**Criteria for computer-generated prescriptions**

1. The computer program will restrict access to the prescription-printing module to persons authorised to issue prescriptions.

2. Prescriptions will be generated only by persons authorised to issue prescriptions.
3. The prescription will be either printed with the prescriber's name, address and contact telephone number or with the address and contact telephone number of the practice.
4. The prescription will be personalised to the prescriber by the addition at the time of printing of the name of the prescriber below the last prescribed item when the prescription is being generated.
5. The prescriber will sign, in his or her own handwriting, the prescription form beneath and as near as practicable to the last item prescribed on the form.
6. The prescription will not be pre-signed.
7. The total number of items prescribed on the prescription will be either stated on the prescription or the area on the prescription below the prescriber's signature will be scored, hatched or otherwise marked in some way to prevent any other item being printed in that area.
8. The particulars of any prescription issued will be included in the clinical or medication record of the person or animal for whom the prescription was generated.
9. The clinical or medication record of the person or animal for whom the prescription was issued will be preserved for at least one year from the date on which the prescription was generated and will be capable of being accessed when required.
10. Alterations will not be made to printed prescriptions. Where alteration is required a new printed prescription will be generated and the other prescription will be immediately destroyed.

#### **Drugs of dependence**

In addition, in the case of drugs of dependence (which includes all Schedule 8 poisons and some Schedule 4 poisons):

1. In addition to the printed particulars on the prescription, the prescriber will include in his/her own handwriting, the following particulars:
  - the name of the substance or the proprietary product containing it;
  - the strength where more than one strength is available;
  - the quantity being prescribed (in both words and figures for Schedule 8 poisons);
  - the number of repeats authorised (in both words and figures for Schedule 8 poisons).

The software program will automatically indicate that such handwriting is required.

#### **Notes:**

- The criteria for computer-generated prescriptions may vary in different states. Medical practitioners, veterinary practitioners, dentists, nurse practitioners, authorised midwives, authorised optometrists and authorised podiatrists are strongly advised to seek, prior to purchase, verification from the software supplier that their software enables compliance with the specified criteria.
- As of 20 August 2009 for drugs of dependence it is no longer a criterion that only one item appears on a prescription.

This approval supersedes the Secretary Approval Criteria for computer-generated prescriptions dated 20 August 2009.

This Approval takes effect from the date of publication in the Victoria Government Gazette.

## DRUGS, POISONS AND CONTROLLED SUBSTANCES REGULATIONS 2017

## Approval under Regulation 162

Pursuant to Regulation 162 of the Drugs, Poisons and Controlled Substances Regulations 2017, I, Anna Peatt, Chief Officer, Drugs and Poisons Regulation and Delegate of the Secretary of the Department of Health and Human Services, hereby approve the criteria for e-prescriptions.

**Criteria for e-Prescriptions**

1. The software issuing electronic prescriptions will have the relevant roles defined, with access rights that will only allow authorised persons to generate electronic prescriptions for all medications.
2. The digital signature of the authorised prescriber must be included in the electronic prescription content. The generation of the digital signature for an electronic prescription must follow the following criteria:
  - The prescriber must possess a credential (private key) that asserts the identity of the prescriber.
  - The prescribing software must display the prescription and obtain a final approval from the prescriber prior to generating a prescription for electronic distribution.
  - The prescribing software must re-authenticate the prescriber's credentials at the point at which an electronic prescription for any medication, including drugs of dependence (which includes all Schedule 8 poisons and some Schedule 4 poisons), is generated.
3. Electronic prescriptions generated by the prescription software will produce the script information in an electronic format that is aligned with national medications messaging standards or related Australian Technical Specifications. The standards must include secure messaging (such as encryption), and application level acknowledgement, indicating positive or negative receipt of this information.
4. The electronic transfer of a prescription (e-Prescribing) must use national standards for clinical information, terminology and medications in both prescribing and dispensing organisations. The exchange of electronic prescription detail should include the following capabilities:
  - It will provide an indirect communication path between the prescriber and the dispenser(s) in which the dispenser(s) can be selected by the individual (or their agent) at any time after the prescription is created.
  - It will provide a single point of control for each prescription that allows the prescriber to electronically cancel an electronic prescription. From the time of cancellation, the dispenser(s) system will inactivate the dispensing of any prescription items that have not been actioned.
  - It will manage the security of the electronic prescription records that are distributed, including taking reasonable measures to apply current and future principles to:
    - Prevent the disclosure of information in the prescription record to unauthorised parties.
    - Ensure that the view of the prescription in both the prescribing and dispensing systems is consistent.
    - Protect against fraudulent electronic prescriptions.
5. The particulars of any electronic prescription issued will be included in the clinical or medication record of the person or animal for whom the electronic prescription was generated.
6. The clinical or medication record of the person or animal for whom the prescription was issued will be preserved for at least one year from the date on which the prescription was generated and will be capable of being accessed when required.

