ‘taxable supply’ as defined for GST purposes, to the extent permitted by law, that payment will be increased so that the cost of the GST payable on the taxable supply is passed on to the recipient of that taxable supply.

9. BILLING**9.1 General**

We will send a bill to you as soon as possible after the end of each billing cycle. We will send the bill:

- (a) to you at the address nominated by you; or
- (b) to a person authorised in writing by you to act on your behalf at the address specified by you.

9.2 Calculating the bill

Bills we send to you (‘your bills’) will be calculated on:

- (a) the amount of energy consumed at your premises during the billing cycle (using information obtained from reading your meter or otherwise in accordance with the Rules); and
- (b) the amount of fees and charges for any other services provided under this contract during the billing cycle; and

- (c) the charges payable for services provided by your distributor, including connection charges if you have asked for a new connection or connection alteration and have not made alternative arrangements with your distributor.

9.3 Estimating the energy usage

- (a) We may estimate the amount of energy consumed at your premises if your meter cannot be read, if your metering data is not obtained (for example, if access to the meter is not given or the meter breaks down or is faulty), or if you otherwise consent.

Note for Victorian customers: In Victoria, a retailer must obtain a customer's 'explicit informed consent' to base the customer's bill on an estimation, unless the meter cannot be read or the metering data is not obtained.

- (b) If we estimate the amount of energy consumed at your premises to calculate a bill, we must:
 - (i) clearly state on the bill that it is based on an estimation; and
 - (ii) when your meter is later read, adjust your bill for the difference between the estimate and the energy actually used.

Electricity Industry Act 2000**MOMENTUM ENERGY (ABN 42 100 569 159)**

Pursuant to sections 35 and 39 of the **Electricity Industry Act 2000** (Vic), Momentum Energy ABN 42 100 569 159 advises the following Victorian Electricity Standing Offer Tariffs to residential and small business customers become effective 1 January 2019, until such time as the tariffs are varied. The weighted average tariff decreases for affected domestic electricity customers is a 1% decrease and the weighted average tariff decreases for affected business electricity customers is a 2% decrease. The main reason for the decrease are changes in the distribution, transmission and wholesale pass through costs associated with retailing electricity to homes and businesses.

MOMENTUM ENERGY (ABN 42 100 569 159)

Victorian Standing Offer Tariffs – Gas

Pursuant to sections 42 and 46 of the **Gas Industry Act 2001**, Momentum Energy ABN 42 100 569 159 advises the following Victorian Gas Standing Offer Tariffs to residential and small business customers become effective 1 January 2019, until such time as the tariffs are varied. The weighted average tariff increase for affected domestic gas customers is a 6% increase and the weighted average tariff increase for affected business gas customers is a 9% increase. The main reason for the increase are changes in the distribution, transmission and wholesale pass through costs associated with retailing gas to homes and businesses.

Applicability of rates:

Rates subject to confirmation of distribution zone, meter type and configuration, and details of supply address. Guidance regarding applicability is set out below.

Single Rate tariffs:

These tariffs consist of a daily supply charge, and then a per kWh energy rate which is the same at all times of the day, 24 hours a day. These tariffs do not have any 'Off Peak' rates but Controlled Load rates may apply. This tariff is the basic network tariff for general usage for most cases.

Controlled Load rates:

Rates for time switch controlled hot water services, space heaters and other dedicated loads, generally controlled between 11 pm and 7 am.

Time of Use tariffs:

These tariffs consist of a daily supply charge, and different per kWh energy rates for peak times and off peak times. Peak times are generally between 7 am and 11 pm (Monday to Friday for 5 Day TOU tariffs and all week for 7 Day TOU tariffs), and all other times are off peak.

Flexible tariffs:

These tariffs include a 'shoulder' per kWh energy rate in addition to peak and off peak rates. For these tariffs, peak times are generally between 3 pm and 9 pm Monday to Friday, off peak times are generally between 10 pm and 7 am all week, and all other times are shoulder times.

Demand based tariffs:

If a demand based distribution tariff is applicable, pricing will include a demand charge in addition to the daily supply and c/kWh charges, to reflect applicable distributor charges.

Residential Demand:

Summer Demand Charge (1 Dec to 31 Mar): based on monthly maximum demand between 3 pm and 9 pm local time Mon–Fri. Non–Summer Demand Charge (1 Apr to 30 Nov): based on monthly maximum demand occurring between 3 pm and 9 pm local time Mon–Fri. Minimum monthly chargeable demand of 1.5kW for United Energy distribution areas.

Business Demand:

Summer Demand Charge (1 Dec to 31 Mar): based on monthly maximum demand between 10 am and 6 pm local time Mon–Fri (except AusNet which is 3 pm–9 pm Mon–Fri and Jemena which is 10 am–8 pm Mon–Fri). Non–Summer Demand Charge (1 Apr to 30 Nov) based on monthly maximum demand occurring between 10 am and 6 pm local time Mon–Fri (except AusNet which is 3 pm–9 pm Mon–Fri and Jemena which is 10 am–8 pm Mon–Fri).

AusNet Services Business Multi Rate Seasonal:

Summer Peak: Dec–Mar from Monday to Friday between 2 pm–6 pm

Summer Shoulder: Dec–Mar from Monday to Friday between 12 pm–2 pm and 6 pm to 8 pm

Winter Peak: Jun–Aug from Monday to Friday between 4 pm to 8 pm

Off Peak: all other times.
