Other Notices

CONTAMINATED LAND MANAGEMENT ACT 1997

Environment Protection Authority

Declaration of Remediation Site under Section 21

Declaration Number 21038; Area Number 3362

THE Environment Protection Authority (EPA) declares the following land to be a remediation site under the Contaminated Land Management Act 1997 ("the Act"):

1. Land to which this declaration applies ("the site")

Lots 1 – 4, DP 818957 in the local government area of Manly, located at the end of Addiscombe Road, Manly Vale NSW. A map of the site is available for inspection at the offices of the Department of the Environment and Conservation, Level 15, 59-61 Goulburn Street, Sydney NSW 2000.

2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with the following substances ("the contaminants"):

- asbestos;
- polycyclic aromatic hydrocarbons (PAHs);
- benzo(a)pyrene; and
- lead, cadmium, copper and zinc.

In particular the EPA has found:

in relation to the currently unfenced area of the site that

- pieces of asbestos sheeting and loose asbestos fibres are present in soil of the public track on the site, including in surface layers;
- significantly elevated levels of PAHs, benzo(a)pyrene and lead are also present in soil on the site, including in surface layers, at concentrations exceeding the relevant health based criteria for open space use; and

in relation to the currently fenced off area of the site that

- asbestos and elevated levels of PAHs, lead and cadmium are present in the soil on the site, including in surface layers;
- PAHs are present in the groundwater on the site at concentrations exceeding criteria for the protection of aquatic ecosystems; and
- significantly elevated levels of zinc and copper are present in the groundwater on the site.

3. Nature of harm that the contaminants may cause:

The EPA has considered the matters in section 9 of the Act and for the following reasons has determined that the site is contaminated in such a way as to present a significant risk of harm to human health and the environment:

- PAHs, lead, zinc and copper are toxic to aquatic organisms and humans;
- lead, zinc and copper are persistent in the environment and bioaccumulate;
- zinc and copper-contaminated groundwater may be discharging from the site into the adjacent Manly Lagoon;
- a large proportion of the site is flood prone and the migration of contaminants from the site would be exacerbated by a major flood event;

- asbestos is a known human carcinogen;
- while the track in the currently unfenced area is currently covered with a protective layer the layer requires maintenance to ensure that there is no human exposure to the asbestos fibres in the soil of the track.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of a voluntary remediation of the site and any person may submit a voluntary remediation proposal for the site to the EPA. If the proposal satisfies the requirements of section 26 of the Act, the EPA may agree not to issue a remediation order to the person or persons bringing the proposal.

5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a remediation order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Director Contaminated Sites
Department of Environment and Conservation
PO Box A290,
Sydney South NSW 1232

or faxed to: (02) 9995 5999

by not later than 3 December 2004

CAROLYN STRANGE,
Director Contaminated Sites
Department of Environment and Conservation

Date: 27 October 2004.

NOTE:

Remediation order may follow

If remediation of the site or part of the site is required, the EPA may issue a remediation order under section 23 of the Act.

Variation/Revocation

This declaration may be varied by subsequent declarations. It remains in force until it is otherwise revoked. A declaration may only be revoked when the EPA does not have reasonable grounds to believe that land is contaminated in such a way as to present a significant risk of harm (section 44 of the Act).

Information recorded by the EPA

Section 58 of the Contaminated Land Management Act 1997 requires the EPA to maintain a public record. A copy of this remediation declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to section 149 (2) of the Environmental Planning and Assessment Act that the land is currently within a remediation site. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the section 149 (2) certificate is no longer required.

Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.

CONTAMINATED LAND MANAGEMENT ACT 1997

Environment Protection Authority

Declaration of investigation area

Section 15 of the Contaminated Land Management Act
1997

Declaration No: 15007

File No: HO 1071

THE Environment Protection Authority (the "EPA") declares the following land to be an investigation area under the *Contaminated Land Management Act 1997* ("the Act"):

1. Land to which this declaration applies ("the site")

Lot 2 in DP 787416 Flinders Street Port Kembla New South Wales 2505 (known as Manildra Park Bulk Storage Depot)

2. Nature of the substances causing the contamination

Contaminants at the site include the C₆ to C₃₆ fraction of total petroleum hydrocarbons (TPH) and polycyclic aromatic hydrocarbons (PAH's) (the "hydrocarbon contamination").

3. Reasons for the declaration

The EPA has reasonable grounds to believe that the site is contaminated in such a way as to present a significant risk of harm for the following reasons:

- dissolved phase hydrocarbon contamination has degraded the quality of the groundwater and separate phase hydrocarbons may also be present in the western perimeter well on-site;
- groundwater in the western area of the site is contaminated with benzene, a known human carcinogen, at concentrations exceeding the ANZECC criteria for the protection of aquatic ecosystems;
- there is the potential for off-site migration of hydrocarbon contamination in the northern area and at the western boundary of the site in the region of a decommissioned pipeline;
- there is a risk of harm to human health if volatile vapours from the hydrocarbon contamination enter service trenches or other enclosed spaces on the site at concentrations that may be an inhalation hazard or an explosion hazard. There is a risk of harm to the environment as groundwater on the site ultimately discharges into Port Kembla Harbour.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of a voluntary investigation of the area and any person may submit a voluntary investigation proposal for the area to the EPA. If the proposal satisfies the requirements of section 19 of the Act, the EPA may agree to the proposal and not issue an investigation order against the parties to the proposal.

5. Submissions invited

The EPA advises that the public may make written submissions to the EPA on:

- Whether it should issue an investigation order in relation to the site; and/or

- Any other matter concerning the area.

