## EXEMPTION

Application No. H406/2019

Under section 89 of the **Equal Opportunity Act 2010** (the Act) the applicant, Leidos Australia Pty Ltd (ACN 612 590 155), seeks exemption from liability under sections 16, 18, 21, 105, 107 and 182 insofar as they relate to the race of present and future employees and contractors (personnel) for the following **proposed exempt conduct** in accordance with the conditions noted in the conduct:

**Applicants for employment**

- (a) inform applicants for employment or contract work in roles which will require access to Controlled Material and are subject to permits, licences, approvals or agreements made under United States of America (US) and Australian import and export control laws that they may be adversely affected by International Trafficking in Arms Regulations US (ITAR) and Export Administration Regulations US (EAR) controls if they:
  - (i) are not an Australian citizen; or
  - (ii) hold or have held, dual nationality and/or citizenship from proscribed countries for the purposes of Security Requirements; or
  - (iii) have substantive contacts with proscribed countries for the purposes of Security Requirements;

**Requests for information about nationality**

- (b) request information from prospective personnel who perform work on the applicants premises or offsite and who are subject to the applicant's control and direction for positions related to projects which use Controlled Material, in relation to prospective citizenship, previous citizenships, race or nationality, or substantive contacts where such contacts are affiliated with countries proscribed by section 126.1 of ITAR, provided the request for information is limited to information for determining whether an application for authorisation would be required to allow the prospective personnel to have access to Controlled Material and whether in the applicant's reasonable judgment that the application would have significant prospects of success;

**Use of nationality information**

- (c) impose a condition on any offer of employment in roles which are likely to require access to Controlled Material that an applicant for those roles must, pursuant to ITAR, be authorised to access that Controlled Material, whether pursuant to an individual approval obtained from the US Department of State or otherwise;
- (d) take into account citizenship, previous citizenships, race or nationality, or substantive contacts of personnel where such contacts are affiliated with countries proscribed by section 126.1 of ITAR in determining whether those personnel may be offered a role or allocated work that involves access to Controlled Material;
- (e) maintain records of the nationalities, citizenships and substantive contacts of personnel who have or may have access to Controlled Material;
- (f) require personnel involved in projects which access Controlled Material to notify the applicant of any change to their citizenship status or substantive contacts;
- (g) restrict access to Controlled Material to particular personnel based on their citizenship, previous citizenships, race or nationality, or substantive contacts where such contacts are affiliated with countries proscribed by section 126.1 of ITAR;
- (h) record information relating to security clearances granted to personnel who are under the control and direction of the applicant in relation to work requiring access to Controlled Material;
- (i) impose limitations or prohibitions on access to Controlled Material on persons not authorised to access the Controlled Material;

- (j) maintain records of the nationalities of persons who have or will have access to Controlled Material, with distribution limited to only those persons with a need to know, for the purposes of determining their ability to participate in a particular engagement;
- (k) establish security systems and access protocols that will prevent the unauthorised export or transfer (including re-export or re-transfer) of Controlled Material;
- (l) disclose, if and when required, citizenship, previous citizenship, race or nationalities, or substantive contacts where such contacts are affiliated with countries proscribed by section 126.1 of ITAR, or the applicant's personnel in Victoria to:
  - (i) the US Department of State;
  - (ii) the US Department of Commerce;
  - (iii) the Australian Department of Defence; and
  - (iv) any other person or organisation for which, or on whose behalf, or at whose request the applicant undertakes work in respect of which the applicant has directly or indirectly an obligations not to transfer Controlled Material to persons of certain nationalities.

### Definitions

In this exemption:

- (a) 'Controlled Material' means material (including equipment, technology, articles and services) and information (including classified or sensitive information and technical data) to which the Security Requirements apply.
- (b) 'Personnel' means the current and prospective workforce of the applicant, including employees, contract workers, employees or contractors and candidates or applicants for these roles.
- (c) 'Security Requirements' means any of the following:
  - (i) requirements of Australian or US laws, including but not limited to ITAR and EAR, including requirements or any permit, licence or approval granted, or agreement made, under those laws; and
  - (ii) contractual requirements applying to the applicant and relating to any of the requirements mentioned in subparagraph (i) above.

### Conditions in the exemption

1. This exemption applies only to the applicant's conduct where:
  - (a) It is necessary to enable the applicant to obtain and maintain US export licences and approvals or to perform contractual obligations which involve access to Controlled Material.
  - (b) The applicant has taken all steps reasonably available to avoid engaging in conduct which would otherwise be in breach of sections 16, 18, 21, 105, 107 and 182 of the Act including:
    - (i) reliance on ITAR exemptions, exceptions or other provisions, including section 126.18 of ITAR where applicable;
    - (ii) where personnel are nationals or dual nationals of a country not approved for access to Controlled Material, then the applicant will either request the US Department of State, or request the relevant export licence holders to request the US Department of State to amend the relevant export licences to enable those personnel to have access to Controlled Material, unless the applicant, on reasonable grounds, determines the either:
      - (A) the personnel are not the best candidate for the relevant positions; or
      - (B) such an application does not have significant prospects of success.

