## Standing Offer Tariffs

GloBird Energy Pty Ltd (GloBird Energy) has determined to vary the tariffs on which it will offer to supply and sell electricity to domestic or small business customers in accordance with section 35 of the **Electricity Industry Act 2000** and the conditions of its licence to sell electricity. The varied standing offer tariffs are set out in the tables below.

As required by section 35D of the **Electricity Industry Act 2000**, the required tariff information in respect of GloBird Energy's varied standing offer tariffs is as follows:

The weighted tariff variation is -1.2%.

The varied tariffs take effect on and from 1 January 2020.

The varied tariffs are GloBird Energy's standing offer tariffs for domestic customers and its standing offer tariffs for small business customers.

The main reason for the variation of GloBird Energy's standing offer tariffs is that those variations are required to comply with the price regulation applicable to the Victorian default offer under an Order in Council made under section 13 of the **Electricity Industry Act 2000**.

**Gas Industry Act 2001**

MOMENTUM ENERGY (ABN 42 100 569 159)

## Victorian Standing Offer Tariffs – Gas

Pursuant to sections 42 and 46 of the **Gas Industry Act 2001** (Vic.), Momentum Energy ABN 42 100 569 159 advises the following Victorian Gas Standing Offer Tariffs to residential and small business customers become effective 1 January 2020, until such time as the tariffs are varied. The weighted average tariff increase for affected domestic gas customers is a 1.96% increase and the weighted average tariff increase for affected business gas customers is a 2.04% increase. The main reason for the increase are changes in the distribution, transmission and wholesale pass through costs associated with retailing gas to homes and businesses. For further information refer to [www.momentum.com.au](http://www.momentum.com.au) or contact Momentum Energy by phone on 1300 662 778, Fax 03 9620 1228, by email [info@momentum.com.au](mailto:info@momentum.com.au) or by mail to P.O. **Standing Offer Charges**

The following tariffs apply to the sale of electricity in accordance with section 35, section 37 and section 39 of the **Electricity Industry Act 2000** and are effective from 1 January 2020.

Origin is changing our standing offer electricity charges from 1 January 2020. The change is mainly due to an increase in network charges and wholesale electricity costs.

The weighted average tariff increase for residential standing electricity customers is 7.1%, while there will be a weighted average tariff decrease of 2.3% for standing small business customers whose annual consumption is less than 40 MWh.

**Applicability of rates:**

Rates subject to confirmation of distribution zone, meter type and configuration, and details of supply address. Guidance regarding applicability is set out below.

**Single Rate tariffs:**

These tariffs consist of a daily supply charge, and then a per kWh energy rate which is the same at all times of the day, 24 hours a day. These tariffs do not have any 'Off Peak' rates but Controlled Load rates may apply. This tariff is the basic network tariff for general usage for most cases. Block One rates are applicable for the first 1020 kWh of usage per quarter. Block Two rates are applicable for all usage after the first 1020 kWh of usage per quarter.

**Controlled Load rates:**

Rates for time switch controlled hot water services, space heaters and other dedicated loads, generally controlled between 11 pm and 7 am.

**Time of Use tariffs:**

These tariffs consist of a daily supply charge, and different per kWh energy rates for peak times and off peak times. Peak times are generally between 7 am and 11 pm (Monday to Friday for 5 Day TOU tariffs and all week for 7 Day TOU tariffs), and all other times are off peak.

**Flexible tariffs:**

These tariffs include a 'shoulder' per kWh energy rate in addition to peak and off peak rates. For these tariffs, peak times are generally between 3 pm and 9 pm Monday to Friday, off peak times are generally between 10 pm and 7 am all week, and all other times are shoulder times.

**Time of day tariffs:**

These tariffs include a 'shoulder' per kWh energy rate in addition to peak and off peak rates. For these tariffs, shoulder times are generally between 7 am and 3 pm Monday to Friday, off peak times are generally between 11 pm and 7 am Monday to Friday and any time on weekend (5 time-of-day) or off peak times are generally between 9 pm and 7 am Monday to Friday and any time on weekend (5 time-of-day 9 pm), and all other times are Peak times.

**Residential and Small Business Demand:**

Summer Demand Charge (1 Dec to 31 Mar): based on monthly maximum demand between 3 pm and 9 pm local time Mon-Fri. Non-Summer Demand Charge (1 Apr to 30 Nov) based on monthly maximum demand occurring between 3 pm and 9 pm local time Mon-Fri.

**Medium Business Demand:**

Summer Demand Charge (1 Dec to 31 Mar): based on monthly maximum demand between 10 am and 6 pm local time Mon-Fri (except AusNet Services which is 3 pm-9 pm Mon-Fri and Jemena which is 10 am-8 pm Mon-Fri). Non-Summer Demand Charge (1 Apr to 30 Nov) based on monthly maximum demand occurring between 10 am and 6 pm local time Mon-Fri (except AusNet which is 3 pm-9 pm Mon-Fri and Jemena which is 10 am-8 pm Mon-Fri), and for non-flat tariff medium business demand 5-day time of use chargeable usage period applied to peak and off peak rate.