**Road Safety Act 1986****ORDER DECLARING OFFENCES AGAINST THE LAWS OF OTHER STATES AND TERRITORIES TO BE CORRESPONDING INTERSTATE DRINK-DRIVING OFFENCES**

I, Luke Donnellan, Minister for Roads and Road Safety, make the following Order under section 25(1) of the **Road Safety Act 1986**:

**1. Purpose**

The purpose of this Order is to declare that offences against the laws of another State or a Territory correspond to Victorian drink-driving offences for the purpose of the **Road Safety Act 1986**.

**2. Background**

- (1) Section 25(1) of the **Road Safety Act 1986** provides that the Minister administering that Act, by Order published in the Government Gazette, may declare that an offence against a law of another State or a Territory (a ‘corresponding interstate drink-driving offence’) corresponds to a Victorian drink-driving offence specified in the Order.
- (2) Section 25(2) of the **Road Safety Act 1986** provides that a ‘Victorian drink-driving offence’ –
  - (a) means –
    - (i) an offence under section 49(1) of the **Road Safety Act 1986**, other than an offence under section 49(1)(a) of the **Road Safety Act 1986** involving only a drug or an offence under section 49(1)(ba), (bb), (h) or (i) of the **Road Safety Act 1986**; or
    - (ii) an offence referred to in section 89(1) of the **Sentencing Act 1991** where the court makes a finding that the offence was committed while the person was under the influence of alcohol, or both alcohol and a drug which contributed to the offence; but
  - (b) does not include an accompanying driver offence (which is an offence committed by a person who is taken to be in charge of a motor vehicle by reason of the operation of section 3AA(1)(d) of the **Road Safety Act 1986**).
- (3) Section 89(1) of the **Sentencing Act 1991** refers to a ‘serious motor vehicle offence’ which is defined in section 87P of that Act. Serious motor vehicle offences include –
  - (a) manslaughter arising out of the driving of a motor vehicle; or
  - (b) an offence under section 24 of the **Crimes Act 1958** in respect of serious injury arising out of the driving of a motor vehicle (negligently causing serious injury); or
  - (c) an offence under section 318 of the **Crimes Act 1958** arising out of the driving of a motor vehicle other than the operating of a vessel (culpable driving causing death); or
  - (d) an offence under section 319 of the **Crimes Act 1958** arising out of the driving of a motor vehicle other than the operating of a vessel (dangerous driving causing death or serious injury).
- (4) Section 25(3) of the **Road Safety Act 1986** provides that, on being notified that a person who holds a Victorian driver licence or learner permit has been disqualified from driving or obtaining a licence or permit in another jurisdiction as a result of having been convicted or found guilty of a corresponding interstate drink-driving offence committed in that jurisdiction, the Roads Corporation must –
  - (a) cancel that Victorian driver licence or learner permit; and

- (b) disqualify the person from obtaining a Victorian driver licence or learner permit for the period determined in accordance with sections 24(4), (5), (6), (7) and (9).
- (5) Section 25(4) of the **Road Safety Act 1986** provides that, subject to subsections (5), (6), (7) and (9), the period of disqualification for a corresponding interstate drink-driving offence is the minimum period of disqualification that would apply had the person been convicted or found guilty of the Victorian drink-driving offence to which the corresponding interstate drink-driving offence corresponds.
- (6) Section 31KB(1) and (2) of the **Road Safety Act 1986** provide that a Victorian driver licence or learner permit granted by the Roads Corporation to the following persons must be made subject to an alcohol interlock condition –
  - (a) a person who holds a current licence or permit authorising the person to drive a motor vehicle issued in another State or a Territory that is subject to an alcohol interlock condition and paragraphs (b) and (c) do not apply to the person; or
  - (b) a person –
    - (i) who was prevented under section 23A of the Act from obtaining a Victorian driver licence or learner permit because the person was disqualified from driving in another State or a Territory in respect of a corresponding interstate drink-driving offence; and
    - (ii) is no longer prevented from obtaining a Victorian driver licence or learner permit; or
  - (c) a person –
    - (i) who has been disqualified under section 25(3) of the Act from obtaining a Victorian driver licence or learner permit in respect of a corresponding interstate drink-driving offence; and
    - (ii) has ceased to be so disqualified.
- (7) Section 31KB(4) of the **Road Safety Act 1986** provides that a person granted a driver licence or learner permit on which an alcohol interlock condition is imposed under section 31KB cannot apply under section 50AAAB for the removal of the condition during the period (the ‘relevant period’), determined in accordance with section 31KB(5) and (6).
- (8) Section 31KB(8) of the **Road Safety Act 1986** provides that, in certain cases, the Roads Corporation can impose a reduced or nil alcohol interlock condition period if the person has complied with the requirements of an alcohol interlock condition imposed by another State or a Territory in respect of the corresponding interstate drink-driving offence.

  - (b) arising out of the driving of a motor vehicle (other than the operating of a vessel).
- (5) Where an offence under section 49(1)(a) of the **Road Safety Act 1986** is specified in Column 3 of Schedules 1 to 7 to this Order, this means an offence under that section other than an offence involving only a drug.