- (iii) in the event the US Department of State requires the applicant to provide further information specific to an individual, then with the consent of that individual, the applicant will work with the individual to supply all relevant information to the US Department of State so that an application for approval may be made in relation to that individual.
2. Where, pursuant to this exemption, the applicant wishes to reserve the right to make a conditional offer of employment in relation to a position which will or may involve access to Controlled Material, any advertisement, invitation for expressions of interest, or other promotional information referring to the position must include information that:
  - (a) the position will or is likely to require access to Controlled Material and that any individual occupying the position must be able to satisfy ITAR-based requirements which may require specific authorisation for that individual to access Controlled Material; and
  - (b) if a candidate for the position is concerned as to whether or not they will satisfy the requirement in (a) above, the candidate should contact a nominated member of the applicant's personnel who is able to provide relevant information, including information about the scope of the exemption and the candidate's rights.
3. The applicant must report in writing to the Victorian Equal Opportunity and Human Rights Commission and the Tribunal a written report for every 12 month period from the date of this exemption order. Each report must be provided within 21 days from the end of the relevant reporting period. Each report must detail:
  - (a) the steps it has taken to comply with the terms of the exemption;
  - (b) the number of persons affected by the exemption, the nature of the effects and the steps taken to redress any adverse effects; and
  - (c) the implementation of and compliance generally with the terms of the exemption.

Upon reading the material filed in support of this application, including two affidavits from Alison McPheat, hearing her evidence on affirmation and the submissions from Ms Fitzgerald of counsel the Tribunal is satisfied that it is appropriate to grant an exemption from sections 16, 18, 21, 105, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption, the Tribunal noted:

- The applicant provides large-scale systems integration and information technology services predominantly to the Commonwealth of Australia, including Defence. Its current contracts with Defence are valued over \$1 billion AUD.
- To meet Defence contracts the applicant requires access to Controlled Material which access is subject to controls under the US export control laws including the ITAR and the EAR. Compliance with these US control laws includes, for example, requesting and storing personnel nationality information and taking into account personnel citizenship, previous citizenships held, race, nationality or substantive contacts when deciding whether a person may be offered a role or allocated work that involves access to Controlled Material. A failure to comply can result in disbarment and financial or criminal penalties by the US Department of State. Disbarment would mean it is unable to perform its contracted works which would result in significant redundancies from its 479 personnel (458 employees). An inability to operate and use the Controlled Materials will have serious consequences for the applicant and for Australia's national security interests.
- The applicant has complied with directions given by me on 17 January 2020 to notify all its Victorian employees of the application and the hearing arrangements. Ms McPheat's affidavit notes that there was one written and one verbal response to the notification, neither of which raised objection. In response to the notification, the Tribunal received one unsigned objection which appeared to raise objection but its terms were diffuse and unclear. No person attended the hearing (which was advertised to all employees) to raise objections.

- I note the applicant's submissions that no current personnel will lose their position or contract as a result of the exemption being granted. The applicant operates a diversity policy and the latest iteration of this policy was implemented in December 2018. The applicant promotes inclusion as a corporate value.
- The applicant has been the subject of similar exemptions in the Australian Capital Territory and New South Wales. I note submissions that in 12 months' operation in the Australian Capital Territory that exemption has not been relied on to exclude any personnel, but the exemption has been used to make enquiries of personnel or prospective personnel as to race, nationality and citizenship.
- I am satisfied that no relevant exceptions or exemptions apply under the Act to the proposed exempt conduct and that, without an exemption, the proposed exempt conduct would amount to unlawful discrimination under the Act. The proposed exemption is necessary under section 90(a) of the Act.
- When making decisions about exemptions, the Tribunal is required to give proper consideration to relevant human rights as set out in the **Charter of Human Rights and Responsibilities Act 2006** (the Charter). Arguably, this exemption limits the right to equality and, in particular, the right to equal and effective protection against discrimination of personnel with certain nationalities and citizenship (or who have contacts with persons of certain nationalities and citizenship) who would wish to be employed or contracted by the applicant.
- The effect of the Charter on very similar exemption applications has been explored in previous VCAT decisions, including *BAE Systems Australia Limited* [2012] VCAT 349, *Raytheon Australia Pty Ltd* [2014 VCAT] 1370, *Thales Australia Limited and ADO munitions Pty Ltd* [2014] VCAT 1441, *Linfox Australia Pty Ltd – Exemption (Human Rights)* [2015] VCAT 528 and *BAE Systems Australia Defence Pty Ltd – Exemption (Human Rights)* [2015] VCAT 230. I adopt the reasoning applied by Member Dea in those cases and note that, for the purposes of the Charter, there is a direct relationship between the limitation imposed by a potential exemption and the purpose of the limitation. That is, the applicant will be unable to maintain its core business with Defence without the ability to screen personnel in relation to race, nationality and citizenship and those of close affiliates which would severely limit the numbers of personnel it could engage and would lead to loss of work.
- The applicant did not object to the imposition of reporting conditions consistent with previous exemptions granted in similar application. With the addition of those reporting conditions (added to the proposed exempt conduct at point 3 above), I am satisfied that, in the circumstances discussed above, the limit imposed by this exemption is reasonable and justified under the Charter.

Tribunal hereby grants an exemption from the operation of sections 16, 18, 21, 105, 107 and 182 of the Act to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the date on which it is published in the Gazette until 30 March 2024.