Submissions should be sent in writing to:

Director Contaminated Sites
Department of Environment and Conservation
PO Box A290
SYDNEY SOUTH NSW 1232

or faxed to: 02 9995 5999

by not later than 5pm on **3 December 2004**

CAROLYN STRANGE,
Director Contaminated Sites
Department of Environment and Conservation
(by delegation)

Date: 3rd November 2004.

NOTE:

Investigation order may follow

If investigation of the area or part of the area is required, the EPA may issue an investigation order under section 17 of the Act.

Variation/Revocation

This declaration remains in force until it is otherwise varied or revoked. A declaration may only be revoked when the EPA does not have reasonable grounds to believe that land is contaminated in such a way as to present a significant risk of harm. (section 44 of the Act).

Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this investigation declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to inform the relevant local council as soon as practicable that this declaration has been made. The council is then required to note on its planning certificate issued pursuant to section 149 (2) of the Environmental Planning and Assessment Act that the land is currently within an investigation area. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the section 149 (2) certificate is removed.

Voluntary investigation

The making of this declaration does not prevent the carrying out of a voluntary investigation of the site by any person.

DISTRICT COURT OF NEW SOUTH WALES

Practice Note No. 67

**Attendance of Authorised Clinician to
Give Evidence in Child Care Appeals****Date:****Purpose**

The purpose of this practice note is to introduce a similar procedure in child care appeals to that followed in the Children's Court in relation to the attendance of Authorised Clinicians.

In child care appeals, requests will sometimes be made for the attendance at court of the Authorised Clinician who prepared the Assessment report on behalf of the Children's Court Clinic. As the Authorised Clinician was not engaged by any party to the case, but was in effect employed by the Court, there is a need to define procedures to ensure the Authorised Clinician comes to court if required.

A party requesting the attendance of an Authorised Clinician must file a *Request to Court for Authorised Clinician to give Evidence (the Request)* for the consideration of the Judge.

Audio and Video Links

Given their independent role, the cross-examination of Authorised Clinicians may be quite short in many cases. Judges are therefore encouraged to pursue the use of telephone and video links for taking evidence from Authorised Clinicians, especially in country centres.

Registrar to notify clinician to attend

If the Judge grants the request for the attendance of an Authorised Clinician, the Registrar of the Court will forward a *Notice to Authorised Clinician to give Evidence (the Notice)*, **in duplicate**, to the Authorised Clinician and forward a copy of the *Notice* to the Children's Court Clinic. The duplicate copy is to be signed by the Authorised Clinician and returned to the Court to acknowledge receipt of the *Notice* and confirm the attendance of the Clinician.

The *Notice* **must** state the type of cross examination (telephone, video link or personal attendance) as directed by the Judge.

Confirmation of attendance

The Authorised Clinician should liaise directly with the Registrar of the requesting Court regarding:

- a. Time of attendance
- b. Expected duration of attendance
- c. Where and to whom to report at Court
- d. Any problems in attending Court on the date required
- e. Any other issue relevant to the administration arrangements

Registrars must liaise with the presiding Judge / Associate to assist in this regard.

Fees

Authorised Clinicians are entitled to remuneration as if the Authorised Clinician had given evidence before the Children's Court and shall submit an invoice to the Registrar of the District Court in which they appeared.

Dated this 2nd day of November 2004.

"**active player**" for a round of play means a player who is all-in or has not folded;

"**all-in**" means a player who has invested all of their remaining chips in the outcome of a hand. Their bet cannot exceed the structured limit and/or raise, if a raise is an option. An all-in player can only win that portion of the pot or pots to which they have contributed;

"**ante**" means a predetermined contribution to the pot placed by all players prior to the first card being dealt in a round of play;

"**bet**" means placing the required wager, and includes a call and/or raise if permitted, to remain in the round of play or going all-in if remaining chips are less than the size of the required wager;

"**betting round**" means a period of play during which each active player, in order, has the option to check, bet or fold until all wagers have been matched or reached the maximum number of raises;

Any winnings resulting from such wagers are to be paid in chips;

"**casino supervisor**" means a person employed in a casino in a managerial capacity relating to the conduct of gaming and includes a games supervisor;

"**check**" means to abstain from wagering but continue to stay in contention for the pot by retaining the right to re-enter the betting after all other players have either bet or folded. A check shall only be an option if no blind is placed or bet made;

"**commission checks**" means chips without denomination markings which may be used to pay commission depending on the commission structure in use;

"**commission**" means an amount due to the casino operator for hosting the game;

"**community card(s)**" means a card or cards dealt to the center of the table, which may be used by all players to complete their best possible hand;

"**dealer**" means a person responsible for the operation of the game;

"**designated player**" is the last player to receive cards in the initial deal and is indicated by the use of the dealer button;

"**pot**" means the sum of the antes, blinds and bets wagered;

"**raise**" means to make a bet greater than the amount of a previous wager made during a betting round;

"**round**" means a period of play where the dealer button moves around the table and it has reached a particular player a second time;

"**round of play**" means the period of play at a table commencing with the dealing of the first card by the dealer and concluding when the dealer announces a result and passes the pot to the winning player;

"**side pot(s)**" means a separate pot or pots created in a game of poker due to one or more players being all-in;

"**structured limit**" means the betting range and structure designated for each game variation;

"**substantial action**" where two or more players have acted on their hands;

"**table stake**" means the amount of chips a player has on the table and in plain view before the start of any round of play. An active player may only wager up to the amount of chips on the table and may not augment their table stake whilst a round of play is in progress;
